Global Rights

We're delighted to come to you after just celebrating the best year ever for BookEnds' Global Rights. In 2025, we negotiated over 260 titles for a total of USD 3M in sales and we're just getting started. Already in 2026 we've seen huge successes with Bree Grenwich and Parker Lennox as well as Rachel Schneider, Emma Hamm, and Juliette Cross—to mention a few of our romantasy queens.

While Global won't personally be in London, leaving that to our Media Rights director, Dakota Reed, who is attending to discuss our book- to-film and other subsidiary rights, we are sending out our guide to introduce you to some of the fabulous new authors we're working with, including Angelina J. Steffort (romantasy), R.G. Angel (romance) and Lily Gold (why choose standalones), who come to us with extensive backlists (please check our website to see what other titles we have to offer).

We're also seeing some of our fabulous indie authors move into traditional publishing, like Pippa Grant, who will have her Three BFFS and a Wedding series reissued by Sourcebooks, and Hafsa A. Jawad publishing through Random House Children's.

We will miss seeing you in London and Bologna, but we'll be busy back in the office working to bring you more fabulous projects and look forward to hearing from you on these.

We wish you successful Spring fairs, and hope to see you in Frankfurt!

The Covenants of Velora #1

The Halfling Prince (The Covenants of Velora 2 of 3) Emberly Ash

I made a deal with the devil. He owns my afterlife. But that does not mean I will go willingly. I will be a plaything of no male—man nor god.

Sister. Lover. Witch. Koryn has spent four hundred years twisting herself to fit the expectations of others, only to find betrayal. She can now add captive to the list of roles she is forced to play. But play is what she will do. Play along, and plot her revenge.

A gate is always near. A god is always watching...

Two gates remain. Koryn cannot ignore them for long. The gods will always claim their due. They asked for her dragon before. This time, they will not ask. They will take. Koryn must move quickly, or she will be fighting a war on all fronts. And for the first time in four hundred years, she has something—and someone—to lose.

Hunted By the Demon's Vow

A.N. Caudle

Her protector becomes her hunter.

Seven days. That's how long the humans selected for the Hunt must survive. On the island, the demons are set loose to hunt them down and indulge in their darkest desires with no rules to stop them.

Vhaena never thought her town would turn on her, but when she's voted as a sacrifice for the demons' annual tradition, she's forced into a nightmare designed to kill her. Alone and betrayed, she's prepared to do anything to survive. What she isn't prepared for is him.

Daemon, her brother's best friend and her forbidden obsession—a demon hiding among them.

Loyal to his vow to protect her but cursed by the darkness clawing at his soul, Daemon walks a blurring line between protector and predator. His vow demands her safety, but his hunger demands her ruin.

On an island meant to unleash the monsters hidden within, Vhaena and Daemon must decide which is stronger—duty or desire.

This dark romantic fantasy is perfect for fans of forbidden love, deadly survival, and the kind of devotion that burns even in the ruins of hell.

About the Author

A.N. Caudle has a history in engineering with a degree in organizational leadership (and to make her even nerdier, she went to space camp). After spending over a decade pouring over architectural schematics, she was hit with the idea for a story that demanded (yes, demanded) to be told.

Bloodsinger (The Fire That Binds 2 of 3) Juliette Cross

Lela Bihari's village was invaded on her wedding night, her betrothed murdered right in front of her. While her sisters were either dragged away or escaped, Lela was sold to Valerius, a consul of Rome.

When she tried to kill Valerius her first night as his slave, her bloodsinger gift manifested... and she was punished for it. Now she's paraded in front of the other senators for their amusement.

But Trajan Tiberius, the newly elected tribune to the senate, is different. He has no love for the brutality around him. When he frees Lela from enslavement and hides her, Lela is set on a path of vengeance, and using her gift puts her in more danger than ever before.

Now trapped inside the walls of Rome while deathriders circle the skies, how can she possibly trust a Roman dragon? Especially when it is clear Trajan has ulterior schemes of his own? As her powers grow stronger, danger draws closer, and Lela realizes it isn't just her life at stake, but also her heart.

Our Vicious Oaths N.E. Davenport

Princess of the Aether Dominion, Kadeesha wants nothing to do with fae politics. But bound since infancy to be betrothed to the Hyperion High King, ruler of all Dominions, she has no choice but to do what men have chosen for her.

She spends one last night of freedom in the arms of the dangerous Malachi who takes her to sexual heights she's never experienced before...but who is only using Kadeesha to set a trap for the High King.

On Kadeesha's wedding day, Malachi and his special forces attack. Her father is killed, and Malachi wounds the High King, ultimately taking Kadeesha as hostage back to his land. But she is no true hostage. The two form a pact: she will help lure the High King so Malachi can kill him once and for all, and he in turn will not harm Kadeesha or the Aether people. And as much as Kadeesha hates politics, she is now the Queen of her folk. Fae bonds are unbreakable... and so, perhaps, is the attraction Kadeesha and Malachi feel for each other. For even as they must publicly display their connection to provoke the High King's jealousy, they struggle to resist the powerful allure between them in order to achieve their ultimate goals.

