The King of Italy

A Novel

Kent Heckenlively

Immerse yourself in a sweeping family saga spanning decades and including many famous names, including Benito Mussolini and King Victor Immanuel II.

In *New York Times* bestselling author Kent Heckenlively's fiction debut, *The King of Italy*, we first meet Vincenzo Nicosia as a young boy in Sicily, watching as his father is sent to jail for nearly beating a man to death. The person he blames more than anybody else for this is Alessandro de Leone, the Duke du Taormina, and the illegitimate son of King Victor Immanuel II, the unifier of Italy in the 1870s.

Vincenzo is approached by Benito Mussolini as part of his plan to take control in Italy, which involves dealing justice to the long-hated Duke. After completing his part of the plan, Vincenzo is betrayed by Mussolini and forced to flee to America.

In San Francisco, far away from the troubles in Italy, Vincenzo struggles to forget his past and forge a new life as a builder. But the past never stays buried, as Vincenzo's violent nature reasserts itself as new challenges arise.

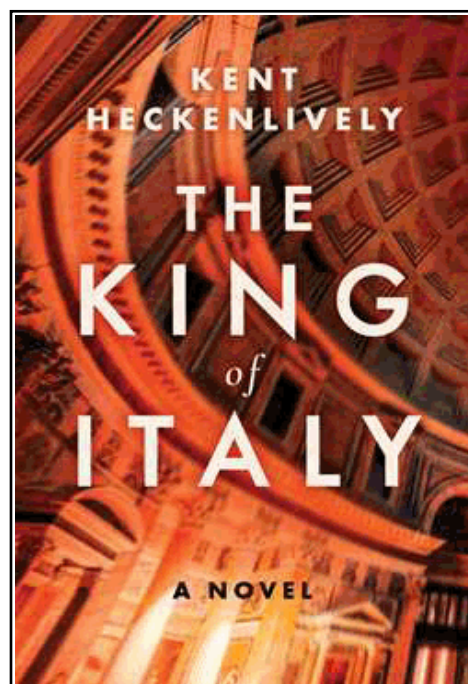

As World War II begins, Vincenzo's nephew, Alex, volunteers for the army. Vincenzo tells Alex, "It's your mission to kill Mussolini and avenge your family."

Alex attempts to fulfill his uncle's plan and nearly succeeds. But at the end of the war Alex is swept into Italian politics as the country struggles to recover from devastation. Alex may hold the future of Italy in his hands. However, the truth he finds could destroy the new life his uncle Vincenzo has made for himself in America.

The King of Italy is a stunning historical novel, filled with passion, violence, and political intrigue, that you won't be able to put down until the last page.

American Sycamore

A Novel

Charles Kenney

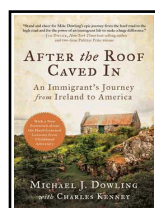

A moving novel about the devotions of friendship and the power of love to heal, *American Sycamore* celebrates the American experiment and the importance of giving a damn.

Friends since their college days, Rob, Julia, and Ray are boomers who set out in their twenties to make things right in America. A couple since law school, Rob is a distinguished Constitutional scholar at Harvard and Julia a prominent journalist writing a book about the wreckage of the nation's political life, while Ray serves as dean of the medical school. Ray's work as a physician in a Vietnam combat zone left him scarred yet with a powerful and loving commitment to heal and to support his friends through tragedy. Together, they've accomplished things that matter—in the public square and in medicine.

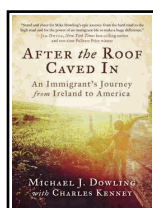

Yet, in contemporary America, they still have some hard lessons to learn. After the *New York Times* publication of the 1619 Project, Rob finds himself out of step with critics and his students, but his and Julia's secure world is truly shaken by a diagnosis of prostate cancer that will require medical intervention—releasing memories of another time when their lives were turned upside down. Meanwhile, when Ray learns that the hospital and school he has devoted his life to may have betrayed patients and the medical community, he must choose whether to take up again a fight he has waged all his life against the worst impulses of big institutions.

Praise for *American Sycamore*:

"A gripping novel that reflects the turbulence in American life and the challenges of the American experiment. I found it riveting."—Ben Bradlee Jr., Pulitzer-Prize winning editor of the Boston Globe Spotlight team (the basis for Oscar best picture, *Spotlight*)

"With *American Sycamore* Charles Kenney has given us a deeply moving and engrossing story about life in America today. His portrait of Rob and Julia Barrow and their closest friend, Dr. Ray Witter, is flawless, and Kenney seamlessly navigates us through their losses, tears, and triumphs, through the obstacles of living with cancer, dealing and dueling with academic 'wokeism,' and a decades-old case of medical malpractice. The rewards are in reading this treasure of a novel."—Mike Barnicle

"A profound chronicle of our time. It is also an exquisite rendering of hope and the invincible power of love between husband and wife, even in the face of unthinkable personal tragedy."—Barbara Delinsky, *New York Times* bestselling author

"Wonderful and especially apt for these times, *American Sycamore* celebrates resilience, humanity, and grace. Let's hope this novel is widely read and that its generosity of spirit is highly contagious."—Bob Kerrey, former US Senator, Navy SEAL and Medal of Honor recipient

"Profoundly moving. With this deeply personal novel Kenney delivers an unflinching and unforgettable love story."—Deborah Kosofsky, Senior Producer, *Today*

"In *American Sycamore*, Charles Kenney pulls off a feat few novelists attempt and even fewer achieve. He tells a remarkably powerful story tightly focused on three characters—a married couple and their best friend, as one of them battles cancer—and simultaneously unfolds a much more sweeping saga that vividly captures the current historical moment as a generation faces its reckoning. This is storytelling operating on all cylinders. I found *American Sycamore* hard to put down; and for weeks afterward, impossible to forget."—Dayton Duncan, author and filmmaker

Talking Stick

A Novel

Donna Levin

Four women find humor, truth, romance, and a better path forward by deconstructing memory and emotion—and exposing a wannabe cult leader along the way.

Hunter is lost. Her husband left her for Angelica, her former best friend whose new hit memoir is spreading unsavory lies about Hunter. She's unemployed with no prospects, and the San Francisco flea market she's wandering on a weekday is so foggy that she literally doesn't know where she is.

It's only after a helpful visit and a gift from a stranger who appears from the mist that Hunter finds her resolve. She begins a support group for women looking for new beginnings—only to have Angelica start one, too. In the next room over. One that feels very cult-y.

The Talking Stick is the adventure of Hunter and the three women who join her reclamation journey. Together, they reexamine their pasts, exploring their grief, addictions, parenting, and marriages, and discover that some of their most-cherished memories are romanticized versions of the truth. Meanwhile, they unearth other memories—memories that challenge how they've been living for years. And, with the help of a lawyer who prefers life on a houseboat to the pretensions of the city, Hunter unravels Angelica's scheme.

The Talking Stick is a fast-paced dramedy set in the Bay Area, told with the characteristic humor of Donna Levin, an author whom *Kirkus* called "A witty, modern voice" and the *Los Angeles Times* deemed "a novelist to keep high on your reading list."

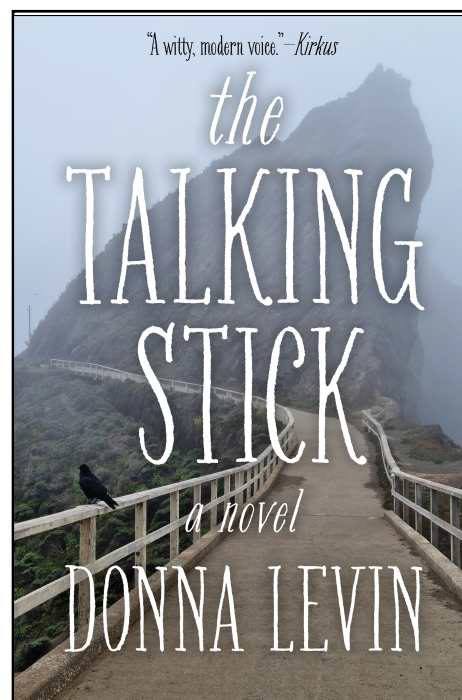

AUTHOR BIO

Donna Levin is the author of four acclaimed novels, *Extraordinary Means*, *California Street*, *There's More Than One Way Home*, and *He Could Be Another Bill Gates*. She has also written two books on the craft of writing: *Get That Novel Started* and *Get That Novel Written*. Her work is included at Boston University, in the Howard Gottlieb Archival Research Center, and in the California State Library's collection of California novels. She lives in San Francisco.

Suspicious Activity

A Legal Thriller

Mike Papantonio

***Suspicious Activity* is an epic drama of intrigue, suspense, thrills, and legal combat—torn out of today’s headlines.**

“The purpose of the lawsuit is to fully expose the bank’s willing support to groups that are killing Americans—and others—overseas.” This announcement by attorney Nicholas “Deke” Deketomis sets up the gladiatorial arena between Big Banking and a team of well-meaning activist lawyers.

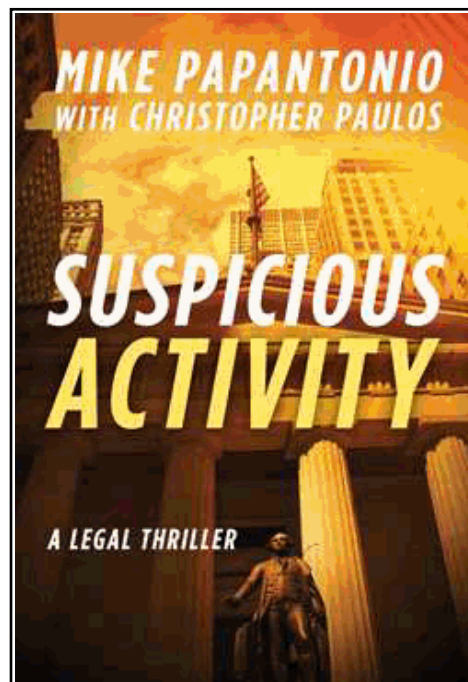

The Iraq and Afghanistan Wars introduced the concept of IEDs (Improvised Explosive Devices) and EFPs (Explosively Formed Penetrators) that seriously maim or kill. It appears that these bombs are still being made and utilized by terrorists overseas. Who is funding them? Could it possibly be a large global bank with a major branch in New York? Is a reverse money laundering scheme in place that allows money transactions to bypass Department of Justice sanctions?

Deke and his colleagues—co-counsel Michael Carey and investigators Carol Morris and Jake Rutledge—set out to uncover the deceit and bring the white collar criminals to justice. With the help of Michael’s friend and war veteran, Joel Hartbeck—who first blows the whistle against the bank—the Deketomis team quickly discovers that they may have tackled more than they bargained for. A dangerous right wing paramilitary group might be involved in protecting the bank’s interests, and Hartbeck soon goes missing. As Deke’s lawsuit progresses, the sudden appearance of IEDs and EFPs on US highways cause death and destruction. Who is behind this evil?

Readers who devour the financial-action-legal thrillers of Joseph Finder, Stephen Frey, and James Grippando will enjoy *Suspicious Activity*.

An Amish Romance

Linda Byler

The final book in the New Directions series delves into the complexities of a blended Amish family. Are love and faith enough to navigate through relationship tensions, homesickness, and tragedy?

