GOOD TASTE

Nelly Saunders is exactly who you want her to be. A social chameleon with a sharp tongue and an eye for the finer things, Nelly will do anything—become anyone—to leave her checkered past behind. So when she meets Felix Whittaker, heir to the multi-million dollar Whittaker Cruise Empire, falling in fairytale love is as easy as changing her name to “Elle” (much classier than Nelly) and pretending her balayage is all natural.

But Felix’s family has...particular traditions. Before Nelly can secure her future (aka an heirloom diamond ring that would make Kim Kardashian blush), she’ll have to play by their rules. As part of a longstanding Whittaker tradition, the family is planning to take the maiden voyage on their newest ship—and they want her to come along. The only problem? Their latest acquisition is a private cruise ship...in Antarctica.

Three weeks anywhere with your future in-laws is bad enough, but a freezing ship in the middle of the freakin’ Drake Passage has to be a circle of Hell. But Nelly’s determined to keep her eyes on the 10 carat prize—and not on the ridiculously hot, tattooed deckhand who seems to see straight through her “manic pixie dream fiancé” facade.

But when Felix starts acting erratically, Nelly realizes that her future in-laws might be hungry for more than just generational wealth. They’ve always been foodies, but as the ship enters the isolated, no-one-to-hear-you-scream open ocean, Nelly begins to suspect that she might be next on the menu.

The table is set for the feast of a lifetime...but this appetizer is not going down without a fight.

Skyla Arndt lives with her husband and three cats by the perpetually frozen Great Lakes. Praise for *House of Hearts*:

Michael Bible

THE TERRIBLE

A writer's life changes overnight when he's the victim of mistaken identity so he returns to his hometown in North Carolina to investigate the story of a beloved crossing guard Wayne Self, who annihilated his family by crashing his van into the steakhouse where they were eating lunch after church.

The writer begins to piece together what happened through interviews after the fatal incident. Wayne reveals to the authorities that he is the reincarnation of Ivan the Terrible's little brother. He tells a mythic, and often hilarious account of his double life in 16th century Russia and contemporary America, where the violence and absurdity aren't that different.

Praise for *Little Lazarus*:

"A wildly ambitious novel of lyrical beauty."

—The Paris Review

As the Russian past and the American present blur, Wayne's mental health deteriorates but the emotional truth of his stories, his longing for love, his failures as a parent, his mental isolation, come into focus. The writer begins to lose himself in Wayne's story and his own search for self collapses as he wrestles with the question, "Are we all terrible?"

Michael Bible is the author of five novels including *Little Lazarus* and *The Ancient Hours*. Originally from North Carolina, he lives in New York City.

ONE MORE SUMMER WITH YOU

Willow has been looking forward to bringing her three best friends to her villa in the South of France this summer for lazy dinners full of laughter and memories under golden Mediterranean sunsets. But this is more than a vacation for Willow. She's holding onto an unfinished manuscript—a love story that spans four summers full of romance, heartache, and loss—and this might be her last chance to complete it.

The story starts when Willow first meets Hugo, at fifteen. Charming, cheeky, and effortlessly confident, Hugo convinces Willow to spend a day exploring with him when their train from Paris to Cannes is unexpectedly delayed. After an unforgettable twenty-four hours, Willow is convinced she's met the love of her life. But she's a Texas girl on summer vacation, and Hugo's life waits for him back in England. When they say goodbye the next morning, they don't think they'll ever meet again.

They're wrong. Over the course of four pivotal summers spanning sixteen years, Willow and Hugo are pulled together and torn apart by misunderstandings and missed connections, heartbreaks and second chances, losses so great they seem unsurvivable, and friendships that stand the test of time. Through it all, the question they once debated as teenagers remains: Is there one person we're meant to end up with—or are there many paths to happily ever after?

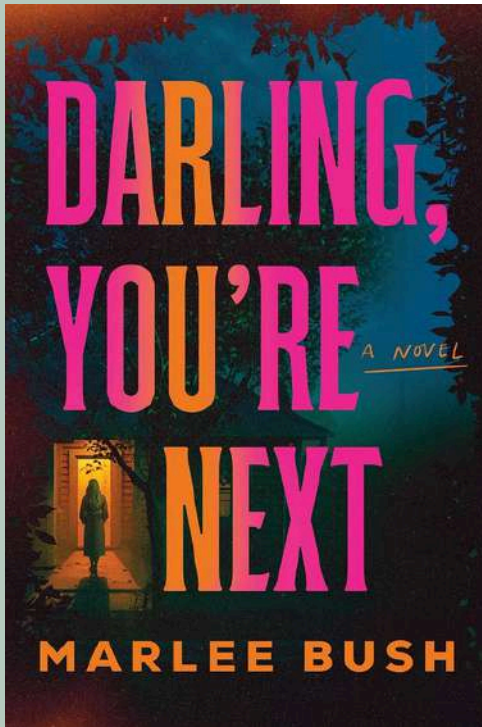

Hannah Brown is a television personality, lifestyle expert, and *New York Times* bestselling author of *Mistakes We Never Made*, *The Four Engagement Rings of Sybil Rain*, and *Reasons to Be Loved By You*. Born and raised in Tuscaloosa, Alabama, Brown was awarded Miss Alabama USA in 2018 and used her platform to advocate for mental health awareness. Brown then appeared on season 23 of *The Bachelor*, becoming a fan favorite, and was featured as *The Bachelorette* on season 15—winning a People's Choice Award. She went on to win season 28 of ABC's *Dancing with the Stars* and compete on FOX's *Special Forces: World's Toughest Test*, where she outlasted the other 16 contestants, most of whom were professional athletes. Brown resides in Nashville with her fiancé Adam Woolard and dog, Wally.