Amid Clouds and Bones Ella Fields

A princess determined to survive an arranged marriage to a heartless fae prince is saved by a twist of fate that could destroy their world in this standalone fantasy romance.

As the half faerie daughter of a human king, my days were spent tucked out of sight—until the Seelie Fae sought an alliance with our kingdom. In exchange for my father’s help in defeating their Unseelie enemies, I would wed Atakan the heartless.

The Seelie prince loathed everyone, but none more than me.

Throughout the years leading to our nuptials, each encounter grew more terrifying than the last as he demonstrated how he’d earned his infamous reputation.

Fear would only doom me faster. So I learned to hide it with games I soon became happy to play. I wasn’t supposed to crave a monster. But just when I’d thought I might tame the untameable, fate intervened. And delivered me straight to his enemy.

Captured and forced to confront a fate far worse than dying, Jessamine must decide how much of herself she is willing to sacrifice to end a war written in blood and ruled by gods.

The Carousel of Forgotten Places S. Hati

For 500 years, immortal timekeeper Ryka has run a cozy magical fair on the edges of time, managing the time threads and protecting the spirits that live there.

Among a found family of quirky ghosts, a spectral cat, and even her insufferable boss, the annoying (and sexy) time-god Everest, she gets by with a few golden rules: don't interfere with the timelines she traverses, never stop looking for a way back to her own timeline, and avoid Everest at all costs.

That is, until the carousel at the heart of the fair begins showing signs of time rot, causing ruptures that culminate in the unprecedented: a human falling through time and landing at their feet. With the fair descending into chaos, Ryka and Everest must team up to get this human home, find the source of the rot, and keep the fabric of time from tearing apart - all while hoping that the 500 years of feelings between them don't get in their way.

Praise for S. Hati

"Whimsical world, tender romance, and achingly relatable protagonist" - **Emily Charlotte, author of *Heart Check***

You May Now Bite the Bride (Witchfully Wed 1 of 4) Ava Ross

I craft joy-infused magic for a living, but my new vampire husband rules a kingdom that's forgotten how to smile.

When my grandmother arranges my marriage to the vampire king to form a treaty, I expect a political alliance with a brooding stranger. I do not expect to marry Kieran, the man who kissed me breathless at a magical festival six years ago, then vanished without a trace.

Now he's all formality and frowns, ruling a kingdom full of vampires who make funeral directors look festive. And while his court thinks I've bewitched him, the truth is far more complex. We might still have feelings for each other...

Then his advisors announce that we have thirty days to convince the court our marriage is real, or the fragile alliance between our people will shatter.

I should guard my heart. But when Kieran's careful control slips and my magic flares under his touch, I start to suspect the real magic isn't in my enchantments. Maybe there's more to my vampire husband than meets the fang.

Promise Me Shadows (To the Cruel Gods 3 of 4) May Sage

Silver: He literally fell from the sky, with his sharp jawline, unsettling eyes, and those marks burning bright when he looks at me. How the hell am I supposed to believe a word he says?

We're on the brink of war, both inside and outside of the city. And all of a sudden, a bona fide god spawn lands in our laps, happy to help? I don't buy it. He must be a spy. A weapon deployed to destabilize us.

I'm watching him for a reason. And that reason has nothing to do with those thick thighs. But damn, he really doesn't miss leg days.

Cas: Someone needs to remove the broomstick firmly lodged in this chick's shapely derrière before we murder each other.

She's right, of course. I am lying. What am I supposed to say, that everyone on Earth will likely be dead inside of a year? That would just make them panic ahead of time. It's not like she can do anything against the gods and monsters set to take over.

The only entity on Earth capable of withstanding them is me. Too bad I've never been the savior type. And I'm not about to enter a losing fight with my family for a woman ...Right?

To The Cruel Gods series

A sensual, dark, steamy paranormal romance in a world where everything that goes bump in the night exists, *Vow Forever Night* (To The Cruel Gods #1) is for bold readers.

Until the End of Ever (To The Cruel Gods #2) completes the story of Kleos and Lucian. Future books to come in the To The Cruel Gods series will feature other protagonists.

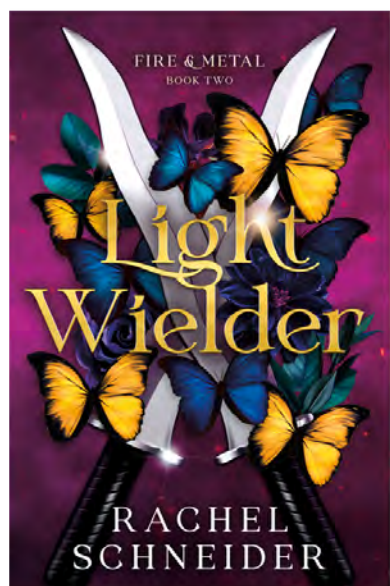

About the Author

When Mai first published under May Sage in 2015, she only intended to share her fun stories, but shockingly, people actually read those, so her dream of becoming an author became a reality. As her bibliography is too varied, she launched Emm Darcy, under which she explores steamier, darker stories.