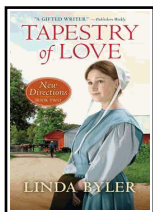

Susan has been in Wyoming long enough to feel at home, but instead she finds herself still struggling to adapt to the dusty landscape, the different customs, and life so far from family. She knows she should be appreciating the big, beautiful log home that Isaac built, but sometimes even that feels like a burden—so much of it to clean, and Isaac always traipsing in with his muddy boots and clothes smelling of diesel. But those are just the surface problems. The real struggle is the same as it has been since the day she married Isaac—the long hours he spends away at his logging job and the way his son Titus seems to loathe her presence in their lives.

Titus is growing quickly, coming closer to manhood every day. He's working with his father finally, always torn between wanting to impress him and being repulsed by the entire logging industry. He struggles with pent-up anger from his mother's death, Susan swooping in as if she could take her place, and never feeling like he's enough for his dad. But could a meeting with a young woman full of her own struggles change everything?

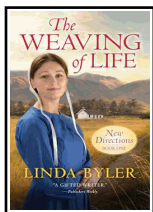

Author Linda Byler is an active member of the Amish church and writes all her novels by hand with a pen and notebook. She offers a unique and fascinating look into Amish history and culture.

AUTHOR BIO

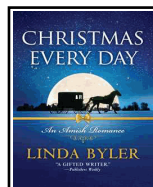

Linda Byler grew up Amish and is an active member of the Amish church today. Chivalry

Patrick Girondi

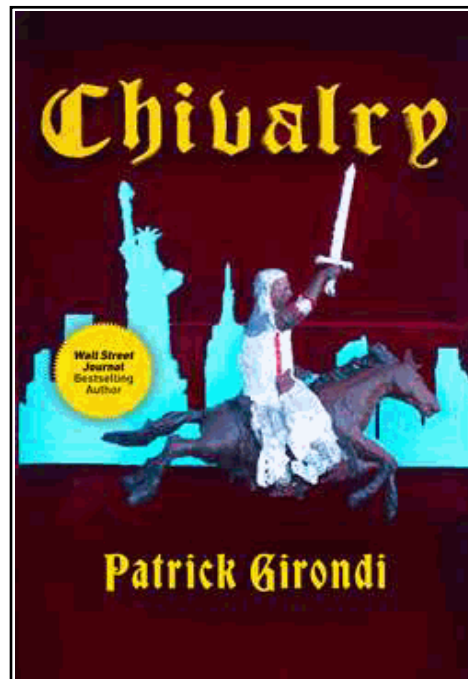

A story of a Gulf War veteran living incognito on the streets of New York

Chivalry takes place in New York City, where an aspiring author stumbles onto a manuscript. It becomes a bestseller. He must now find the true author.

Isa, a Gulf War sergeant, silenced a snitch to save his platoon from a murder rap. He now lives namelessly on the streets of New York, shielded by police formerly of his old platoon. His orders are clear: "If the authorities get close, take me out." For now, in limbo, Isa writes books. He spots his daughter, who has no idea who he is, on the bus. Full of emotion, he accidentally forgets a manuscript.

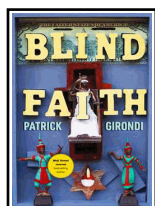

Bob Herman finds a woman who plagues his dreams and a manuscript he can't put down on a bus ride home. His boss scans the composition, shocked that Herman had it in him. With the might of an overnight literary superstar, it is now time to capture the woman of his dreams.

Herman wins Isa's daughter. To keep her, he needs another bestseller and sets off to find the true author. Eventually, they all find each other in what becomes a reunion of high emotion and peril.

The Oracle

A Novel

Ari Juels

Fears of a weaponized blockchain become reality when a software developer races to deactivate the rogue smart contract targeting him for assassination.

Life is comfortable for a prominent, if schlubby, developer at a New York City blockchain company. That is, until FBI Special Agent Diane Duménil seeks his help against a bewildering threat: The Delphians, worshippers of the god Apollo, have launched a rogue program on a blockchain. It's offering a crypto bounty to assassinate a European archaeology professor.

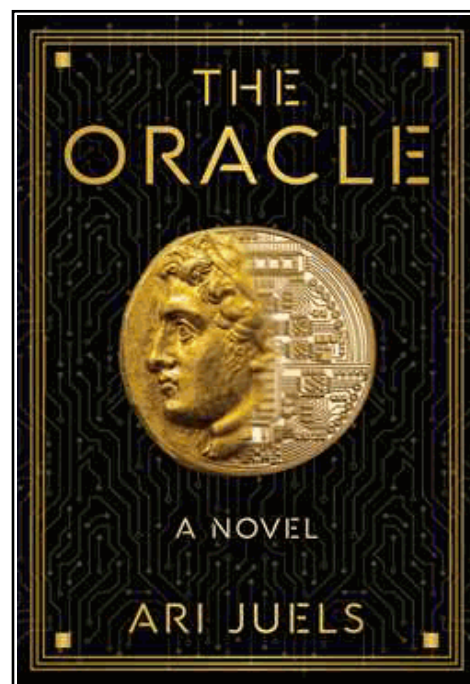

The developer brushes off the danger until he learns the next target: Himself.

Mythical antiquity collides with a near-future cyberworld as *The Oracle's* unassuming hero and his FBI partner race against time to dismantle the Delphians' murderous blockchain software.

Theirs is a whirlwind tale of oracles ancient and modern, vanished antiquities and conjured crypto billions, cybercriminals and digital idealists—narrated by a cynical hero normally more concerned with dark chocolate than the consequences of the technologies he's pioneering. What happens when the crypto ideals of privacy and truth might cost human lives—especially your own?

AUTHOR BIO

Dr. Ari Juels is a professor at Cornell Tech in New York City and at Cornell University, and codirector of the Initiative for CryptoCurrencies and Contracts (IC3). A renowned expert on blockchains and smart contracts, he also serves as Chief Scientist at Chainlink Labs, developer of today's most widely used blockchain oracles.

Praise for *The Oracle*:

"Ari Juels is a brilliant researcher at the forefront of understanding cryptography and what it means for our ability to trust each other and what we see in the world." —Vitalik Buterin, inventor of Ethereum

"Ari Juels's foresight regularly makes me wonder if he himself should be considered an oracle. His novel *The Oracle* makes it clear that the interaction between blockchains and AI creates a powerful force for how the world will work."—Sergey Nazarov, cofounder and CEO, Chainlink Labs

"A common definition of science fiction is 'making an argument for a world that has not yet come into existence.' In *The Oracle*, Ari Juels, a person at the heart of building tomorrow's world, does just that. A roller-coaster thriller that takes you irresistibly down a slippery slope of empowered cults using the latest technology to wag the societal dog. A must-read if you want to understand the new frontier that crypto brings to the real world. Brilliantly written and also very approachable, teaching you the basics of the crypto world of blockchain, smart contracts, and oracles in a fun and accessible way." —Laurence Moroney, AI Lead at Google and bestselling author

"At once a fun read and witty primer on the tech and moral quandaries of the blockchain universe. *The Oracle* is a rare treat." —Martha Pollack, president, Cornell University

"Blockchain technology is changing the world and creating new myths and legends along the way. If you're not in the thick of it—and even if you are—I can't think of a more entertaining and exhilarating ride than *The Oracle*." —Dr. Emin Gün Sirer, founder and CEO, Ava Labs

End Jew Hatred

A Manual for Mobilization

Brooke Goldstein

In this seminal book, award-winning filmmaker, civil rights attorney, and television personality, Brooke Goldstein, offers a groundbreaking and pragmatic strategy for ending Jew-hatred globally. What Saul Alinsky's *Rules for Radicals* was for progressives, *End Jew Hatred* is for the Jewish community and its allies.

Thousands of books have documented the victimization of Jews over the centuries. This is not one of those books. This book is about ending the world's oldest hatred against the world's most persecuted community.

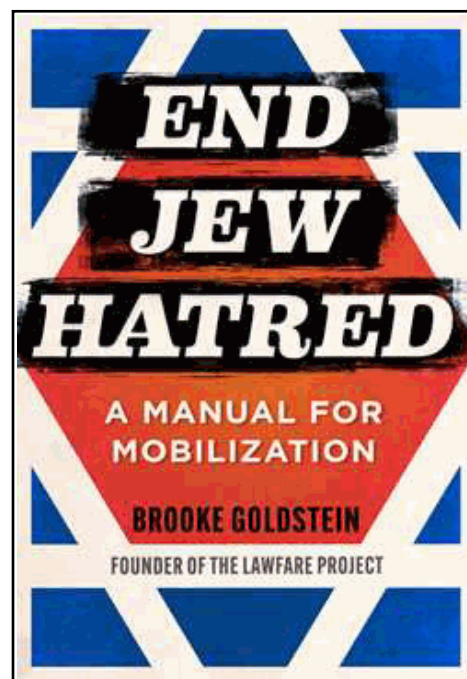

End Jew Hatred shows how we can affect real and lasting change by championing the Jewish cause as a minority rights issue. By harnessing the power of grassroots mobilization, direct action, and legal activism, Goldstein provides a historically unprecedented handbook on how the Jewish community can move from defensive to offensive advocacy, and effect real lasting change.

Through her experience as a civil rights attorney at The Lawfare Project, a filmmaker, and as the founder of the End Jew Hatred movement, author Brooke Goldstein offers an unparalleled deep dive into the civil rights cases she has fought to illustrate how impact litigation paired with social rights activism can be used to combat anti-Jewish discrimination and set a new precedent of Jewish empowerment.

Furthermore, Goldstein conducts a comprehensive study of social justice movements like the civil rights movement of the 1950s and 60s, the Black Lives Matter movement, the New Women's Movement, End Asian Hate movement, and the LGBTQIA+ movement, and argues that adopting their tactics, language, and organization can enact lasting meaningful change for Jews everywhere. She challenges the top-down approach traditionally used by Jewish communal leadership, arguing for adaptation with the times, and demonstrates how a bottom-up, decentralized strategy aimed at recruiting and rising up local activists is the future of Jewish advocacy.

We are living in an unprecedented age of progress in the fight for minority rights—a historic crossroads. *End Jew Hatred* underscores the need for a seismic shift in strategy away from pro-Israel advocacy and towards awakening a Jewish civil rights movement.

This is a book about securing the fundamental human right of Jewish people to live as equals, everywhere, regardless of conflicts happening in the Middle East. It is a clarion call for upending the status quo and disrupting the cycle of hatred; for drawing a new blueprint and tossing out existing structures; for unity; for diverting the nature of human hate and changing the course of history for the better.

While activists in the #MeToo and Black Lives Matter movements have made great strides, there has never been a unified and coordinated Jewish civil rights coalition in the West. The plight of the Jewish community must not be overlooked. In this moment in history, the world is uniquely positioned to finally extinguish the flames of antisemitism so Jews can claim their right to life and be treated equally and fairly around the world.

Make no mistake: Ending Jew hatred is the civil rights issue of our lifetime.