DARLING, YOU'RE NEXT

If you aren't bleeding honey, it isn't love...

Maren Kemp doesn't believe in love. Life taught her better. But when a kind stranger helps her at her lowest point, something shifts; and when he reappears days later in her grief group, the coincidence feels inevitable.

Topher Kowalski is patient, attentive—the kind of man who understands loss and makes Maren feel seen again. For the first time in what feels like forever, she wonders if healing might be possible.

Then it begins. Similar habits. Similar memories. The same eerie parallels to Topher's late fiancée, Abby: a woman who died in a fall that never quite made sense...

Abby once believed she'd found perfect love in Topher. Until everything changed...

Past and present begin to blur. Two women. One man. One story with too many gaps.

Because the closer Maren gets to the truth, the more it feels like she isn't starting a new love story. She's stepping into someone else's ending.

And this time, she's next.

Marlee Bush lives in Alabama with her husband and children. A Criminology major, she's obsessed with true crime, documentaries, and being generally paranoid about the world and the people in it. She is the author of *When She Was Me* and *Whispers of Dead Girls*.

Shelby Carleton

SEXPOCALYPSE

A raucous, biting, and deceptively heartfelt satire of today's pronatalist hellscape, in which a young woman must brave the post-apocalypse to abort the last fetus left on Earth.

The day fire fell from the sky, Sophie had been selling dragon dildos behind the counter of Coital Reincarnation, a small-town sex shop equipped with a bunker, thanks to its long-dead radical feminist doomsday-prepping founder, Simone Kink. Sulfur belched up from cracks in the earth. Cars melted. And Sophie retreated underground to survive. There was nothing for her up there, anyway. Sophie's world had ended well before the apocalypse; it ended the day she lost Jo.

Now, a year has passed. The world is officially over, for everyone. Humanity limps along, and birth has slipped into myth. Each day, Sophie opens up the sex shop to welcome in the customers who will never come, pun intended. But her world is upended, again, when a guy arrives at the shop and gives Sophie some of the lamest sex of her short life. Now, Sophie is pregnant. And she must leave behind the stuffy safety of her beloved bunker to brave the post-apocalypse—a world gone mad with militant nudists, vegan cannibals, semi-sentient sex robots, and a cult of violent, incel breeders—to abort the alleged last hope for the dwindling human race.

Sexpocalypse is a scandalously funny debut from a whip-smart new literary voice, as subtly profound as it is flagrantly profane. It is a scathing send-up of the frothing, pro-life fanatics of today, who would see our bodily autonomy stripped and sold for parts. Most of all, it is a love letter to those women who wake up and choose violence, and who will save us all because of it.

Shelby Carleton works in video games. *Sexpocalypse* is her first novel.

BREAK THROUGH

An erotic, transgressive love story about a woman who enters a charged romance with her psychiatrist after they find themselves at the same wedding.

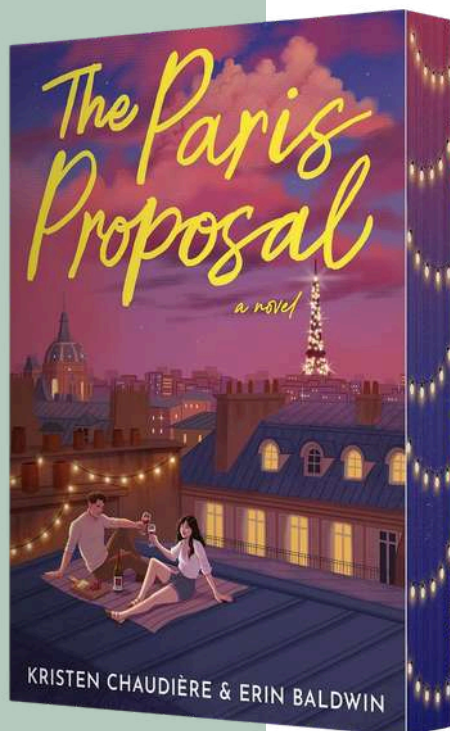

Kate Callahan is a brilliant feminist film theory professor whose life is dictated by her compulsive behaviors and grief in the wake of her mother's death. For three years she's been a patient of the devastatingly magnetic psychiatrist, Dr. Sterling. The more he listens, the more her infatuation with him grows. But at her sister's wedding tasting, Kate learns in disastrous fashion that Sterling is the cousin of the groom. The two are forced to part ways professionally, but boundaries blur as they begin to know each other not as doctor and patient but as man and woman.

When someone from her past appears, Kate faces a choice. Does she surrender to the intoxicating, dangerous intimacy of Sterling, or return to the uncomplicated safety of the good man she has never been able to forget?

Bold and fan-yourself sexy, *Break Through* is an addictively hot novel about a woman searching for a breakthrough and the psychiatrist who gives her much more than she came for.

Christina Carrigan holds a PhD in Cultural Studies from George Mason University, an MSc in Gender from The London School of Economics, and a BA in English from Fordham University. She is an Affiliate Professor at Emerson College. She lives in New York.

THE PARIS PROPOSAL

Jess O'Connor didn't come to Paris looking for romance. After a job layoff and a humiliating breakup, landing a position at the Louvre was supposed to be a fresh start. But before she's even unpacked, a bureaucratic nightmare threatens to send her back home to California. Unless Jess finds a way to secure a long-stay visa, she'll lose the dream job and the new life she's finally building. Her only solution? A wildly reckless, legally binding marriage of convenience.