Devour (Dangerous Creatures 1 of 3)

Stacey Trombley

The death cult known as Drak'yn have devastated everything west of the Morterres desert, with a reputation of violence and cruelty. And I have just been captured.

I am bound and dragged inside the caverns that make up the death cult's underground city, where I expect to be sacrificed to their demon goddess.

Instead, I am claimed by one of the warriors— a massive man covered in scars and hiding beneath a black mask. He takes me into his personal den, deep below the skeleton filled catacombs.

I am now his.

Yet, despite the blood of the innocent crusted beneath his nails, despite the scars covering his strong body, and horrifying black magic he wields—he is kind.

There may be something different about this specific monster, but that won't stop me from doing anything in my power to escape this nightmare dungeon.

Of Fates and Ruin (Kingdom of Shattered Vows 1) Alaya Wells

I infiltrated a rival fae court to hunt my enemy. I didn't mean to stab their golden-eyed king.

Disguised as a recruit, I cross into the wasteland swamp, searching for the rebels who murdered my sister. But instead of a crumbling outpost, I find a glittering court cloaked in illusion, where brutal trials bind warriors to magical beasts. Unfortunately, the first person my dagger sinks into is their infuriatingly gorgeous king. Instead of seeking revenge, Trewyn smirks, as if getting stabbed was just flirting. When he assumes I'm here to enter the Rite of Bonds, I let him believe it.

If I fail the bonding trials, I'll be exiled before I uncover the truth. If I succeed, I risk becoming what my kingdom fears most, an untamed magic-wielder dangerously loyal to the wrong side. My court raised me to see the rebels as traitors. Now, I worry I'll willingly bleed for them... especially for him.

King Trewyn goads me, but my body doesn't care that he's forbidden. He watches me like he knows what I'm hiding. Like he's daring me to break. Like he's already decided I'm his, and he's just waiting for me to admit it.

But with a darker enemy rising, one that drains magic and leaves only husks behind, I'll have to choose: avenge my sister or trust the king who's become my greatest temptation.

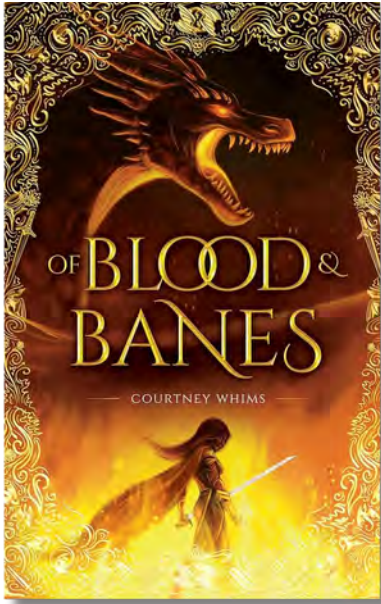

Vengeance is a mask. And mine is about to shatter.

Fangirl R.G. Angel

Amy Sinclair never expected her biggest crush to become her biggest heartbreak.

Falling for Eli wasn't in Amy's plans. But when fantasy collides with reality, she has to ask herself: can a relationship that started online survive the messy truth when it finally becomes real? Or is it safer to keep hiding behind the perfect fantasy?

In a Second (Friendship, RI book 3 of 4) Kate Canterbury

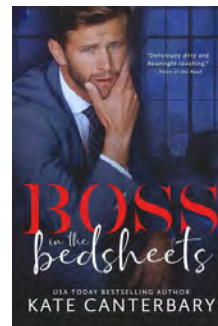

The last time Audrey Saunders saw Jude Bellessi, he begged her to ditch her wedding and run off with him. She said no. In her defense, she was already in the dress.

Years later—divorced and done with relationships—Audrey runs right into the one man she never managed to forget. Except Jude isn't the rebellious bad boy she remembers. Now Jude's an aerospace engineer, a fiercely protective single dad...and, apparently, her fiancé. At least that's the story he spun for his sick mother.

When Jude asks her to play along for the summer, Audrey knows better. She really does. But unfinished business is a powerful thing—and so is the pull of the boy who once held her whole heart.

Besides, how much damage can one summer vacation with the biggest mistake of her life really do? Answer: epic. Catastrophe looks a lot like a mother-in-law in turbo wedding-planner mode, a preschooler who doesn't miss a beat, and a suspiciously high number of hotel rooms with just one bed. So why does lying about forever feel like the first honest thing she's done in years?

He's to Die for Erin Dunn

At 29, Detective Rav Trivedi is the youngest member of the NYPD's homicide squad, and his future looks bright. He may be a bit of an outsider in the department—an ivy-league educated gay Brit with a weakness for designer suits—but his meteoric rise and solve rate prove he belongs.