AUTHOR BIO

Brooke Goldstein is the founder of the End Jew Hatred movement. She is a civil rights attorney, author, award-winning filmmaker, and the founder and Executive Director of The Lawfare Project, a nonprofit advocacy organization with offices in the USA, Canada, Europe, and the Middle East. The Lawfare Project serves as a legal think tank and litigation fund to uphold the civil and human rights of the Jewish people and pro-Israel community worldwide. In 2006, Goldstein produced and directed the award-winning film *The Making of a Martyr*. She is a regular guest on television news media and has had numerous published editorials. In 2019, she was inducted into the MJHI Manhattan Jewish Hall of Fame. She is also the recipient of several awards for her public interest advocacy work, including the 2023 WIZO Charlotte and Sami Rohr Shomrei Israel Award, which pays tribute to those who have acted as guardians and protectors of the State of Israel and its people. Brooke's first book *Lawfare: The War Against Free Speech* serves as a first amendment guide to reporting in an age of Islamist lawfare.

Praise for Brooke Goldstein and *End Jew Hatred*:

"Her smile is bright as she fights antisemites. We all take glee in her legal victories. She is a huntress in the fight for justice." —Greg Gutfeld, *Fox News*

"Brooke's latest book, *End Jew Hatred: A Manual for Mobilization*, highlights an important strategy and demonstrates how impact litigation, paired with social rights activism, can achieve meaningful change and help end Jew-hatred in our lifetime. I strongly encourage everyone committed to a bright future for the Jewish people to read this book." —Ambassador Ronald Lauder

"Brooke Goldstein is a courageous and articulate human rights lawyer and leader of the Jewish people. At this time, with the increase in antisemitism globally, Brooke's work as the Founder and Executive Director of the Lawfare Project and #EndJewHatred has had a substantial impact in the fight against antisemitism. Her newest Book 'End Jew Hatred : A Manual for Mobilization' will make a difference by bringing her creative ideas and strategies to the attention of an even wider audience, so that we may collectively join the fight!"

—Mindy Stein, vice president for World Zionist Organization Relations; American Zionist Movement, former national president & chairman of the board for Emunah of America

"We know the problem: ANTISEMITISM. But how do we tackle it when it's coming from so many directions in so many varying forms? This book gives us the practical tools to mobilize our fight against Jew hatred and become the activists we need to be in these urgent times." —Lizzy Savetsky, Digital Influencer and Outspoken Advocate for the Jewish People

"I have spent my life working to advance the interests of the Jewish community, heading the Conference on Soviet Jewry, the Jewish Community Relations Council of Greater New York (JCR-NY), and the Conference of Presidents of Major American Jewish Organizations. In that latter role, I got to know Brooke and collaborate with her, seeing her couple strategic litigation with grassroots mobilization presenting pro-Jewish advocacy as a minority rights/civil rights issue. Her book, *End Jew Hatred: A Manual for Mobilization*, highlights what can be done to spare future generations the trials and tribulations we have endured, and positively impact the Jewish people by ending Jew-hatred in our lifetime. This is essential reading for anyone committed to fighting this ages-old scourge and countering the extremist bigotry spreading in our country." —Malcolm Hoenlein, former executive vice chairman of the conference of presidents of major American Jewish organizations, founding executive Director greater New York conference on Soviet Jewry

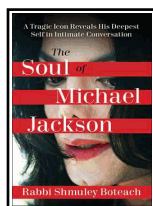

Judaism for Everyone

Renewing Your Life Through the Vibrant Lessons of the Jewish Faith Shmuley Boteach

With the publication of his runaway best seller *Kosher Sex*, Rabbi Shmuley Boteach gained instant fame as a sage and savvy commentator on public and private life. Now he turns his outspoken energy and vast erudition to the core teachings of Judaism itself. During his years as Rabbi of Oxford University and founder of the university's Jewish outreach organization, the L'Chaim Society, Boteach began to realize how well-matched the foundational beliefs of Judaism are to the broad human needs of the modern world. Unlike the dualist credo of other religions—in which the material and spiritual are always in conflict—the Jewish faith, argues Boteach, uniquely represents a spiritual philosophy concerned about life in this world, rather than in the hereafter. In *Judaism for Everyone* this most unorthodox of orthodox rabbis explores the Jewish and Biblical origins of civilization's seminal moral ideas and presents Judaism as a program of action for people of all faiths. Boteach's interpretations and commentary are a vibrant celebration of the dynamism that is Judaism. Whether he's peppering his points with stories from his childhood, promoting feminism and decrying boredom, or extolling the virtues of leisure and solitude, Shmuley Boteach never fails to inform, inspire—and surprise. *Judaism for Everyone* is for everyone seeking a universal moral creed to maximize human goodness and inner potential.

AUTHOR BIO

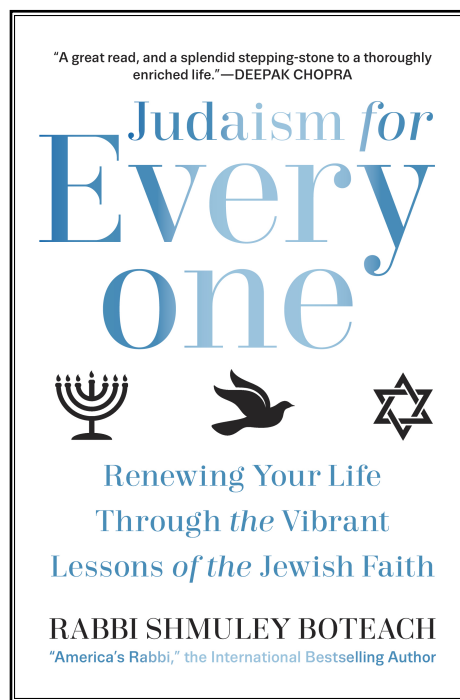

SHMULEY BOTEACH has been labeled "a cultural phenomenon" by *Newsweek* and "the most famous rabbi in America" by the *Washington Post*, one of the world's fifty most influential Jews by the *Jerusalem Post*, and *London Times* Preacher of the Year. His thirty-two books (translated into twenty language), syndicated columns, TLC TV show, and Oprah and Friends radio show have had a global impact. Formerly rabbi at the University of Oxford, Rabbi Shmuley runs The World Values Network, promoting universal values in American culture and media. Kosher Lust

Love is Not the Answer

Shmuley Boteach

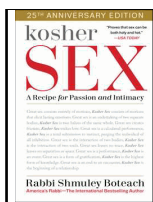

As many as one in three long-term marriages in America are sexless, and most people accept this as the inevitable course of a romantic relationship. In this groundbreaking book, Rabbi Shmuley Boteach explains why the prioritizing of love and companionship in marriage is all wrong, and why we should not go quietly into that dark night of celibate marriage. It is not love, Rabbi Shmuley shows, but lust that is the glue of a marriage. In this book you will learn how to restore lust to its rightful place as the central pillar of marriage. You will learn about the three principles of lust, and how to tap into them to keep the flames burning in the family hearth. Finally, you will discover the incredible emotional and spiritual potential of the intimate marital bond. In a wide-ranging discussion that plumbs the depths of the erotic mind, Rabbi Shmuley delivers a revolutionary message with the power to completely transform your most important relationship.

AUTHOR BIO

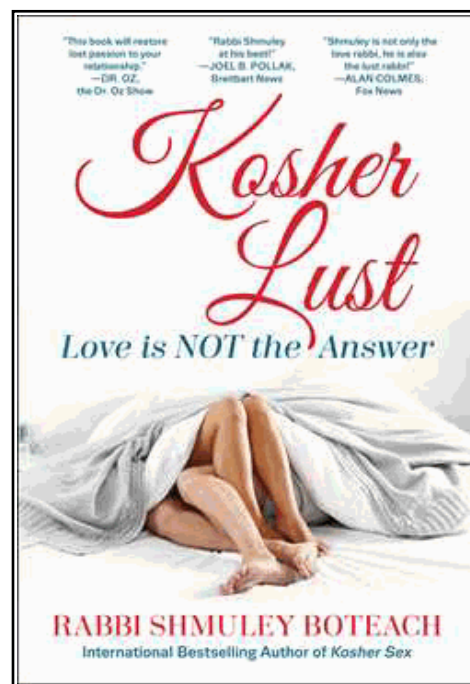

Rabbi Shmuley Boteach, whom *The Washington Post* and *Newsweek* call "the most famous Rabbi in America," stands among the world's most recognizable and passionate voices on values, spirituality, and relationships. He is the international bestselling author of over thirty books which have been translated into twenty languages. In 1999, he published *Kosher Sex* which became an epoch-defining book and is widely regarded as having changed the landscape of how sexual intimacy is practiced and understood. Rabbi Shmuley served as host of TLC's award-winning TV series *Shalom in the Home* and was Oprah's love, marriage, and parenting expert on the Oprah and Friends radio network. He served for eleven years as rabbi at Oxford University where he built the Oxford L'Chaim Society into the University's second largest student organization. The winner and record-holder of *The London Times* Preacher of the Year award, Rabbi Shmuley is also the recipient of the National Fatherhood Award and the American Jewish Press Association's Highest Award for Excellence in Commentary. "America's Rabbi" lives in the New York metropolitan area. He is married to his Australian wife Debbie and they have nine children and five grandchildren.

Praise for *Kosher Lust*:

"Only Rabbi Shmuley is brave enough to say aloud what we women in long-term relationships secretly yearn for the most: to be desired. *Kosher Lust* is a how-to marriage saver, a start-tonight passion igniter, replete with Shmuley's trademark candor, spiritual wisdom, and humor. A must-read." —Lisa Bloom, New York Times bestselling author of *Think and Swagger*

"Who better than an orthodox rabbi to tell you that lust is not only good, it s sanctioned by the Bible. That s right: it s kosher. Shmuley Boteach can add another notch to his calling card. He is not only the love rabbi, he is the lust rabbi now, as well." —Alan Colmes, Fox News Radio

"The always provocative and insightful Rabbi Shmuley argues convincingly that men need to lust for, not just love their women. This book will restore lost passion to your relationship." —Mehmet Oz, MD, Professor and Vice Chair, Surgery, NYP/Columbia Hospital; host, The Dr. Oz Show

"The great virtue of *Kosher Lust* is that it will push readers to re-evaluate their relationships in a constructive way, allowing couples to explore the positive role lust can play in their lives. It is Rabbi Shmuley at his best!" —Joel B. Pollak, breitbart.com

Seeds of Hope

My Journey of Self-Discovery in the Medical Cannabis Business

Dr. Oludare Odumosu, Patrick O'Donnell

Seeds of Hope is an eye-opening memoir of self-discovery and entrepreneurship against a backdrop of the war on drugs, and a story of the transformative power of medical cannabis and its potential to revolutionize the healthcare industry. Written by Dr. Oludare Odumosu, MPH, PhD, the youngest and first black CEO of a publicly traded global medical cannabis biopharmaceutical company, this book takes readers on a journey through his personal journey of from “just say no” to becoming one of the leading voices in the global cannabinoid space today.

Dr. Odumosu explores the history of cannabis and the devastating effects of the War on Drugs on cannabis medicine, addiction, and the minority community from a personal lens. He shares his personal awakening and journey in cannabis medicine and entrepreneurship, including his personal struggles as his father's health worsens, his astonishment at cannabis' healing effects, and his fears, frustrations, and triumphs as he and his team run an ever-changing obstacle course of rules and regulations created by the state and federal governments.