Enter Theo Fizel, an infuriatingly charming French filmmaker with a Provençal winery he has no interest in running and hopelessly romantic parents who will only let him walk away for "true love."

Their arrangement should be simple: a fake engagement, a few family visits, and just enough romance to satisfy the French government. But as stolen weekends at the chateau give way to candlelit dinners and vineyard sunsets, pretending starts to feel dangerously close to the real thing. Set between Paris and Provence, *The Paris Proposal* is a sparkling romantic comedy about starting over and discovering that a meticulously planned future is never as beautiful as the one you never saw coming.

Kristen Gordon Chaudière was born in Germany and spent her childhood in Los Gatos, California. She held positions at the National Gallery in London, the J. Paul Getty Museum in Los Angeles, and the Musée du Louvre in Paris. Chaudière currently enjoys life on the wine estate in the Provençal village of Mormoiron, where she lives with her husband and two children. *The Paris Proposal* is her first novel.

Erin Baldwin is a Filipino American author who writes vivid, diverse stories that will leave you in happy tears. She is also a nurse and a Jersey City, New Jersey, native. She published her debut novel, a YA romance, in 2024, and it received a starred review from the School Library Journal. Her second YA novel was published with Viking in June 2026. She currently lives in Colorado. *The Paris Proposal* is her first novel for adults.

Debra Dean

I WAKE UP BARKING

What if you were given a second chance at the life you lost, but you returned as the one creature that sees everything and can say nothing?

Mesmerized by an odor that comes drifting over the backyard fence one morning, a small terrier tunnels out and then follows the scent for days until she arrives at an unfamiliar house. Exhausted and starving, she falls asleep under a hydrangea bush and awakens in the early morning. A man is in front of the house, bent over and retying his shoe. When he stands, she recognizes him: her husband from her previous life. Now, she must try to charm herself back into his heart and discover how she died and why she has returned.

I Wake Up Barking offers a heart-wrenching perspective on what it means to come home. Funny, poignant, and delightfully insightful, this is an original story about past lives, second chances, and what true companionship means.

Debra Dean is the bestselling author of *I Wake Up Barking* and four other critically acclaimed books that have been published in twenty-one languages. Her debut novel, *The Madonnas of Leningrad*, was a *New York Times* Editors' Choice, among other accolades. Debra and her husband live in Miami, where she teaches in the MFA Creative Writing program at Florida International University. They share their home with Ellie, a dog of indeterminate breeding who came in off the street fourteen years ago and rescued them.

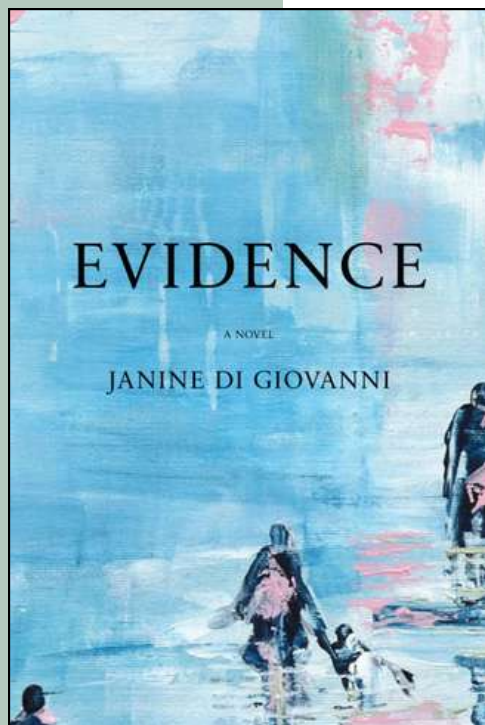

Praise for *The Madonnas of Leningrad*:

"An unforgettable story of love, survival and the power of imagination in the most tragic circumstances. Elegant and poetic."

EVIDENCE

A survivor of the Bosnian war who channeled her experiences into a career in international law and humanitarian work, Hana decides to return to Sarajevo on a deeply personal and gripping quest—the search for the son she gave up for adoption amidst the chaos and brutality of a disintegrating nation.

Haunted by fragmented memories, Hana pieces together testimony from fellow survivors, driven by the possibility that her child may still be alive. Can he be remembered? Can he be found? And what would it mean to love him? To be loved by him?

This profoundly affecting novel explores the enduring impact of war on individual lives, the complexities of motherhood and survival, and the arduous journey of confronting a past that refuses to be forgotten. It is a story of love and war, loss, and, ultimately, redemption.

Janine Di Giovanni has won four major journalistic awards, including the National Magazine Award, and is a contributing editor to *Vanity Fair*. She writes for the British, American, and French press, and has reported from Afghanistan, Iraq, Israel, Algeria, Gaza, the West Bank, Zimbabwe, Rwanda, Pakistan, East Timor, Ivory Coast, Bosnia, Kosovo, Liberia, Somalia, Nigeria, and Sierra Leone. She is the author of *Madness Visible*, *The Quick and the Dead*, *The Place at the End of the World*, and of the introduction to the international best seller *Zlata's Diary: A Child's Life in Sarajevo*. Two documentaries have been made about her life and work. In 2010, she was the president of the jury of the Prix Bayeux-Calvados for War Correspondents. She lives in Paris.