So when his CO assigns him lead on the high-profile murder of a record executive, Rav is ready for action. He won't be distracted by TV crews, tabloids, or what's trending on social media, nor by the ridiculously hot rock star with a clear motive and no alibi.

This is it, his shot, and he is not going to screw it up—certainly not by falling in love with his number one suspect...

Praise

"With plenty of panache and great precision, Dunn skillfully creates a work of romantic suspense by walking the line between an intriguing procedural mystery in the manner of Ed McBain's 87th Precinct books and a sizzling romance à la Casey McQuiston's *Red, White, & Royal Blue* (2019), all while writing with a sense of dry wit so sharp it could be considered a weapon in its own right." —**Booklist**, starred review

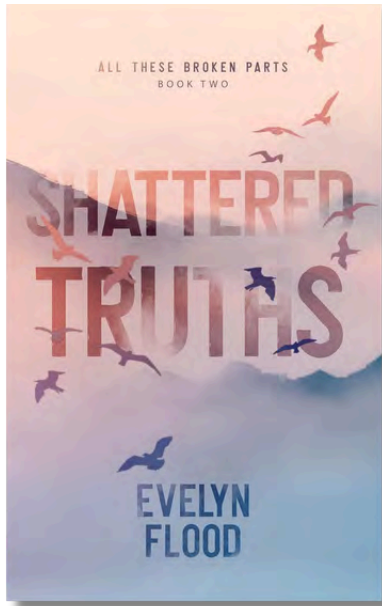

"Mystery and romance play equal parts in this fast-paced cozy, which revs up on its way to a truly surprising twist ending." —**Publishers Weekly**

"At times suspicious and brooding, other times sultry and steamy with sexual tension, the writing nimbly treads the line between genres without missing any trope beats...This witty, sexy, and mysterious debut is certain to satisfy both whodunit fans and romance lovers." —**Library Journal**

Highland Hideaway

Lily Gold

One bubbly city girl lost in the Highlands.
Three grumpy Scots determined to keep her there.

Yesterday, I was a fashion influencer on a trip to a luxurious Scottish spa. Today, I'm the internet's favourite trainwreck. All it took was one embarrassing viral video to end my career and leave me stranded in the Highlands.

I find shelter on Lochview Sheep Farm. It's certainly not a luxury vacation spot... unless you count the three huge Scots running the place. There's Cameron, the grumpy shepherd who calls me 'princess' when my heels get stuck in the mud... before carrying me inside. Fraser, the flirty rancher with the auburn hair, who promises to wear his kilt just for me. And Alec, the commanding farm manager, who seems to hate me... until a sudden storm sends his protective streak into overdrive.

They all assume I'm just a clueless city girl. But when they find out what I'm hiding from, they swear to take care of me. Soon, I'm being kissed in freezing Scottish lochs, cuddled in front of the roaring fireplace, and being spoiled like the princess they once accused me of being. And the best part? My three handsome Highlanders are used to sharing everything... And now they want to share me.

You've Got Hate Mail (Accidentally Infamous 1 of 3) Pippa Grant

Punching a guy in the face is never a good first impression, but it's not like Heath Moriarty knocked before he walked into my bathroom. While I was showering.

For the first time since I accidentally flashed, well, everything on a livestream while filming a style segment for my day job. And yes, technically, it's not my bathroom.

It's the bathroom in the little house I've been assigned at a secret community for accidentally-viral internet stars who need a place to hide while the attention dies down. Heath the handyman wasn't expecting me any more than I was expecting him.

But after one more household disaster breaks my temporary quarters, I'm suddenly his roommate until renovations are complete.

His roommate who's falling in love with his daughter. Falling in love with his cat. Definitely not falling in love with him though.

This place is temporary for me, and I've imploded enough of my life without adding heartbreak to it when it's time for me to go. If only my heart had gotten the memo...

Praise for Pippa Grant

The Next Chapter Camille Kellogg

Katrina Kelly might have eight million Instagram followers and a multipage IMDB listing, but she also has a completely stalled-out career and some major questions about her sexuality, which seems to be moving closer to raging lesbian every week. But maybe she can solve both of those issues at once... After all, rebranding as a queer icon is a great way to jump-start an acting career.

Jude Thacker is fine. Completely fine, so please stop asking. Has the queer bookstore where she works been taken over by a boss who'd rather sell branded tote bags than books? Yes. Does she have a panic attack every time she has to leave her comfort zone? Maybe. Has she been on a single date since her heart was shattered two years ago? Absolutely not.

When Kat and Jude cross paths, Kat realizes that their meet-cute might just be a meet-opportunity. But what's meant to be a publicity stunt quickly turns into real feelings for both women. As the media scrutiny intensifies, each must decide what's real, what's not, and if true love is worth losing everything they believe is keeping them safe.

Praise

"Riffing on rom-com classic Notting Hill, Kellogg (*Just as You Are*) offers up a sweet sapphic romance about growing into oneself. . . . There's a gentle coming-of-age feel to the heroines' arcs and the largely queer supporting cast adds heart. This is a charmer."—**Publishers Weekly**

"Camille Kellogg is a must-read talent. Every one of their books is fresh, poignant, and deeply romantic. *The Next Chapter* is phenomenal."