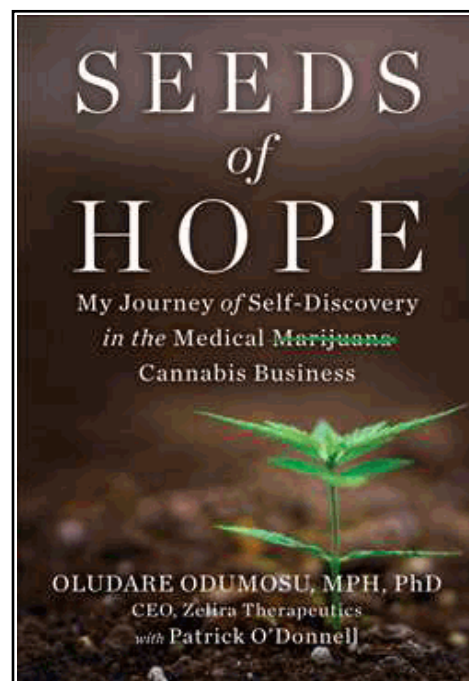

Seeds of Hope also delves into the development of Hope, a groundbreaking, cannabis-based medication used to treat symptoms of autism spectrum disorder. Dr. Odumosu gives readers an insider's view of the nascent medical cannabis industry, as he and his team work to build their facilities and brand from the ground up.

Seeds of Hope is a must-read for anyone interested in the transformative power of medical cannabis and its potential to revolutionize healthcare, including aspiring entrepreneurs. For any student of the human condition, this a powerful and inspiring business memoir that offers hope, insights, and lessons learned on leadership, success, and achieving one's dreams.

AUTHOR BIO

Oludare ("Dare") Odumosu, PhD, is the CEO of a global cannabis formulation and research company Zelira Therapeutics, which recently made history with the world's first successful Phase 1/2a clinical trials for a cannabis-based insomnia medicine. He currently has several CBD and THC formulations in the market focused on PTSD, Autism, Parkinson's and more. As a self-described “Nigerian by birth, American by choice,” Dr. Odumosu also represents the new generation of young, multicultural leaders in cannabis, to date at age 37, he is one of the youngest black CEOs of a publicly traded global company. He is a member of the *Rolling Stone* Culture Council.

Patrick F. O'Donnell is an author, ghostwriter, content writer, copy editor, and proofreader with more than 30 years of both journalism and marketing industry experience.

Praise for *Seeds of Hope*:

“*Seeds of Hope* is a refreshing look at the medical cannabis industry from the inside—the challenges, misconceptions, and triumphs. It’s also a no-holds barred look at the social injustice surrounding the cannabis plant. Dr. Odumosu tells a story that needs to be heard.” —Dr. Chanda Macias, CEO of National Holistic Healing Center, CEO Women Grow, and vice chair of the National Cannabis Roundtable

“Dr. Odumosu hits the nail squarely on the head with *Seeds of Hope*. We need to de-schedule cannabis at the federal level and open the doors to vigorous scientific research so that we may discover more ways to help patients suffering from chronic, difficult-to-treat conditions that don’t respond to traditional pharmaceuticals.” —Dr. Bonni Goldstein, Medical Director, CannaCenters, author of *Cannabis Is Medicine: How Medical Cannabis and CBD Are Healing Everything from Anxiety to Chronic Pain*

“As a journalist deeply immersed in the unfolding narrative of cannabis, *Seeds of Hope* resonated profoundly with me. Dr. Odumosu deftly charts the intricacies of the medical cannabis realm, melding personal introspection with astute industry perspectives. His narrative captures both the spirit and challenges of the sector. The blend of his personal journey with the broader evolution of medical cannabis provides a perspective that’s both intimate and expansive. For those of us interested in the world of cannabis, this book offers invaluable insights.” —Javier Hasse, CEO of elplanteo.com & managing director of Benzinga Cannabis

“While most early cannabis entrepreneurs applied their skills and talents to the over-the-counter side of the cannabis industry, special people with special talents like Dr. Odumosu chose to focus on utilizing existing federal government frameworks that allow for the development of therapeutic uses of the plant and its related technology. This was never easy, nor straightforward. Dr. Odumosu put it all out there as a technical specialist and a tenacious entrepreneur who has shifted the landscape and has provided the most benefit to the most people through the uses of this amazingly powerful plant.” —Robert Hoban, global cannabis industry expert, attorney, and co-chair of Clark Hill Cannabis Industry Group

“*Seeds of Hope* is the triumphant story of a young black man immigrating to the United States and achieving the American dream. Dr. Odumosu was brave enough to take a chance on cannabis science, against everything ‘the war on drugs’ had engrained in him as a young man in Nigeria. I am so glad he did, because he has helped so many families struggling with autism, and so many patients seeking the benefits of cannabinoid-based medicines. Dr. Odumosu showed us that we can do well by doing good, that we can care for our families while still fulfilling our dreams, and if you believe and have hope you can achieve anything!” —Erica Daniels, founder of Hope Grows for Autism

Alcatraz Ghost Story

Roy Gardner's Amazing Train Robberies, Escapes, and Lifelong Love Brian Stannard

The Incredible True Story of the Most Hunted Man in Pacific Coast History—and the Woman He Loved

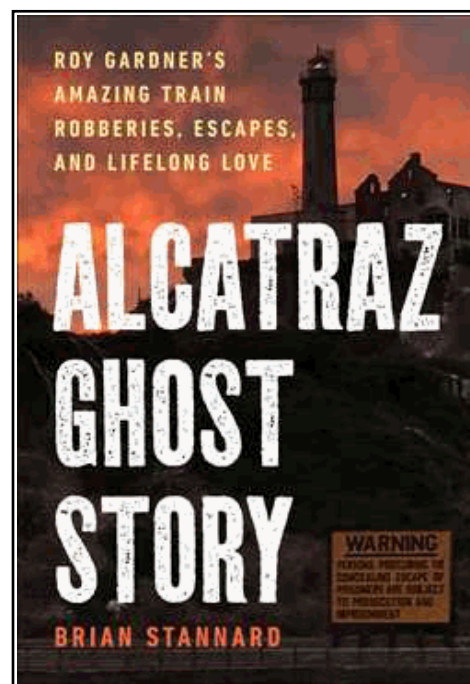

Before the 1920s found their roar, a charismatic gambling addict named Roy Gardner dominated news headlines with daring train robberies and escapes from incarceration. Nicknamed "the Smiling Bandit," Gardner spilled no blood—except his own—as he cut a felonious path across the western United States, as the country hobbled through a recession in the aftermath of the First World War.

Once imprisoned for the long term in federal prisons, including Alcatraz, the most notorious prison's second-most-notorious inmate won over some unlikely champions. Both Gardner's wife, Dollie, and a police officer who once arrested him launched extensive campaigns for Gardner's release on the vaudeville circuit, claiming a brain operation would cure his lawless ways. Was Gardner a good man who made bad decisions as the victim of injury and circumstance? Or was his charming personality merely the poker face of a scoundrel?

Richly researched, drawing on contemporary newspaper accounts, *Alcatraz Ghost Story* explores the life of Roy Gardner in the context of his great love story and the larger backdrop of drug addiction, incarceration, and the racial and labor violence of the 1920s and 1930s.

AUTHOR BIO

Brian Stannard is a guide with Alcatraz Cellhouse Tours. Previously he delivered meals in San Francisco's Tenderloin with Project Open Hand. When experiencing writer's block, he paints, and his artwork is displayed in bars from the Mission District to Australia's Gold Coast. He also illustrated the book *You Don't Know Jack*. He lives in San Francisco with his wife and son.

Praise for *Alcatraz Ghost Story*:

“Brian Stannard brings history to life in *Alcatraz Ghost Story*. Roy Gardner is the most infamous bandit most people have never heard of.” —Cynthia Schreiner Smith, co-author of *Alvin Karpis and the Barker Gang in Minnesota* and co-owner of Cyn City Gangster and History Tours of St. Paul

“A riveting true story of hard living, heartbreak, and loss that also happens to include train robberies. In page-turning prose, Stannard reminds us that reality is always stranger than fiction. A must read for fans of US western history and jailbreaks.” —Jason De León, author of *The Land of Open Graves* and *Soldiers and Kings*

“A brilliant lost brother to the iconic *You Can’t Win* by Jack Black. Brian Stannard’s *Alcatraz Ghost Story* tells the life of Roy Gardner, a charismatic gambler, thief, and eventual convict at Alcatraz. Part history, part cautionary tale, and part love story. This is a wild ride of a book about a larger-than-life criminal trying to navigate the modern Progressive Era.” —Willy Vlautin, author of *Lean on Pete* and *The Motel Life*

The Emergency Diaries

Tales from Doctors Inside the ER

Staten Island University with Northwell Health

Harrowing and hopeful tales from doctors inside the emergency room at Staten Island University Hospital—one of the flagship hospitals of Northwell Health, New York's largest health care provider

Open 24 hours a day, 365 days a year—through winter storms, hurricanes, and global pandemics—emergency rooms are vital to the safety of any community. Day in and day out, thousands of patients pass through their doors to address their immediate medical needs. From life-threatening illnesses and injuries to sore throats and sliced fingers, ER doctors and nurses are the first line of defense when something goes wrong.

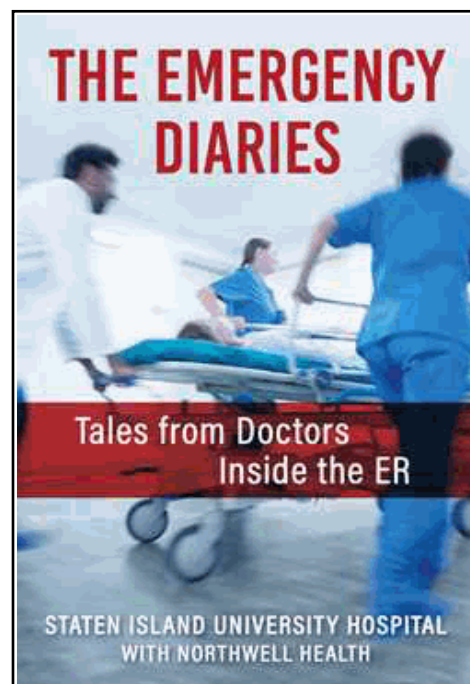

Written as a series of essays and stories by real ER doctors, *The Emergency Diaries* gives readers a glimpse into the hearts and minds of medicine's finest, and the seemingly insurmountable challenges these everyday heroes face. Doctors recount firsthand the challenging nature of their profession and the events that shaped their lives, and share pivotal moments in their medical careers that have stuck with them to this day.

Whether it's delivering the bad news or making split-second decisions to save lives, the extremes of this profession can be overwhelming. ER doctors and nurses are under incredible pressure to act with grace, precision, and mental fortitude when caring for their patients. Larger national events—like the opioid epidemic, natural disasters, and the coronavirus pandemic—have only exacerbated this stress in recent years.

This poignant yet hopeful book tells their stories, and serves as a testament to their incredible resilience and sacrifice for the greater good.

AUTHOR BIO

Staten Island University Hospital (SIUH) is a 668-bed, two-campus hospital and part of Northwell Health, the largest health care provider in New York State. It has been serving the community since 1861. Together, the two Emergency Departments treat over 125,000 patients annually, offering dedicated trauma and critical care to both adults and children. It received the Emergency Nurses Association's 2022 Lantern Award for demonstrating exceptional and innovative performance in leadership, practice, education, advocacy, and research. SIUH's ER doctors have cared for the borough during such catastrophic emergencies as the September 11th Terrorist Attacks, Superstorm Sandy, and the COVID-19 Pandemic.