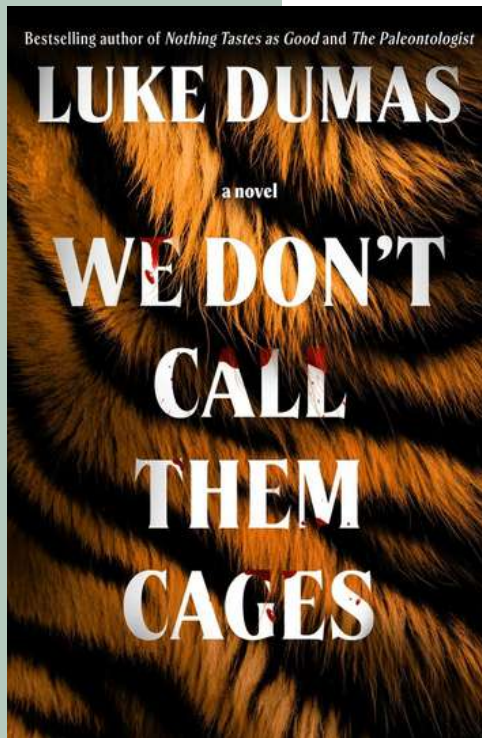

She holds an MFA in fiction from the Iowa Writers' Workshop at the University of Iowa. *Evidence* is her first novel.

Luke Dumas

WE DON'T CALL THEM CAGES

Something is wrong at the world-famous ZOO USA. Animals keep escaping. Others are found dead in their enclosures. It's a public relations nightmare for Ashlee Beauchamp, the communications executive responsible for convincing the public that nothing is amiss. Worse, she suspects the incidents are no accident—and fears someone on the inside is responsible.

Bright-eyed, young conservationist Megan Taylor is thrilled to be in town for North America's largest conference for zoo professionals. The conference has been eye-opening, but at least she has Zoo Day to look forward to: a full day to explore ZOO USA with her sister, Sierra, if only she can convince Sierra (and herself) that zoos aren't exploitative animal prisons.

Brandon McCabe is counting down the days too. Twisted by hate and hell-bent on revenge, the disgruntled zookeeper and his coworkers are planning something big to get back at the institution that has wronged them. Much like the animals he cares for, Brandon has grown tired of his cage—and when Zoo Day comes, everyone best run.

Told in real time over a single day, *We Don't Call Them Cages* is an action-packed, multi-POV thriller that will leave readers breathless and thinking twice before their next day at the zoo.

Luke Dumas is the *USA Today* bestselling author of four horror and thriller novels including *Nothing Tastes as Good* and *A History of Fear*. His bestselling novel *The Paleontologist* won an ITW Thriller Award, and his short fiction has appeared in *The Big Bad Book of Kaiju* and *Dread Coast: SoCal Horror Tales*. A nonprofit professional, he worked for five years in the zoological field for San Diego Zoo Wildlife Alliance and Brevard Zoo. He lives in San Diego, California, with his dogs.

Mazey Eddings

THE BARGAIN

From *USA Today* bestselling author Mazey Eddings comes her debut horror romance.

You shouldn't be here.

Addie Gray has always been haunted. A neurodiverse grad school dropout with a drinking problem and a tragic family history, Addie is more comfortable researching the strange, dark folklore her grandmother left behind than she is in the real world.

But the ghosts of the past won't be ignored. When Addie accepts a job as a nanny for the reclusive, wealthy Crag family in the Scottish Highlands, she plunges into an impossible world of overwhelming excess, shocking violence, and terrifying, unexplainable phenomena...one that bears striking similarity to the legends her mother and grandmother used to tell.

Desperate to find the truth, Addie finds herself at the center of a forbidden love triangle even as her grip on reality begins to slip –between James, the devilishly charming father of her young ward, and Nathaniel, the mysterious groundskeeper who feels all too familiar.

But not all stories have happy endings. And as Addie uncovers the bonechilling truth behind the Crag family's fortune, she begins to wonder if hers is a romance...or a horror story.

Mazey Eddings is a bestselling author, dentist, and (most importantly) stage mom to her cats, Yaya and Zadie. Her most recent book, *Well, Actually*, was an instant *USA Today* bestseller. She can most often be found reading romance or horror novels under her weighted blanket and asking her husband to bring her snacks. She's made it her personal mission in life to destigmatize mental health issues and write love stories for every brain. With roots in Ohio and Philadelphia, she now calls North Carolina home.

Praise for Mazey Eddings:

"Mazey Eddings's writing is authentic, emotional, and intensely romantic! To me, it's like a Taylor Swift song in book form."

LET ME GET BACK TO YOU

On the sun-washed streets of the Hamptons, one food blogger and her fake secretary tangle with the very real (and increasingly attractive) assistant standing between her and her dream gig. The Barefoot Contessa meets *You've Got Mail* in this sparkling romance debut, perfect for fans of Emily Henry.

Maeve Callahan is done being underestimated. As the creator of "Only One Bread," her wildly successful food blog, she's got big dreams, sharp wit, and zero patience for being called "adorable" by condescending brand reps. When a sexist restaurateur pushes her too far, Maeve does what any ambitious woman with an email and a grudge would do: she creates a fake assistant.

Enter Alex Johnson, her own personal inbox charmer. With "Alex" handling her emails, Maeve's business is flourishing. When a career-changing opportunity pops up in the Hamptons, complete with a celebrity chef Maeve has been dying to work with, she's sure this could be her big break. The catch? Ryan, the chef's very real assistant, holds the keys to the kitchen...and he's not exactly Maeve's biggest fan.

As Maeve tries to win Ryan over, she dives fully into her double life as "Alex." But when a surprise encounter puts them face-to-face, email banter turns into very real feelings, and Maeve will have to figure out a way to reveal who she is without losing her career, her credibility, or the guy who might just be her happily ever after.