The only woman who can soothe the jagged edges of his mind is his sunny assistant Ailee. When she's bullied and publicly humiliated by her cheating fiancé and family, he steps in to protect her, and impulsively declares they're engaged.

The Blue Moon Café & 24-Hour Occult Emporium Lexie Sharabianlou

A magical witness protection program, a town in need of saving, and a sorceress-in-training . . . oh, and the human woman she's not supposed to fall for. The Blue Moon Café has a little bit of everything (except, you know, decent coffee).

In the tiny town of Pine Hollow, barista and fledging sorceress Talula Smith runs The Blue Moon Café & 24-Hour Occult Emporium, aka the worst coffee shop in town. The café's horrible reputation hides its true purpose: providing new identities and safe passage to at-risk magical beings while keeping humans far, far away. That is, except for town local Dahlia. Dahlia's devastating dimples, addiction to Talula's cocoa recipe, and keen observation skills keeps the smitten barista scrambling to ensure that her magical abilities (or, lack thereof) stay a secret.

But when big game hunters start preying on magical beings, her powerful sorceress mother is called away to track them down, leaving Talula and her barely-there magic in charge of The Blue Moon. With the impending Samhain festival to organize, magical refugees to help, half of the town turning against her, and her ever-growing feelings for Dahlia, Talula's magical destiny feels further away than ever. But as the hunters set their sights closer to home, it'll be up to Talula to master her craft, trust her heart, and bring her magical and human communities together . . . before she loses everything she loves.

The Halifax Hellions #3

The Halifax Hellions (The Halifax Hellions 1-2) Alexandra Vasti

From the day of their debut, when Matilda smoked a cheroot and Margo tied a cherry stem in a knot with her tongue, the Halifax twins have flouted convention at every turn. But when Matilda runs off with the dangerous Marquess of Ashford—who has every reason to hate her—she may have gone a bit too far.

Determined to stop Matilda's inexplicable elopement, Margo turns to her oldest friend for help: starchy solicitor Henry Mortimer, who is ardently, wildly, miserably in love with Margo beneath his buttoned-up exterior. But the road to Scotland is paved with secrets, and Matilda and Ashford's relationship too may not be quite what it seems.

Between salacious engravings, secret identities, and feral cats, nothing about the journey goes as planned. With the Halifax Hellions at the reins, a week in a carriage is exactly enough time to turn the world upside down . . . and, maybe, find love they never expected.

For the first time ever in print, *The Halifax Hellions* brings together Margo and Matilda's novellas, along with a swoony new epilogue. The third novella in the series, *In Which Winnie Halifax Is Utterly Ruined*, is also available for translation.

The Hemlock Series #1

Like a Wildflower

(The Hemlock Series Book 2 of 3)

Samm Wilde

Joey: I've always been the "too much" girl. Too expressive, too forgetful, too overwhelming. My life is a whirlwind of new adventures and endless roads. Now that I'm back home on a three-month work assignment, I'm stuck under one roof with a quiet, tattooed stranger. Enter Beckett, my new roommate. On paper, we're complete opposites. But beneath the surface, we're not so different. Somewhere between the late-night conversations and the chaos turned into cherished memories—I realize we're different versions of the same story. Because with Beckett, he shows me that being "too much" can be the perfect amount for the right person.

Beckett: The open road always calls to me. I've spent years collecting highway miles instead of human connections. With my cat in tow, I move from city to city across the country as a travel nurse, only staying as long as needed. As a result, building relationships doesn't come easily. Especially when my social anxiety gets in the way. So when I find myself sharing a cottage for three months with a free-spirited woman who understands me better than I do, I learn some detours are destinations in disguise. When Joey speaks, the universe pauses to listen. Yet every time our eyes meet, it's as if she can hear all my quiet thoughts. With her by my side, the tightness in my chest eases—grounding me more than anything or anyone else ever could.

Without warning, our lives intertwine, gradually reshaping around each other. And suddenly, three months in Hemlock doesn't sound long enough.

The gothic vampire matriarch who insists on keeping me in her castle finds everything deliciously dramatic. She swears I need a supernatural guardian or my powers might detonate. After my divorce, the last thing I want is to be bound to anyone.