Invisible Iceberg

When Climate and Weather Shaped History

Joel N., Dr. Myers

Discover the impactful ways that climate and weather changed the very course of human history from the founder and CEO of AccuWeather!

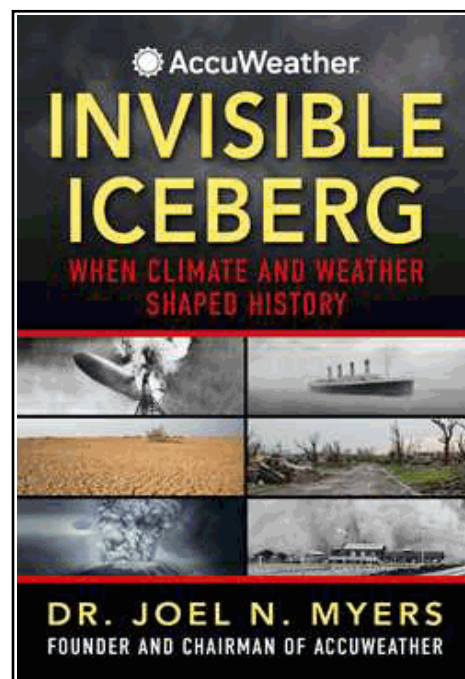

Join AccuWeather founder and CEO Dr. Joel N. Myers on a journey from the beginning of time to the modern day to see how weather and climate impacted world events throughout history, both the good and the bad.

Learn about the comet that hit Earth almost 67 million years ago, and how it triggered a massive climate disruption that led to the extinction of the dinosaur; the dramatic climate shift in 1213 BC that created the conditions for the Ten Plagues of Egypt, a foundational moment in three major world religions; how superior knowledge of the winds allowed the ancient Greeks to prevail over Persian attackers in 400 BC; the volcano in 44 BC that helped launch the Roman Empire; how Tropical storms thwarted Mongol invaders and preserved an independent Japan in 1273; how the "Little Ice Age" ushered in the age of the European Witch Trials, which eventually influenced the Salem Witch Trials; the shipwreck of the *Sea Venture* in 1609 in an Atlantic hurricane that inspired Shakespeare's last play *The Tempest*; the fog that helped to create an independent United States of America during the Revolutionary War; the storm in 1814 that ended the reign of Napoleon Bonaparte; the "Great White Hurricane," i.e. two major blizzards, that helped create the New York Subway System in 1888; and so much more!

Also explored are weather what-ifs, including the haunting question: Would the hurricane that remained off the coast have prevented the deadly attacks of September 11, 2001, if it had just moved inland? Dr. Myers founded AccuWeather, the world's most accurate source of highly localized weather forecasts and warnings everywhere in the world, in 1962, and ever since, he has been the foremost authority on all things weather. *Invisible Iceberg: When Climate and Weather Shaped History* is an exciting, sometimes shocking, trip around the world and through time to prove once and for all that weather really does shape the world and the course of history!

AUTHOR BIO

Dr. Joel N. Myers founded AccuWeather in 1962 and successfully established it as the world's most accurate and most used source of weather forecasts and warnings as well as a global leader in digital media. He has been recognized as one of the greatest entrepreneurs in American history in the *Encyclopedia of Entrepreneurs*.

Surviving Extreme Weather

The Complete Climate Change Preparedness Manual

Mykel Hawke, Jim N R Dale

The only guide you need to prepare for the dangerous effects of climate change.

The world has changed, and impacts of global warming means weather events like extreme heat, wildfires, hurricanes, and droughts are now being felt by all of us. We can ignore climate change no longer and must prepare ourselves to survive in new conditions.

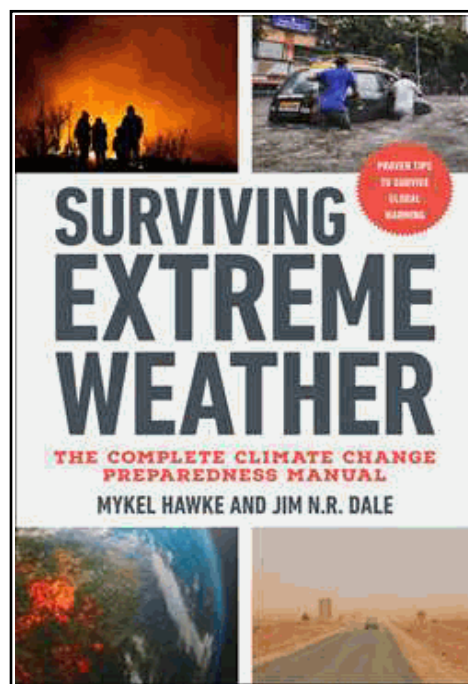

The key to surviving extreme weather events is to understand them from a practical perspective and then plan and execute tactical responses. In *Surviving Extreme Weather*, Mykel Hawke, a renowned survivalist and bestselling author of *Hawke's Special Forces Survival Handbook* and *Hawke's Green Beret Survival Manual*, and British meteorologist Jim N. R. Dale, share their expert knowledge and personal experiences while offering valuable insights into the science behind our new weather and how to apply situational awareness, preparedness, and psychology to survive.

Surviving Extreme Weather: The Complete Climate Change Preparedness Manual is categorized by elements—fire, water, wind, and earth—events are explained with recommendations anyone can follow to protect themselves and their family, and to minimize the risks of damage to life and property. Included are lists of items every person, home, business, and vehicle should always stock, such as: first aid kits, afflictions, and applications; emerging technologies to help protect against different weather phenomena; structural and landscape precautions and improvements; philosophies to help family, friends, and neighbors get through any environmental ordeal.

AUTHOR BIO

Jim N R Dale is an ex-British Royal Navy meteorologist and founder of British Weather Services. During his navy days, Jim was charged with observing, forecasting, and relaying the weather to an assortment of officers and crew in some of the most hazardous parts of the world, including the tempestuous Southern Ocean in and around the Falklands (Malvinas) and South Georgia, at the time of and following the war with Argentina. In 1987 Jim formed British Weather Services, now the longest established independent meteorological company in Europe. Jim and his company supply a wide range of clients, including television and film production companies, the media, insurers, professional sports clubs, bookmakers, the legal fraternity, retailers, and many other weather-sensitive concerns.

He is the author of *Weather or Not? The Personal and Commercial Impacts of Weather and Climate* and a family man, married to Kanchanan with three grown sons, Simon, Christopher, and Adam, and a younger daughter, Nanthiya.

Mykel Hawke is a retired special forces officer and senior enlisted with specialties in medicine; his skills include dental, veterinary, obstetrics/gynecology, surgery, anesthesia, tropical medicine, and definitive level trauma care. He maintains his national and state paramedic licenses. Mykel was also a special forces communications specialist with a background covering HF radios up to satellite communications, cryptology, and morse code. He is currently licensed as an FCC radio operator as well. Mykel was also an intelligence operations specialist, which gave him a steep background in analysis and successful prognostication in matters of unconventional warfare.

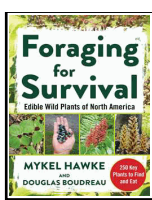

Mykel still serves in the reserves, holds a top secret clearance, and spends most of his time supporting and deploying with special operations forces working with active duty special ops from all four branches and PhD engineers to find capabilities gaps and create solutions for them, using his considerable experience in nine different conflicts on every major continent. He is the lead on Language Translation as a certified project manager, having been rated in seven languages, and keeps up his skills and fitness as a black belt in Judo and Aikido.

Mykel has done over sixty television shows, produced and hosted over a dozen, been in a film, and is regularly interviewed by the news media on topics such as survival and special operations. He has published a dozen books on survival, medicine, special ops, and languages; he has also co-authored several, including a thriller series, and contributed to many others.

Mykel considers himself very blessed to have such wonderful wife, Ruth England-Hawke, who is a well-traveled journalist and seasoned adventurer in her own right and has worked side by side with Hawke on many dangerous survival missions on television as his co-star. He is father of three incredible sons and three amazing grandchildren.

"*Surviving Extreme Weather* is an important book...Not only does it teach important individual survival techniques, it also teaches how to enable your family, your neighbors, your community to survive extreme events...Even with my experience I learned a great deal from this extraordinary book. So can you. *Surviving Extreme Weather* can help you to save your life and the lives of your loved ones." —James Morgan Ayres, author of *The Tao of Survival*, educator, and Special Forces veteran

"Mr. Dale is an experienced educator and informer. His knowledge and steadfast pursuit of the truths of global warming trends make him the perfect guide to the various calamities in our changing world." —Larry Cosgrove, Chief Meteorologist, WEATHERAmerica.

"It's been a long time coming ... and it's still coming. The hottest year on record is followed a year later by the new hottest year on record. We live in a proliferation of floods, earthquakes, and another month of hundred degree weather. It's going to be rough and people will die. Hopefully not you though, if you read this book and pay attention. Mykel Hawke and Jim Dale give you the coping strategies that mean survival in the age of climate change." —Jim Morris, author of *The Dreaming Circus* and *The Guerrilla Trilogy*

"When it comes to all things weather and climate related, Jim is reliably the go-to meteorologist. In a world of misinformation, Jim is great at explaining the facts about what's happening weatherwise in a way even us non-experts can understand." —Anna Cunningham, international journalist and news presenter

"Jim's narrative is a revelation for climate science enthusiasts like me. With a deep understanding of data and a passion for the field, he guides readers towards accepting the reality of climate change and taking appropriate action. It's an essential survival guide for our changing world and a catalyst for positive change." —Maise Paddon, CEO, Sustainable Voices, and environmental professional

The Science of Superwomen

An Evolution from Wonder Woman to WandaVision

Mark Brake

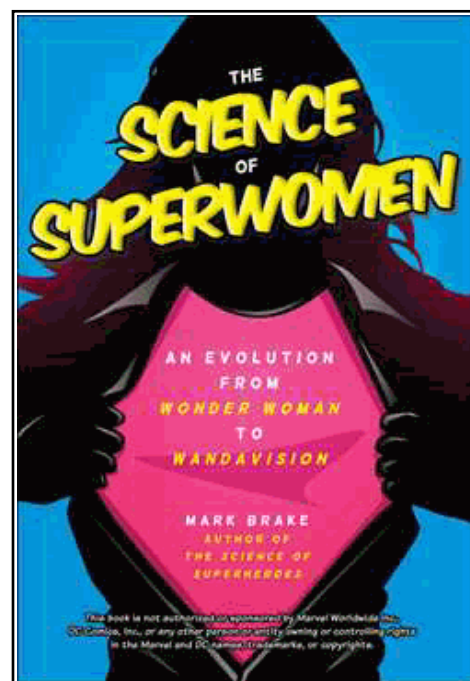

Celebrate the rise of superwomen and discover the science behind the abilities of Wonder Woman, Scarlet Witch, Black Widow, Catwoman, and more!

Superhero fiction has been with us for almost a century; high-octane tales crammed with concepts and contrasting themes, from superpowers and the post-human, to masked vigilantes and immortality. In that time, superwomen have evolved from comic book caricatures (created by men, for men) to stronger representations of female power.