Liana Haley is an author and full-time librarian living in Massachusetts. She studied English and Creative Writing at NYU before getting her MFA in Writing at the New School, and is now working toward a degree in Library and Information Sciences. When she isn't at the library, you can find her creating new recipes in the kitchen or listening to an audiobook while she walks her goofball of a rescue pup. *Let Me Get Back to You* is her debut romance novel.

The Estate of Barry Hannah

Admired by John Grisham (“fearless”), Philip Roth (“the real thing”), and William Styron (“one of the most consistently exciting writers of the post-Faulkner generation”), Barry Hannah is one of the funniest, warmest, wildest writers of 20th-century American fiction whose work is being reintroduced to readers in a coordinated celebration of a rediscovered master.

Penguin Classics will be publishing a new edition of *Captain Maximus*, a short story collection, in November 2026 (World English rights to Elda Rotor).

Grove reissued the short story collection *Airships* in September 2026 and will be reissuing the novel *Ray* in Fall 2027 (North American rights with Amy Hundley).

And Open Road will be reissuing five formerly out-of-print works of fiction (*Nightwatchmen*, *The Tennis Handsome*, *Hey Jack!*, *Never Die*, and *Boomerang*) as well as a never-before-published collection of Barry’s non-fiction writing in early 2027 (World English rights to Chris Gillespie).

A precursor to and influence on the big-hearted comic writing of Kevin Wilson and Sam Lipsyte, Barry’s oeuvre captured the absurdity of a broken nation grappling with political, social, and cultural unrest, all while celebrating the vitality and loveliness of its misfit citizens.

Barry Hannah (1942-2010) was the author of twelve books, and the recipient of the Robert Penn Warren Achievement Award, the PEN/Malamud Award, a Guggenheim Fellowship, as well as an Academy Award in Literature from the American Academy of Arts & Letters.

Praise for *Ray*:

“This novel hangs in the memory like a fishhook. It will haunt you long after you have finally put it down. Barry Hannah is a talent to reckon with.”

JANE BONE

It was a wild and fascinating trial, a rare “no body” murder case. The stakes hinged on a single bone, and no one knew the victim’s name or could find another speck of her. The child in the witness chair led the jury through dark and rushing water to a conviction.

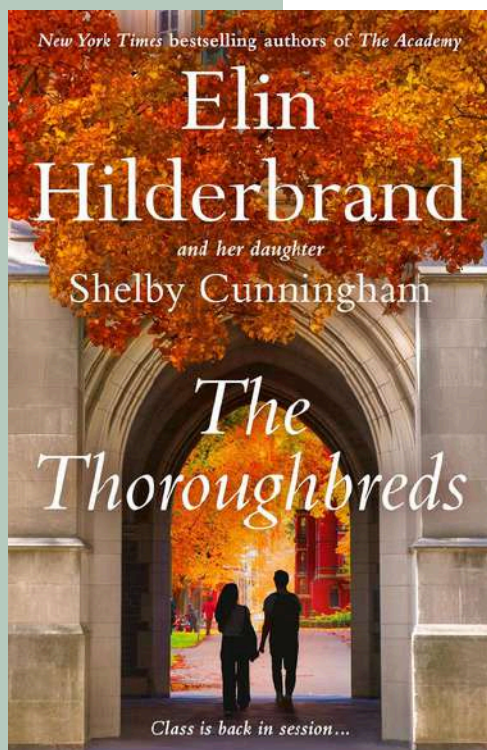

Two decades later, Ana is an emergency room doctor focused on the traumas in front of her. But she’s still inextricably linked to the unidentified bone she called Jane.

No one knows that better than the man who sits in prison, who writes Ana every year. He’s holding on to something she still desperately wants: A name. A location. As their secrets pull them together again, and old ghosts come to life, it becomes clear someone else out there wants to make sure Jane remains buried – and maybe bury Ana, too.

Running out of time, Ana is torn between seeking comfort from a childhood friend-turned-cop who knows the girl she was, and a trauma surgeon who knows who she’s become. In the end, only Ana can save herself.

Led by a protagonist full of poetic heart, *Jane Bone* is a psychological thriller that reads like *The Pitt* meets *Bones*.

Julia Heaberlin is the internationally bestselling author of six thrillers, including *Night Will Find You*, *We Are All the Same in the Dark*, *Paper Ghosts*, and *Black-Eyed Susans*. Her books have sold in more than twenty countries. Before writing novels, Heaberlin was a journalist for the *Fort Worth Star-Telegram*, *The Dallas Morning News*, and *The Detroit News*. She currently lives in the Dallas–Fort Worth area with her family, where she’s working on her next psychological thriller.

"The campus series scratches this author's proprietary itch as effectively as the island set did. We'll follow her anywhere."

THE FIX IS IN

Welcome to “The Fix is In,” HT-TV’s top-rated home makeover show, hosted by America’s favorite couple, Beckett and Lacy Quinn. He’s got the toolbelt and the charming (but never threatening!) charisma; she’s got the eye for design and the perfectly-curated (but still relatable!) wardrobe. Together, they’ve built a multimillion-dollar decor empire on reclaimed farmhouse wood, tasteful accent walls, and scripted banter.

But behind closed (recycled beachwood) doors, everyone has something to hide. The Quinns can barely stand to be in the same room together. Their current renovation is a disaster. Lacy’s long-suffering assistant, Hannah, just got passed over for the new intern—and will do anything to claw her way back into the couple’s good graces. Aiden, the cameraman, just stumbled on information that could make him rich—if he plays his cards right.