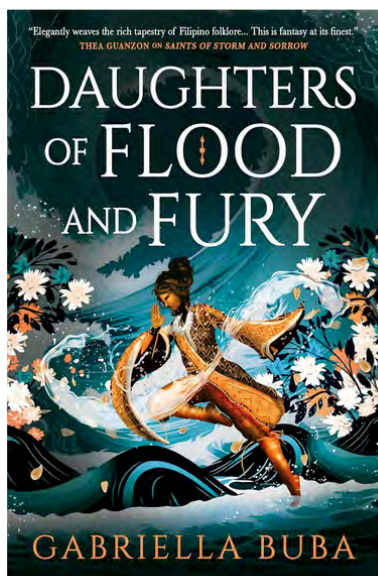

My new job at a supernatural law firm seemed like a step in the right direction... until a magical artifact went missing and everyone started pointing fangs. Now I'm hunting for the Twilight Concordat with a purple-haired mage whose idea of fun is "light breaking and entering." Meanwhile, Clara Blackwood, the Council's Chief Investigator, looks at me like I'm a puzzle she can't quite solve. Five years after the fall of the Palisade in Aynila, the Codiciáns are closing in with a vast armada to retake the jewel of their empire. Lunurin and Alon have been working desperately to solidify their alliances across the archipelago, but petty rivalries, suspicion, and conflicted loyalties threaten to undermine their efforts. To stand any chance, they must unify the disparate factions of their forces at the festival of the eclipses, when the Iaho will swallow the moon, and the festival of the islands' magic will be at its strongest.

Inez has been training as a tide-touched healer, but the gentle side of her goddess's gift does not come naturally to her. When rumors reach her that her sister, Catalina, has returned to the archipelago, Inez embarks on a dangerous journey over the sea, determined to prevent Cat from ever hurting Aynila or her family again. Aboard a pirate ship, Inez meets the fierce firetender Captain Umali, who burns brighter than anyone else she has ever known. Yet Inez fears her untamed, hungry magic may prove too much even for a pirate, and with the threat of the Codiciáns' return, the past hangs heavy over her head.

Three goddesses stand ready to fight. But without human allies, even their power may not be enough to keep Aynila and the archipelago free.

Longing for Liberty Wendy Higgins

Before World War III, Liberty Carson remembers what it was like to chase her dream and become a writer. She vividly recalls the feeling of her three precious children crowding her lap and her husband's smiling face when he used to laugh. She still dreams of eating international street food in Baltimore. And sometimes, she envies this newer generation who never knew the taste of freedom.

Libby cannot forget what her country was like when it was still fifty states. Before the war turned half of the U.S. to dust and radiation. Before three men rose to power and sanitized what was left into their macabre version of America. Long before making a living meant taking whatever job they chose for her.

Now, she's entering the penthouse of one of those powerful men, wearing her maid's uniform, woefully unprepared to be in the presence of the unnervingly handsome Amos Fitzhugh, who gives off the distinct dark energy of domination. Libby distrusts everything about this man and what he stands for. She hates how he looks at her and how she can't help but react, even in the face of her marriage vows.

If he plans to use her, she will return the favor, all the while stoking the ashes of the raging phoenix inside her soul, intent on revolution. Caught in a devious web of power, desire, and deadly secrets, Liberty will get one shot to burn it to the ground.

The outcast daughter of a powerful family of witches returns home to New York City and is immediately embroiled in a supernatural power struggle in this wickedly funny fantasy debut from AM Kvita.

After seven long years Joan Greenwood is finally returning home. Unfortunately, her family totally forgot about it.

Joan's homecoming is lukewarm at best, but soon turns disastrous when news hits that someone has created a spell that can turn an ordinary human into a powerful witch, threatening the balance of the magical world and the Greenwood's place at the top of it.

When her best friend confesses that he has secretly, accidentally, saved this human-turned-witch from an uncertain fate, Joan is thrust headfirst into a desperate race to undo the spell before it does permanent damage to its unwilling host.

Soon, Joan finds herself drawn deeper into the heart of the city's magic, into an uncertain alliance with a (very attractive) family rival, and far beyond the limits of everything she thought her own magic capable of.

That Devil, Ambition Linsey Miller

There is only one school worth graduating from, and it creates as many magicians as it does graves...First in his class and last in his noble line, Fabian Galloway's only hope of a good future is passing his elite school's honors class. It's only offered to the best thirteen students, and those students have a single assignment: kill their professor.

If they succeed, all of their student debt is forgiven. However, if an assassination attempt fails or the professor is alive at the end of the year, the students' lives are forfeit. And dealing with the professor, a devil summoned solely to kill or be killed, is no easy task.

Fabian isn't worried, though. He trusts his best friends—soft-hearted math genius Credence and absentminded but insightful Euphemia—to help. After all, that's why he befriended them. As the months pass and their professor remains impossibly alive, the trio must use every asset they have to survive. Or else failure will be on their academic records, and their tombstones, forever.

Praise

"Miller's text is richly written without weighing down the narrative, and the characters shine against the dark academia backdrop. The suspense rises subtly as the year progresses, and the storytelling is engrossing in this stunning novel."
—Booklist, starred review

"[Miller] devises a fresh, physics- and chemistry-driven magical system and utilizes cerebral close-third-person storytelling and biting narration to confront the twisted politics of dark academia." **—Publishers Weekly**

“There are stories that stay with you forever and *The Gods Must Burn* is one of them. The mythology is so layered and rich, the romance is angsty and soaring and epic, and T.R. A Viper Among Kings (Wraithbound 1 of 3) Sydney Olivia

In the twisted city of Amaris, magic spawns from chaos. Prone to driving humans mad, it can only be wielded safely by the seven immortal beings currently bound to the king—Esme among them.