The Science of Superwomen looks at this evolution, from its hypersexualized origins to today's more nuanced diversity. Focusing on characters from *Star Wars* and *X-Men*, as well as the likes of Wonder Woman, Batgirl, Captain Marvel, Harley Quinn, Wednesday Addams, Doctor Who, and Buffy the Vampire Slayer, *The Science of Superwomen* explores the relationship between superhero film and fiction and the underlying science of our ever-evolving universe.

AUTHOR BIO

Mark Brake developed the world's first science and science fiction degree in 1999 and launched the world's first astrobiology degree in 2005. He's communicated science through film, television, print, and radio on five continents, including for NASA, Seattle's Science Fiction Museum, the BBC, the Royal Institution, and Sky Cinema. Mark also tours Europe with *Science of Doctor Who*, *Science of Star Wars*, and *Science of Superheroes* road shows.

New Essential Guide to Hong Kong Movies

Rick Baker

Extensively revised and expanded, *The New Essential Guide to Hong Kong Movies* includes over 670 film reviews, a poster gallery, and a look at the key studios that made Hong Kong cinema so amazing, along with insights into the Hong Kong movie industry written by global superstar Jackie Chan and Hong Kong film stars Cynthia Rothrock, and Vincent Lyn.

Rick Baker and Ken Miller have curated a huge selection of reviews of kung fu and swordplay films, gangster flicks, crime dramas, action, horror, fantasy, erotic, and assorted Category III films, sharing their love for these distinctive, kinetic, and sometimes utterly bizarre Hong Kong genre productions with an infectious enthusiasm.

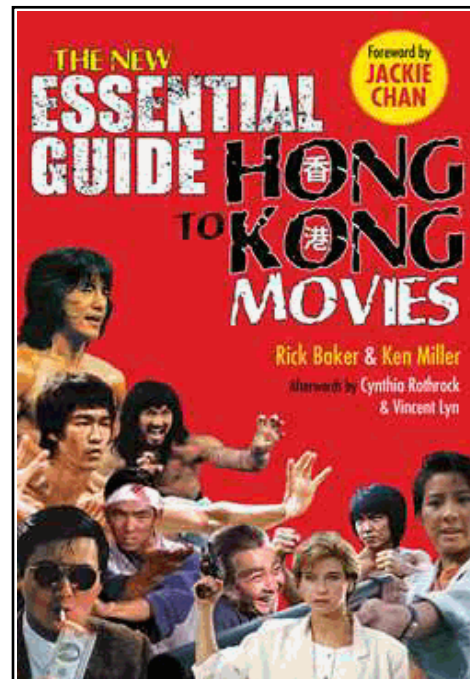

AUTHOR BIO

Rick Baker began publishing *Eastern Heroes* magazine in 1988 and, in 2020 launched Eastern Heroes Publishing, sharing his love for Hong Kong cinema with enthusiasts worldwide. Over the course of five years, from 1988 to 1993, Rick curated more than forty events at renowned venues (including London's esteemed Scala Cinema), attracting special guests such as Hong Kong movie superstars Chow Yun-Fat, Donnie Yen, Jet Li, Gordon Liu, Maggie Cheung, Cynthia Rothrock and John Woo, among others.

He has been an adviser on the cult TV series *The Incredibly Strange Picture Show*, started the label Eastern Heroes Distribution which specializes in the release of Hong Kong movies on video and DVD, co-created the six-part TV series *Stop! Kung Fu!*, presented awards and was a panel guest at the 2022 Urban Action Showcase International Action Film Festival, in Times Square, NYC, and appears in the feature length, theatrically-released documentary *Scala!!!* or, *The Incredibly Strange Rise and Fall of the World's Wildest Cinema and How It Influenced a Mixed-Up Generation of Weirdos and Misfits*, talking about the popular kung fu triple bill film shows he hosted at the venue.

Ken Miller is a contributor to *Eastern Heroes* magazine, and was the publisher of *Imaginator* magazine, which covered horror, fantasy, sci-fi, kung fu and action films, especially those from Hong Kong, as well as co-publisher of *Film Extremes* magazine. He was the co-creator of the six-part BBC entertainment show *Stop! Kung Fu!* (2001), a series hosted by Jonathan Ross, featuring a delirious deluge of awesome kung fu movie clips.

He has consulted on the BBC documentary *Asian Invasion* (2006), and *Japanorama* (2002), and wrote the screenplay for *Kill 'Em All* (2012), a martial arts action thriller starring Hong Kong movie royalty Gordon Liu as the kung fu-skilled villain.

Fishing's Best Excuses

Hilarious Quips Every Angler Should Know
Joshua Shifrin and Matt Mitchell

Explain away your bad casts or your tiny catch—and have your friends laugh at the same time!

Fishing's Best Excuses is a must have book for any angler that has spent a day on the water with little to show for their efforts. With dozens of witty excuses, as well as crazy fishing facts and hilarious cartoons, you'll be able to laugh away your ineptitude.

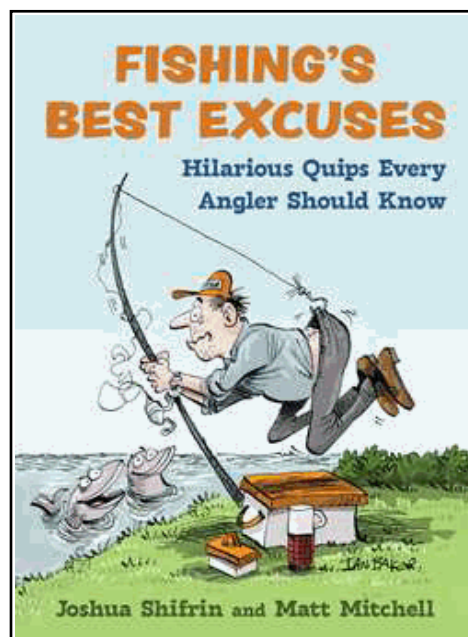

Whether it's due to the poor weather, bad bait, unacceptable equipment, or simply because the fishing gods were out to get you, there's always a viable, or not so viable, excuse to explain your failure. So the next time you come home with nothing but an empty cooler, there are countless reasons why your woeful performance couldn't possibly be your fault.

So without further ado, we offer you, our friend, our colleague, our compatriot, a foolproof way to divert the blame, the embarrassment, the multitude of jokes at your expense. We give you, *Fishing's Best Excuses*.

AUTHOR BIO

Joshua Shifrin is a licensed psychologist and the author of seventeen books (eighteen, if you include this one!). His most recent book, *Baseball's Best Excuses*, was published in 2023. He loves to write whenever he can find the time. He lives in New Jersey with his beautiful wife and two terrific boys.

Matt Mitchell is a software sales executive, author, and an avid angler. Matt enjoys fishing with family and friends, especially with his wife and teenage daughter along the "Forgotten Coast" of Florida. An entrepreneur at heart, Matt has invented fishing products and brands which celebrate the beauty of all things outdoors.

The Amazon Incubator

Grow Your Business or Hatch a New One

Lesley Hensell

The real story about how to be a successful seller on Amazon, from a leading consultant.

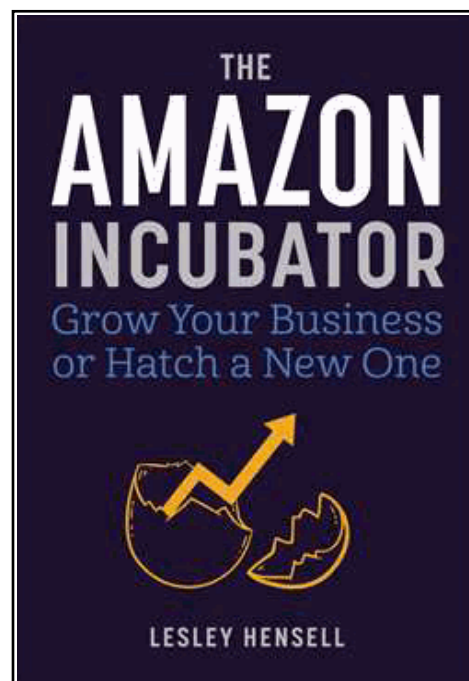

Amazon is the most powerful business incubator in the history of the world. Unfortunately, where there is great opportunity, get-rich-quick schemes abound. Most available books about selling on Amazon peddle a dream that is unattainable for sellers. They promise riches at the cost of only five hours a week, or a long-term income for an initial investment of just \$1,000.

The Amazon Incubator is different. This book instead offers realistic, sustainable strategies for building a long-term, profitable business on Amazon. Whether sellers are burgeoning entrepreneurs or own the ecommerce channel at an established brand, they will benefit from the strategic thinking and in-depth Amazon know-how delivered in an easily digestible format. The reader will be guided through exercises to define their goals, determine their product set, and execute like a champ.

The Amazon Incubator is written in short, easy-to-digest chapters that include case studies and real-world examples of Amazon seller success and failure. Readers will better identify with and understand the information when case studies are included. In addition, each chapter includes a brief summary at the end, as well as suggested action steps, so it can easily be used as a tool for the reader to share with teammates and business associates.

AUTHOR BIO

Lesley Hensell is cofounder of Riverbend Consulting, whose 85+ employees solve problems for e-commerce sellers. Lesley oversees Riverbend's service team, and she has personally helped hundreds of sellers get suspended Amazon accounts and ASINs up and running. She has been an Amazon seller for more than a decade. A lifelong Longhorns fan, Lesley earned a bachelor's degree in journalism and an MBA from the University of Texas at Austin. She volunteers for A Wish with Wings, a wish-granting organization for little Texans with life-threatening conditions, and she serves on the board of directors for Hallie's Heroes, which funds bone marrow matches and medical research for kids with cancer and critical illnesses.

Always Enough

A Global Food Memoir

Annette Anthony

A memoir of global travel and the 175 recipes it inspired.

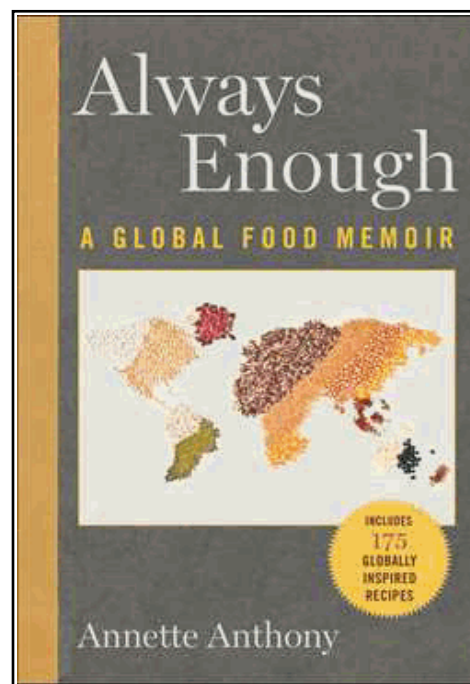

Always Enough: A Global Food Memoir is a storied cookbook, a love letter to the author's tables in America, Europe, and Africa. From Philadelphia to Paris, Morocco to the Ivory Coast, Bologna to Greece to London, *Always Enough* tracks the cultural insights the author absorbed by shopping, cooking, and eating across the world, and provides 175 recipes learned across those kitchens.