And when a mysterious death rocks the set, it turns out everyone has a motive.

Sharp, juicy, and delightfully unhinged, *The Fix is In* is a peek behind the shiplap—where the smiles are rehearsed, the lighting’s perfect, and the secrets are about to blow everything apart.

Stephanie Huszar is a former magazine editor and a copywriter for top global beauty brands. Frank Huyler

THE RED DRESS

The price of service to wealth and power is exposed when a father's limits are tested on an ultrarich family's remote island.

Nick, in the wake of a failed marriage, settles for the relative ease of a well-paid job captaining a luxury yacht, but it leaves little time for his seven-year-old daughter Natalie. In a stroke of good fortune, he is offered a mysterious yet lucrative opportunity that allows Natalie to tag along, and they are soon flying across the globe in a private jet. The workload proves light and they are encouraged to enjoy the sun, surf, and island amenities—but they must wear customized digital glasses that shield the identities of his employers.

When Natalie is invited to play with their children, Nick slowly discovers that everything is not as it appears, and what began as a grand adventure warps into an unsettling mirage.

An exploration of extreme privilege and the power of emerging technology, *The Red Dress* is also an eloquent story about our search for connection that raises essential questions about what we owe to ourselves and those we love.

Frank Huyler is the author of three novels and two books about his work as an emergency physician, including *The Blood of Strangers*, considered a classic of medical writing, and *White Hot Light*, a finalist for the Jan Michalski Prize for Literature. His books have been widely translated, and his poems, essays, and opinion pieces have appeared in many publications, including *The Atlantic*, *The Guardian*, *Vice*, and *The Washington Post*. Huyler grew up in Iran, Brazil, Japan, and the United Kingdom and practices medicine in Albuquerque, New Mexico.

"The Red Dress is one of the very best novels I've read in recent years. It's all here—the complications of love, work, family, and age brought to bear in the struggle of a good man trying to make a decent life for himself and his young daughter... Frank Huyler is a novelist of the first rank, and The Red Dress had me firmly in its grip from start to finish."

Miss C may be a long-lost heiress. She may have stumbled into a nest of family secrets, murder attempts, and theatrical eccentrics. She definitely didn't mean to fall for a devastatingly handsome Scottish surgeon. *New York Times* and *USA Today* bestselling author Eloisa James returns with a sparkling historical romance filled with wit, mystery, and heart.

Araminta "Minty" Justice has spent years building a successful career solving other people's problems. Raised in an orphanage and determined to rely on no one but herself, she has become one of England's most sought-after household fixers.

Then she discovers a newspaper notice that changes everything.

A Scottish noblewoman has spent years searching for a missing great-niece named Araminta Celdon-Justice—the very name Minty was given at birth.

Traveling to Edinburgh in search of answers, Minty finds herself at the center of a family mystery involving a lost inheritance, a colorful theatrical dynasty, and a fortune that has inspired generations of greed. Standing in her way is Lord Rory Stratton, a brilliant surgeon determined to protect his beloved aunt from yet another woman claiming to be the family's long-lost heir.

THE ART OF BECOMING A GOD

The Art of Becoming a God is a spiritual successor to *The Wizard of Oz*—except, in this version, our beloved protagonist isn't looking for answers—she's out for vengeance.

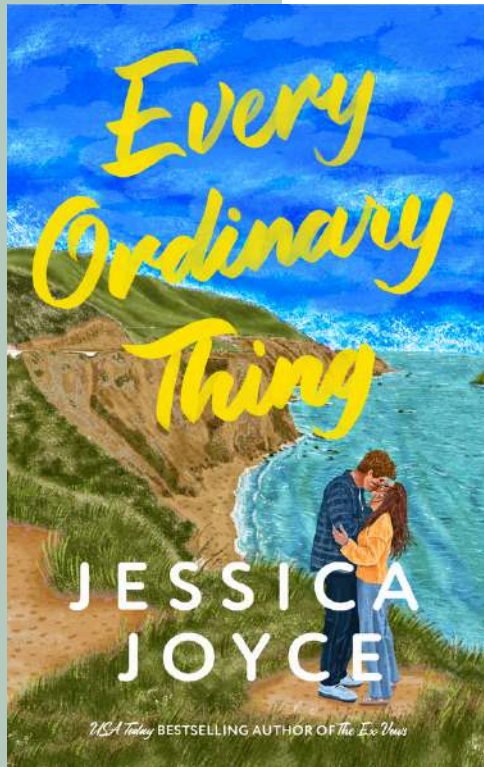

Raised on a small farm by her loving parents in the middle of nowhere, Lynnex has no experience with the wider world. When her whole life dissolves into hay before her eyes—literally—she's left homeless, destitute, and pissed off. She reasons that it must be the gods who have ruined her life, as they are the only beings with both the power and the haughtiness to do something like that to a nobody like her. Quite logically, Lynnex resolves to kill them. Conveniently, the gods are hosting a worldwide competition, offering the winner the chance to join their ranks! And they totally don't have ulterior motives that will remain hidden until the story's climax. Totally.

It is here that Lynnex meets Raiden, a man possessing in equal weight both cosmic good luck and bad luck, and his two tagalongs: Peter, a religious outcast who worries the competition might be blasphemous; and Marylin, a gardening enthusiast dedicated to helping all creatures by, ahem, ending their suffering.

Featuring an ensemble cast of charming idiots on an important quest reminiscent of *Guardians of the Galaxy*, with notes of T. Kingfisher's irreverent humor balanced with shocking brutality, James's *The Art of Becoming a God* will leave you wiping away tears of laughter, and maybe a few regular tears, too.