She has spent the last century forced to kill on behalf of the nation that stole her from her homeworld, searching for a way home and doing her best to build a secret life for herself and her wife away from the violence.

That is, until the current king turns up dead, leaving behind a magical will that demands his successor be chosen via tournament.

Esme cannot break the magical shackles that bind her, but she will suffer no more tyrants—now is her chance to rig the tournament in favor of her chosen candidate, the seemingly kind General Balthazar whose righteous spirit she can't help but fall for, and who can free her once he's king.

As Esme weaves together the threads of the court on Balthazar's behalf amid a strange tide of sentient magic in the city and a growing war on the horizon, she will come face to face with Balthazar's bloody past, troubled present, and countless betrayals.

He isn't the man Esme thought he was—but she was born to make and break kings.

The Disco at the End of the World

Nathan Tavares

In 1977—a world where America launched its space program shortly after WWII—Mitch Ward is a grunt in the US Spaceguard. Stationed in a backwater base on the Moon, his only friends are Gloria, who performs “Lady Stardust” for fellow soldiers, and Flynn.

Following a visit from an unseen, terrifying, but also maybe euphoric being, they find themselves quickly discharged from the army, and sent back to Earth. Moving to Los Angeles to chase their dreams, Mitch and Gloria scrape by, finding their joy at the discos in the city.

But when Flynn crashes back into their lives, claiming to be the host for a traveler and emissary of a utopian civilization, he comes with an offer for Mitch—to join him, and claim power so that he and his friends across the queer community never have to live in the shadows or face oppression again.

As the forces of prejudice and oppression seek to push their community back into hiding, keeping them out of sight and oppressed, it's down to this community of disco-loving outcasts to stand up for what is beautiful and right.

House of Margins Tlotlo Tsamaase

Anaya Sebeya is missing. Before her disappearance, Anaya was a brilliant writer, a rising star. Invited to a prestigious writing residency at Günter Huis, an eerie colonial mansion on the slopes of Devil's Peak, Anaya was supposed to craft the next great African literary masterpiece—and so were four other young, emerging writers, all competing for the grand prize. But Anaya never made it home.

When a sensationalized true-crime podcast about Anaya emerges, claiming to reveal everything that happened at Günter Huis, her sister Ranewa is both skeptical and furious. But with each surreal episode, Ranewa begins to piece together a truth worse than she ever could have imagined...At Günter Huis, Anaya's nightmares consume her. Time slips away from her. Günter Huis inflicts distorted visions and terrible supernatural visitations, pushing Anaya to tell a story no one dares. But exorcising the house's endless cycle of evil requires a sacrifice that neither Anaya nor her fellows are ready to make.

Loba

A lighthouse keeper flees her abusive husband and the ghost who plagues her, a haunting that links her to another mistreated woman, a century prior, whose story may hold the key to their mutual freedom—a chilling gothic horror for fans of V. Castro and Isabel Cañas.

Delmira Torres knows fleeing to Brazil is the only way she'll be free of her abusive husband.

But to get there she'll need money; it's why she takes a posting at a lighthouse in Cabo Polonio, Uruguay. There, she has only a month until her husband catches up to her, and her secrets with him. But the position comes marred by the legend of La Loba, who stalks the lighthouse and the nearby fishing village.

Her only ally is a local fisherman who tends to the aggressive sea lions living around the lighthouse, and not even he can save her from the spiraling visions that begin to plague her, the way time slips, and the mysterious woman, La Loba, who looms large in the villager's stories. Villagers who may be as dangerous as the haunting itself.

She is not the first lighthouse keeper to lose her mind on the shores of Cabo Polonio. But she is determined to be the first to survive it.

A Long Dark Night

Lilli Sutton

After her restaurant closes and she returns to her childhood home, deep in the Alaskan wilderness, Nina has one goal: finding a way back out. Her family's sled-dog business is struggling, and she is alarmed that her brother Grant is working at the nearby oil field. Grant comes home one day extremely unsettled by his involvement in disturbing events at work. The supervisor on duty orchestrated a suspiciously seamless coverup of a deadly accident, leading both siblings to wonder if the past disappearances of field workers are more than a coincidence.

Grant wants to forget the whole thing ever happened—the oil rig is the only source of employment that pays enough to keep their family afloat, and he doesn't want to risk any jail time. But Nina can't let this lie. The opportunity to uncover the truth about the disappearances and protect her family from increasing threats is too important. What starts as an attempt to unravel the mystery leads Nina, Grant, and their loved ones directly into the path of those determined to keep them silent no matter the cost.

Perfect for fans of *Spirited Away* and Domee Shi's Pixar short *Bao*, this humorous picture book tells the fantastical tale of one grumpy old man and the creation of Taiwan's first night market.

Mr. Chow lives for the night, when the moon is a wok full of simmering oil.