Always Enough's meals model adapting to one's environment and what ingredients are available; its recipes capture a broad swath of international cuisines while also promoting flavors and ingredients not emphasized in traditional Western cooking; its approach encourages sustainable and healthy eating, with health-conscious dishes for vegetarians and meat-eaters alike.

Always Enough shares good food and good stories of how one cook's identity took shape by immersing herself in local cooking and culture around the world.

The Aging Revolution

A Groundbreaking History of Geriatric Medicine and a Plan for the Future

Michael J. Dowling, Charles Kenney, and Maria Torroella Carney, MD

A groundbreaking history of aging in the US and an innovative blueprint for revolutionizing care for older adults from Northwell Health, New York's largest health care system.

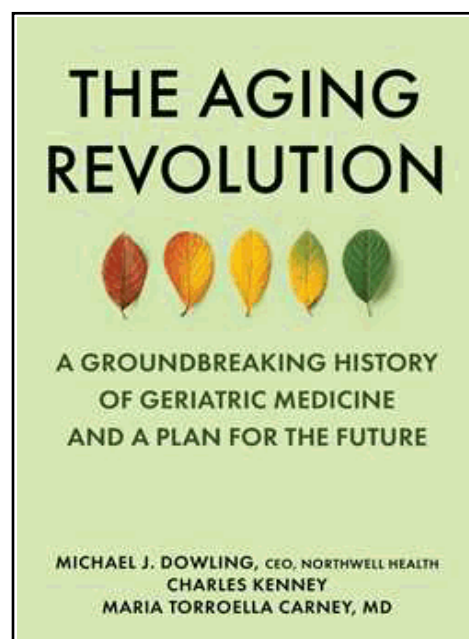

The *New York Times* described Dr. Robert Butler as “the man who saw old age anew.” In his 1975 book *Why Survive: Being Old in America*, Butler argued that for far too many people old age was “a period of quiet despair . . . and muted rage” and he set out to mitigate it. Nearly five decades since he penned his book, a devoted band of brilliant physicians and others in the healthcare field have realized at least a portion of Butler’s dream: to recognize and alleviate suffering among the aging.

The Aging Revolution is the story of Butler and his disciples: women and men who saw older distressed adults in hospitals and homes, and worse: being ignored by most of the medical establishment. These revolutionaries could not ignore the suffering, and they set out—individually and collectively—to create entirely new ways of caring for aging adults to ease their suffering and improve their quality and length of life.

This revelatory book tells a story never-before told in its entirety, recounting the one of the most significant periods of improvement in American medical history. Readers will learn about pioneering individuals, concepts, and ideas that have improved the lives of millions, including: the women who placed the spotlight on delirium and falls—major issues for older adults; the campaign to build and spread Geriatric and Palliative Care; the small bands of doctors who worked the halls of Congress to create a new program that provides primary care along with home visits from healthcare professionals; and the New York-based foundation that has devoted its mission and millions exclusively to improving care and quality of life for aging adults.

Today, as a result, chronic conditions that almost always accompany old age are far more manageable. Older people enjoy more options for work and professional development, for education, for leisure and travel, for sports and maintaining physical strength and mobility. For increasing numbers of Americans, life is healthier and richer in the experiences that matter most.

Yet, aging in America can still be a challenge and, too often, particularly for the poor, a painful struggle. The range of mental and physical well-being has almost infinite variations: ninety-year-olds running marathons; sixty-five-year-olds incapacitated by stroke. While this book celebrates the incredible progress and strides made in this field, it also highlights areas that need improvement. The authors lay out specific steps that, if implemented, could super-charge the aging revolution and drastically diminish the total volume of older adults suffering in America.

Raising Healthy Kids

Protecting Your Children from Hidden Chemical Toxins Every Day

David Steinman

A must-have book for every parent, from the author of the ground-breaking bestseller *Diet for a Poisoned Planet*.

Every parent wonders: Am I buying products for my child that are filled with chemical toxins?

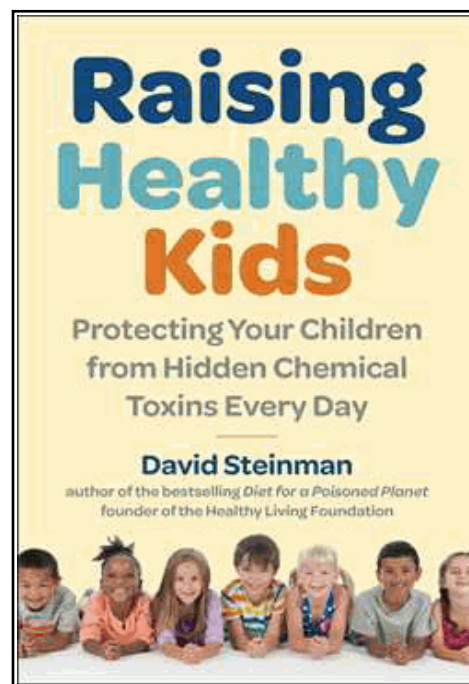

In his powerful new book, *Raising Healthy Children*, David Steinman, the director of the Chemical Toxin Working Group and one of America's premier environmental activists, shows how today's most popular items—from bubble bath to cereal to cleaning products to snack foods—are contaminated with unacceptable levels of chemical toxins and pesticides, and he proposes alternatives and substitutes to keep your family safe.

Steinman reveals never-before-seen test results for major brands like Johnsons & Johnsons, Kellogg, Tide, and Clairol, and General Mills that identify exactly which products contain dangerous ingredients. He casts a wide net, showing how beauty products as well as food items can cause reproductive health issues in pregnant women, and that environmental exposures, particularly in schools, can have a profound impact on babies' and children's development.

Drawing on current research, illuminating vignettes, and inspiring stories of activism, Steinman provides action steps for parents in every chapter, giving them the tools they need to shop for everyday products that will be toxin-free and helping them ask the right questions about their local schools and workplaces to determine their potential levels of exposure. As he writes, "The goal of this book is to show you how to keep you and your family safe and healthy."

When Steinman published his acclaimed bestseller *Diet for a Poisoned Planet*, it was compared to Rachel Carson's classic *Silent Spring* for bringing to light the chemical toxins in our food. Now, more than thirty years later, Steinman brings readers up to date on the increased dangers we face in all aspects of our lives and teaches us how we can make smart choices to protect our children and ourselves.

Raising Healthy Children is an inspiring, informative, and user-friendly book that will help every family reduce their toxic exposures and ensure their health and well-being.

Conformity Colleges

The Destruction of Intellectual Creativity and Dissent in America's Universities

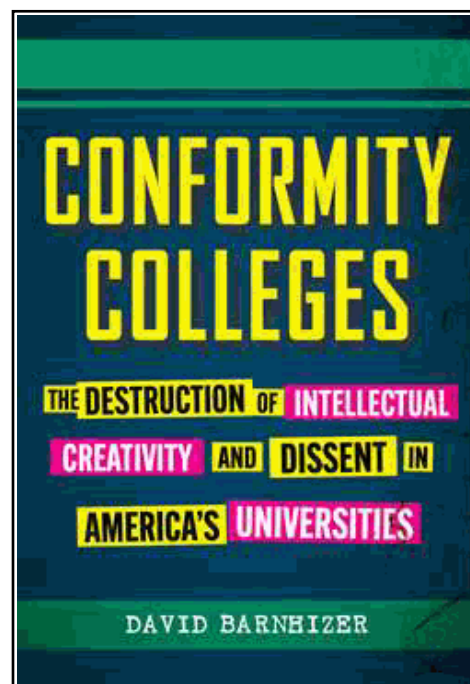

David R. Barnhizer

The United States' education system, especially its universities, is under attack by the ideological Left, dominated by advocates of Wokeism and Critical Race Theory.

Marshall McLuhan was a brilliant thinker best known for his insight that “the medium is the message.” Universities, as well as our entire educational “medium” including the K-12 system that feeds its graduates into the university and societal systems, are powerful and overarching mechanisms that we use to shape our understanding. For Western nations, the ideal of the university and of education generally has been to provide us with analytical skills, knowledge, and the ability to create and nurture a healthy society that benefits as many people as possible. That ideal, and the university as educational and social “medium,” is under severe attack.

The power to use the university as an overarching “medium” that offers a strong sense of legitimacy to even flawed and overstated arguments and assertions is why the institution is a target of an ideological Left that is now dominated by advocates of Wokeism and Critical Race Theory. Once obtaining a strong power base in university disciplines and administrations, the revolutionaries of race, gender, and other radical interests metamorphosed from heroic moral beacons fighting and railing against injustice, and revealed themselves as ideological dictators. The truth is that what we now refer to as the Woke/Critical Race Theory activist movement—particularly that controlled by those who came to power in the past thirty years or so—were not simply seeking to expand the nature and content of the university curriculum, or even what is taught in the K-12 system. Their intent was and is to “destabilize,” “transform,” and supplant what is taught. They seek to create a culture that elevates their interests while aggressively repressing anything they see as an obstacle to power, including healthy discourse and debate.

The activists of the Woke/Critical Race Theory Movement are not an honest intellectual movement. They are intense and aggressive political strategists, self-styled “revolutionaries” seeking to use our educational systems with the framed narrative of Diversity, Equity, and Inclusion (DEI) that is actually one of “Division, Enmity, and Intimidation/Indoctrination,” all the while claiming their interests are benign and aimed at healing. In reality, they are fracturing our fundamental social order, sowing discord, and deliberately suppressing the freedom of speech and thought essential to the well-being of our democratic republic. *Conformity Colleges: The Destruction of Intellectual Creativity and Dissent in America's Universities* will help you understand what is happening and come to grips with the need to challenge, counter,

and reverse this “revolution.” Nothing of significance can be done to stop what is going on unless the DEI administrative bureaucracy that now controls universities is dismantled or substantially weakened.

AUTHOR BIO

David R. Barnhizer is professor of Law emeritus at the Cleveland State University. He received a law degree from the Ohio State University, graduating summa cum laude, and also a Masters of Law degree from Harvard University, where he was a Ford Foundation Urban Law Fellow and a Clinical Teaching Fellow. After graduating from Ohio State’s law school he worked in the federal Legal Services program in Colorado Springs representing lower income and minority clients, as well as community development. During that period he taught at the University of Colorado, Colorado Springs as an adjunct offering a course in the “Economics of Poverty” examining the impact of economic systems on poor and minority people and the limiting of opportunity and social justice for Blacks, Latinos, and other minorities.

While a Ford Foundation Urban Law Fellow at Harvard, he helped to establish the Law School’s clinical program. After leaving Harvard, he accepted a position as a professor of Law at the Cleveland State University where he created the nationally recognized Clinical Law program that provided civil and criminal representation to minority and economically disadvantaged individuals in the Greater Cleveland area. The work involved activities such as suing police who violated the civil rights of Blacks and other minorities, and serving as counsel for the Cleveland area’s Black on Black Crime Committee—a group of minority citizens seeking to come to grips with crime in their urban neighborhoods.

Following the model created at Georgetown University, he established the Street Law program at CSU working in conjunction with Cleveland Public Schools. It was the second Street Law program established in the United States. The Street Law program had law students teach legal knowledge and dispute resolution techniques to high school students in the heavily minority Cleveland public schools. He designed and conducted the training program for the Cleveland area’s Public Defender’s Office, created and directed the University’s Environmental Law Clinic, and supervised the law school’s externship semester in Washington, DC that placed law students inside Congressional subcommittees and the Department of Justice, and various non-governmental organizations.