Nic James works as a freelance writer and content marketer. Her writing often blends dark humor with fantasy settings and eccentric characters. Her story, "Red is the Color of Salvation," published in *Shadow Lab Volume II* (September 2025), and another story, "The End is Red," published with *The Horror Tree* in February 2026. She currently lives in Maine with her two Scottish terriers and growing collection of mannequins.

EVERY ORDINARY THING

Longtime friends become temporary roommates (with steamy benefits) while they collaborate on a project that could change everything, in the newest romance from the *USA Today* bestselling author of *The Ex Vows*.

Summer Beckett is as temporary as the season she's named after. While she's accepted that she's never the chosen one when it comes to her personal life, she's determined to get there in her video production career. When a family friend tells her about a high-profile freelance gig that promises to make her more in-demand, she leaps at the opportunity.

That is, until she finds out the client is Dylan Parker, Major League Baseball's most charming pitcher, her brother's best friend...and the man she nearly kissed two years ago, until she realized nothing permanent would come from it. She's been avoiding him ever since, but now he's insisting she's the only person he trusts with this project.

Taking the job means being in unbearable proximity to Dylan for a month, nearly the exact circumstances that almost cost Summer her heart last time. But it also means putting her work in front of a massive audience—just what she needs to level up professionally. It's a once-in-a-lifetime opportunity, leaving her no choice but to sign on.

Summer knows her time with Dylan is short-lived, as are the benefits they add to their friendship when their connection inevitably heats up. But Dylan keeps pulling her closer, and as the end of the month approaches, she has to decide if she's brave enough to believe they can have something extraordinary...and lasting.

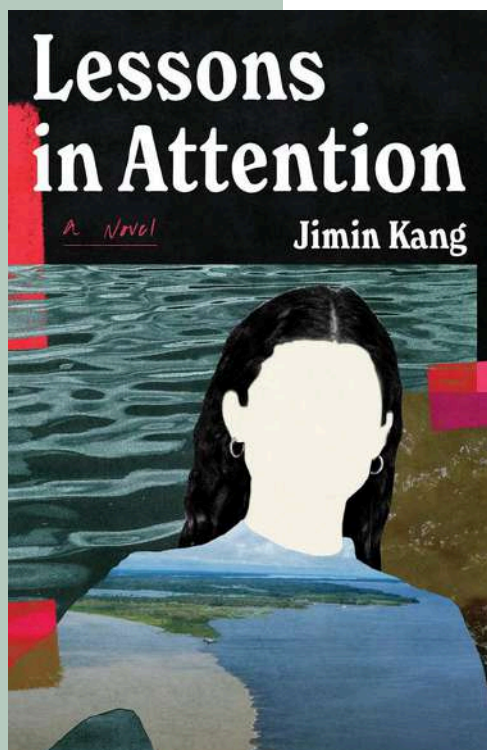

Jessica Joyce is the *USA Today* bestselling author of relatable, character-driven contemporary romance stories that feature as much yearning as she can stuff into them. When she's not working on a new book, you can find her making a playlist, watching *Sleepless in Seattle* and the 2005 version of *Pride & Prejudice* on repeat, or curled up with a book she didn't have to write.

"Every Ordinary Thing is another stunning, sparkling romance from Jessica Joyce. With every new novel, she proves why she's a force to be reckoned with. Delicate, tender, and deliciously sexy, I loved every single moment of Summer and Dylan. I wished this book lasted forever."

Michael Lavigne

A SONG AT THE EDGE OF THE WORLD

In this freewheeling romp by the author of the post-Holocaust novel *Not Me*, the final pilgrimage of the great Andalusian Hebrew poet Yehuda Halevi frames a tale of Jews getting into trouble across centuries and continents, still looking for home.

Beginning in the 1830s, when an itinerant Viennese book dealer doesn't know the value of the moldy old Hebrew typescript he has to sell, this novel plays fictional cat and mouse with the historical figure of Halevi, who was shaped by the rich Andalusian culture of 12th-century Muslim Spain and famously wrote "My heart is in the East / And I am at the edge of the West." Jacob, a salt merchant's son in Zaragoza, leaves home to follow in the footsteps of the great poet, whose life-ending journey to Jerusalem remains shrouded in mystery. Jacob's quest interleaves chapters in which each generation—from a well-heeled Jewish son of 14th-century Vacluse to a 20th-century fish monger in Newark—must ask: where do we Jews truly belong?

Everyone on the merry-go-round of diasporic lives carries a piece of Halevi's poetry on their bumpy path to enlightenment, and only at the end of this era-spanning human comedy will we learn why their tale is being told, and by whom.

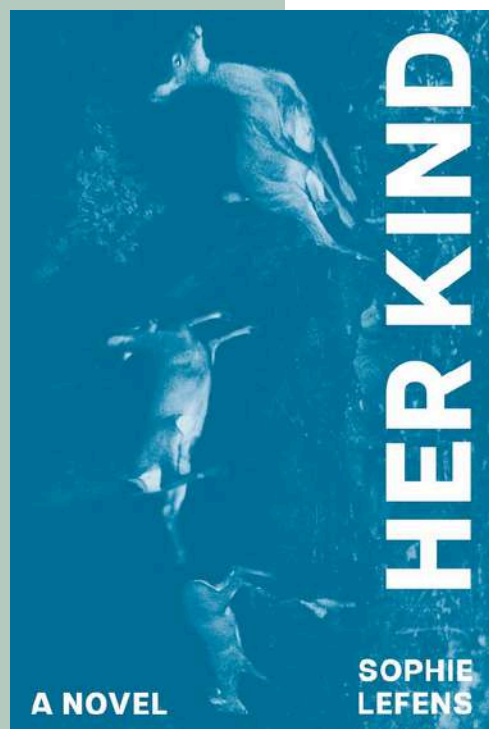

Michael Lavigne is the author of *The Heart of Henry Quantum*, *The Wanting*, and *Not Me*, which was the recipient of the first Sami Rohr Choice Award, as well as an ALA Sophie Brodie Honor Book, and a Reader's Circle Book. Lavigne, whose works have been translated into many languages, lives in San Francisco.