Too bad he owns a supermarket and has to wake up very, very early. Mr. Chow hates mornings and so does his store: The shopping carts are sluggish, the front door yawns, and the pomelos roll down the aisle in a sleepy daze.

When disaster strikes, Mr. Chow seeks advice from other workers and the similarly buoyant, anthropomorphic buildings they work in. And soon, he discovers that his store doesn't have to be a morning market...it can be a night market!

Accompanied by spellbinding art from Yu Ting Cheng, debut author Emily Sun Li crafts a whimsical myth about how the very first Taiwanese night market was created.

Clementine H. Hopeful is Not a Hero

(Better School Book 1 of 2)

Noah Corey

Clementine has always felt like the villain of his story. Most of the time, he's a socially anxious kid who knows it's not "normal" for a boy to wear pink shoes to school. While he's there, his teachers won't call him by the right name (even though Clementine is a boy's name, if a boy has it), his classmates tease him about his obsessive love for spiders (even though they're beautiful), and he's the only one who can see the floating faces that haunt the surrounding woods.

But in the woods, everything is different. At night, he and his new friends Beetle, Cricket, and Anise spend hours in a play-pretend world that seems to be seeping into reality. Clementine has never had a friend like Beetle—a boy who breaks into his house and teaches him to howl at the moon, who dreams of being a hero and says the whole sky is beautiful while looking right at Clementine and not at the sky at all.

But Clementine wants to use the power fueling their adventures to make things better outside the forest—not later, when he's grown up, but now. And when he discovers the source of the magic, Clementine has to decide: Does he become a hero with Beetle and protect a world that hates him? Or does he finally become the villain, ready to build a new world whatever the cost?

In this joyful and uninhibited celebration of imagination, empathy and all things monstrous, debut author Noah Corey tells the story of a queer kid who is exactly and exquisitely himself. This book is a love letter to villains and heroes, and all the ways they make us brave.

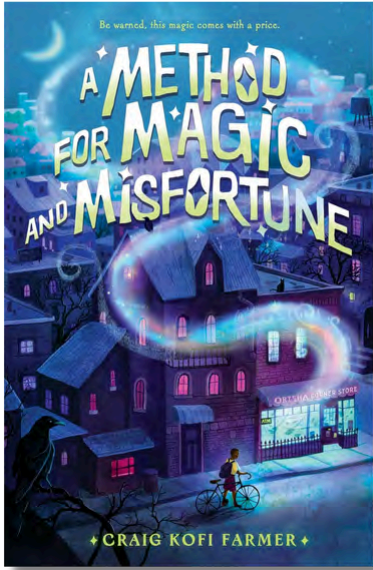

Praise

"Clementine's story is part *Peter Pan*, part *Alice's Adventures in Wonderland*, part *Coraline*, and at the same time wholly unique . . . A dark and inviting tale for all the nonheroes out there." —**Kirkus Reviews**

About the Author

Noah Corey lives in Washington state with his husband (Markus), his dog (Potatoes), and his three cats (Wirt, Greg, and Beatrice). He feels passionately about outer space, insects, and fictional vampires.

In this stunning conclusion to the *Ravenous Fate* duology, Elise Saint and Layla Quinn must discover the truths behind an alluring poison and the monstrous new presence ravaging New York City.

According to legend, the Soldier drowned entire kingdoms in darkness.

Yet, the Soldier was only a girl, robbed of her will and raised as a weapon for her power-hungry father. When she awakens years later, freedom takes the form of a hidden life and a new name: Shadow.

As war brews and magical dead zones devour the natural world, Shadow is captured and pulled back into court life by her immortal father's new prodigy, Scarlet, a diabolical woman obsessed with her sister's murder. A murder Shadow herself committed in a past life.

Shadow's control over darkness holds the key to restoring the balance of their world, but a serpentine court hides greed, corruption, and her father's new plot to resurrect his fading magic.

If she's to survive and save her nation, Shadow will have to hide her past and rely on the woman who captured her—even as they unwind the legends that brought them together and face their growing attraction.

New Gabriela Buba on the Horizon

Titan Books in the UK acquired *The Alchemist of Bohemia* (slated for April 2027), an atmospheric dark academia fantasy with a heavy helping of romance, inspired the real Czech legend of Hrad Houska. This is a shadowy Gothic tale of magic, mystery, and madness set in late-19th-century Bohemia that follows a scientist who travels to the remote Houska Castle, which, it is said, guards a portal to hell. We have kept translation, and will soon have more information and materials to share.

Extra chapters for *Firebird*

The paperback edition of *Firebird* by Juliette Cross, published February 17, 2026, includes three expanded chapters available for translated editions—both for current and future licensors!

Two-in-One for Hannah Bonnan Young

Set the Record Straight (an indie Christmas novella just sold to Bantam Dell in the US and to Bedford Square in the UK) pairs perfectly with the Valentine's Day novella *Time Will Tell* (Amazon Original Stories) for a themed single-volume edition. See details about the two novellas on page 29 and add one (or two!) more titles by this Canadian *New York Times* bestselling author to your list.