He has also been a Senior Research Fellow at the University of London’s Institute of Advanced Legal Studies (IALS), and a frequent Visiting Professor at the Westminster University School of Law in London, teaching students from the United Kingdom, Africa, Asia, the Middle East, Latin America, and Europe. He taught human rights and international environmental law in St. Petersburg, Russia in a joint program with St. Petersburg State University, and taught in Harvard’s Intersession Trial Advocacy program. Professor Barnhizer has been a consultant with the US Legal Services Corporation, training civil rights lawyers throughout the US in critical counseling, negotiation, and trial advocacy skills. He was a consultant with Georgetown University, the universities of Connecticut and Minnesota, and Canada’s York University among others. He also provided consultant services to the US Department of Education, and was Rapporteur for the US House of Representative’s Energy and Commerce Committee’s high-level workshop on Sustainable Development.

Praise for Conformity Colleges:

“COVID feels like a turning point, a time when universities fully embraced the ideology of control, censorship, and compulsion, represented by universal quarantines, masking, and vaccine compliance, all rooted in symbolism rather than scientific realities. Freedom is the last thing you will find at elite institutions today. The ESG and DEI bureaucracies are deeply entrenched, and an anti-Western, anti-Enlightenment, anti-reason curricula pervades the whole of the elite establishment. It is reinforced at every level, including publishing, promotion, and tenure demands. Already by 2019, anyone in this realm who identified as a conservative was in the extreme minority. And yet this period might be more correctly seen, as it is in this brilliant book by David Barnhizer, as a codification of deep problems that already existed.

We have certainly lived through the decline and fall of the older idea of the university. Now we may yet live to see the end of the university itself and its replacement by something else entirely. Reforms can work but the reform will not likely come from within the institutions. They must be imposed by alumni and perhaps legislatures. Or perhaps the rule of 'Go woke, go broke' will eventually force a change. Regardless, the idea of learning itself will surely return. We are in the transition, and David Barnhizer is our Virgil to give us an outstanding tour of the wreckage left behind and perhaps even a path out of the darkness.” —Jeffrey A. Tucker, founder and president of the Brownstone Institute, and author of thousands of articles and ten books, including *Liberty or Lockdown*

“As someone who writes frequently in the mainstream press about the ruinous effects of woke ideology on society, I truly appreciate David Barnhizer’s unique contribution to the literature on this subject. *Conformity Colleges: The Destruction of Intellectual Creativity and Dissent in America’s Universities* is 'a one-stop shop' for journalists, often working under time constraints, who seek well-organized, intelligently triaged evidence that is essential ballast in the creation of persuasive columns.” —Barbara Kay, opinion columnist for Canada’s National Post and the *Epoch Times*

“It is grimly satisfying to read the words of an observer who understands the value of the university in American life and the extent of contemporary threats to it. David Barnhizer has produced an exhaustive roster of decay, a source book that contains little good news and lots of depredation. The ideals of academic life—disinterested judgment, peer review, Ivory Tower seclusion—have fallen again and again to identity politics, resentment, and cowardice. This book is a sobering compilation of events on the road downward, valuable because people who wish to defend the traditional conception must understand exactly how far we’ve fallen and how ruthless are the vandals still at work.” —Mark Bauerlein, senior editor, *First Things* magazine, and professor emeritus, Emory University

"David Barnhizer's book on intellectual conformity in higher education exposes the personal and systemic tragedies of what we call 'cancel culture.' Behind every story described in his 2021 work "*Un-Canceling America*, and further developed in the analysis in *Conformity Colleges*, are people whose lives have been upended and careers damaged by Identity Groups pushing political agendas by punishing innocent victims seeking nothing more than an understanding of the vital significance of the hard-fought vision of Western society and the Rule of Law. Prof. Barnhizer has gathered their stories in *Conformity Colleges: The Destruction of Intellectual Creativity and Dissent in America's Universities*, as historical evidence of the damage groupthink and enforced conformity have inflicted on the integrity of academia and on an American society whose moral, intellectual, and economic integrity is dependent on the honesty and quality of education." —William A. Jacobson, clinical professor of Law and director of the Securities Law Clinic, Cornell Law School; founder and president of the Legal Insurrection Foundation

A Patriot's History of Globalism

Its Rise and Decline

Larry Schweikart

Larry Schweikart has won wide acclaim for his number one *New York Times* bestseller, *A Patriot's History of the United States*. Now, with *A Patriot's History of Globalism*, Schweikart shows that globalism, or the attempt to form a one-world government is nothing new.

In the wake of Napoleon's defeat in 1814, the globalists of the day (mostly monarchs) sought to create a governing arrangement for Europe. Within forty years, three of the major participants were at war with each other. After World War I, they tried again at Versailles, this time even more aggressively changing boundaries of nations and moving populations. That attempt only lasted twenty years before another major war between the participants. Yet again, after World War II, globalists used the threat of the atomic bomb to try to form an international government with the United Nations.

Most recently, the World Economic Forum and World Health Organization are attempting to minimize nationalities with global control of money and medicine. But there are signs this tide has been reversed and is finally in decline. *A Patriot's History of Globalism* is the gold standard text for the history of globalism.

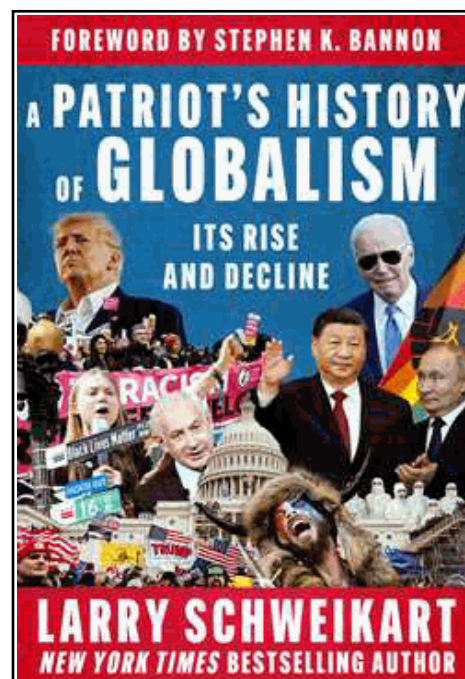

AUTHOR BIO

Larry Schweikart, a native Arizonian, graduated from Arizona State University with a BA in Political Science, then went on the road with several different rock bands, opening for such 60s and 70s acts as Steppenwolf. He abruptly switched gears in 1976 receiving an MA from ASU in history, then a Ph.D. from University of California, Santa Barbara. From 1985 to 2016 he taught at the University of Dayton. In his career he taught every grade from seventh through college.

He is the co-author, with Michael Allen, of the *New York Times* #1 bestseller, *A Patriot's History of the United States*, now in its thirty-first printing, fourth edition, with a half-million copies in print. *Patriot's History* remains the best selling homeschool history textbook in America and is featured in numerous college courses as an antidote to Howard Zinn's *People's History*.

Schweikart's other bestselling books include *Seven Events that Made America*, *How Trump Won* with Joel Pollak (completed before the 2016 election) and with David Dougherty, *A Patriot's History of the Modern World* in two volumes. *Reagan: the American President* appeared in 2018.

He has been on almost all media, from Al-Jazeera to Glenn Beck, from Tavis Smiley to Rush Limbaugh. Since 2009, he has been a film producer. His documentary, "Rockin' the Wall," which appeared on PBS and the sequel "Other Walls 2 Fall." In 2019 he founded the Wild World of History curriculum website, now available as a full curriculum for US and World history, providing full lessons with video instruction by Larry Schweikart. "There are a thousand pleasant surprises and heartening reminders that underneath it all America remains a country of ideas, ideals, and optimism—and no amount of revisionism can take that legacy away."—John Coleman, *Humane Studies Review*

"A welcome, refreshing, and solid contribution to relearning what we have forgotten and remembering why this nation is good, and worth defending."—Matthew Spalding, *National Review*

"Any reader of Schweikart and Allen's book will see immediately that it is a serious and substantive volume, based on a full recognition of the important secondary sources written by our major historians."—Ronald Radosh, *Front Page Magazine*

Trump's War on Capitalism

David Stockman

Donald Trump had all the right enemies while in office—but that was about all he had right. And with the election of 2024 fast approaching, the essence of the moment is this: Lock him out of both the nomination and the Oval Office.

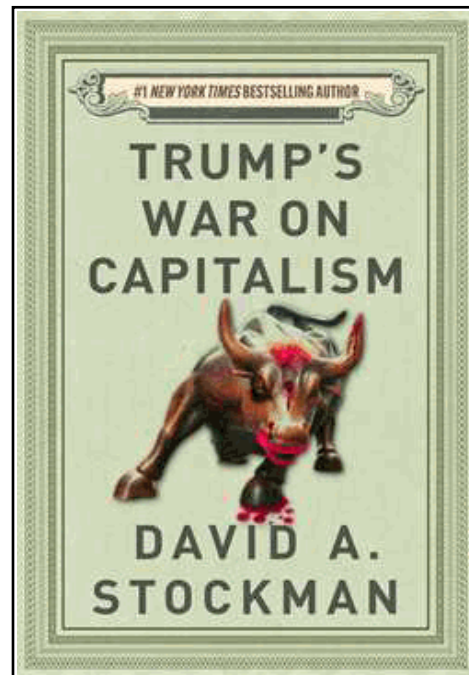

David Stockman, the *New York Times* and *Wall Street Journal* bestselling author of *The Great Deformation*, dissects Trump's economic policies and exposes him as the failed businessman that he is—not a conservative and definitely not a Republican. The border wall, the tariff war with China, and Trump's disastrous response to COVID-19 were all remarkably misguided failures of policy that hurt American prosperity. Even his claims of job creation fell flat too—Trump's tenure was the only presidential term in which private payrolls in the US economy actually shrank—well, at least since Herbert Hoover!

America cannot endure another four years of Donald Trump. Nor, can it tolerate another election where a woebegone Democrat wins by default owing to the simple fact that they are not Donald Trump. *Trump's War on Capitalism* exposes his miserable record as a big spender, easy moneyman, hard-core protectionist, immigrant-basher, militarist, and all-around Big Government statist—all reason enough to lock Trump out of the 2024 election.

AUTHOR BIO

David A. Stockman is the ultimate Washington insider, starting a career in Washington in 1970, when he served as a special assistant to US Representative, John Anderson of Illinois. In the early seventies he was executive director of the US House of Representatives Republican Conference and was elected as a Michigan congressman in 1976 before joining the Reagan White House in 1981. Serving as budget director, he was one of the key architects of the Reagan Revolution plan to reduce taxes, cut spending, and shrink the role of government. He joined Salomon Brothers in 1985 and later became one of the early partners of the Blackstone Group.

The author of *The Triumph of Politics*, Stockman has numerous *New York Times* bestsellers under his belt. Born in Ft. Hood, Texas, he attended Michigan State University and Harvard Divinity School and then went to Washington as a congressional aide in 1970. He lives with his wife Jennifer Blei Stockman, and they have two daughters, Rachel and Victoria. He lives & works in the Miami, Florida metro area.