Praise for *Not Me*:

"Family secrets, awful historical truths, the nature of good and evil, and the bond between a son and his father are woven seamlessly into a page-turning plot. Michael Lavigne writes with generosity of heart and he leaves the reader with an abundance of hope. Not Me is a powerful debut novel."

HER KIND

An exquisite, mist-laced debut novel about friendship and motherhood, fear and love, in which a woman plagued by visions of being pulled away from Earth invites her three closest friends for a weekend, to see who might care for her son if she dies.

When Ada is left to raise her young son alone, she retreats to her otherworldly aunt Leigh's crumbling lakeside home, seeking solace for herself and stability for Lenny. Yet, among the wildflowers and the hum of the water, Ada can't escape the nagging feeling she might not have much time left. Sensing death grow nearer, she invites her three closest friends—a brash, unemployed seamstress; a gentle, disillusioned violinist; and a serious painter—to the house over a long weekend to determine which of them might take on the impossible: raising Lenny if she no longer can.

Amidst strange animal activity and Leigh's mysterious late-night visits to her dead husband's grave, the women find comfort and purpose in one another's company as their stay extends into winter. Meanwhile, Leigh's memory is fading fast, and Ada must confront past and present truths she's spent a lifetime avoiding.

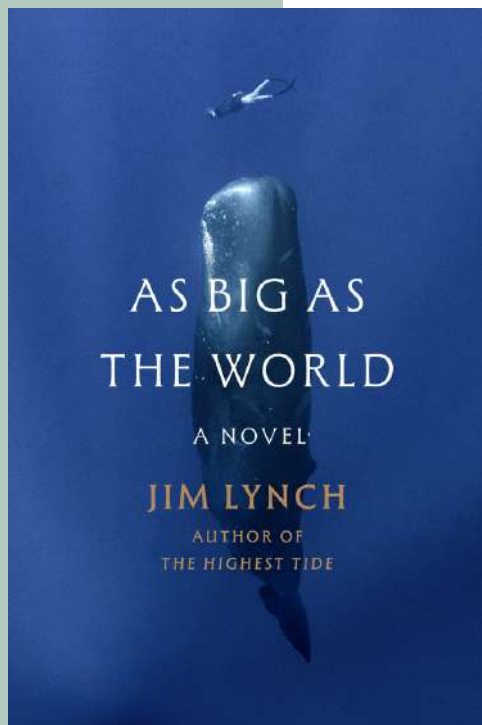

When death does finally come to the group, it sets off a chain of events that exposes long-hidden secrets and the true mystical nature of Leigh and her ancestral home. Written in attentive, insightful prose, *Her Kind* is an ode to the power of love to return us to ourselves.

AS BIG AS THE WORLD

In this new literary novel from the author of *The Highest Tide*, three whale scientists come together to decipher messages from our cetacean relatives to bring awareness to the threats of whale survival and in doing so find hope for themselves and the whales they devote their lives to studying.

Set in New Zealand, France and the United States, this story drops the reader into three oceans, as three scientists work themselves to the breaking point to try to understand these mysterious giants. Miles O'Malley is a blue whale expert with a lifelong knack for marine life discoveries, who unyieldingly throws himself into his work, trying to forget the memory of his late girlfriend. Simone Bisset swims with a sperm whale family to better understand their culture, while trying to navigate the demands of her own family. Trista Mendenhall is an audio biologist who studies humpback songs and eavesdrops on sperm whale conversations, all while dealing with her disapproving parents and skeptical therapist.

Studying whales in the wild proves to be dangerous, exhilarating and heartbreaking, while Miles, Simone and Trista's stories intertwine and build to a climax that is as much about humanity as it is about whales.

Jim's research for *As Big as the World* included interviews with premier whale scientists and technologists, as well as research expeditions at sea.

Jim Lynch lives with his wife in Vashon, Washington. His previous novels *The Highest Tide*, *Border Songs*, and *Truth Like the Sun* have been adapted for the stage in Seattle. And his most recent, *Before the Wind*, was a Le Monde bestseller in France. His prizes include the Indies Choice Honor Book Award, the Washington State Book Award for Fiction, and the Pacific Northwest Booksellers Award.

SUCH GOOD ACTORS

From the bestselling author of *The Quiet Tenant* comes a captivating new novel of suspense and deception: When a tragic accident interrupts a buzzy film production in Paris, the movie's stars—a golden couple who made their names in the cutthroat ballet world—fall under suspicion, not just with the police but with each other.

The son of a legendary dancer and Soviet defector, Nolan Adamovich once ranked among the most promising ballet stars of his generation. After a catastrophic injury, Nolan was forced to remake himself as an actor. Now he's accepted his most ambitious role yet: playing his own father, Dmytro, in a high-profile film about his dramatic, fraught escape to the West.

At Nolan's side is Oona, his beautiful fiancée, who has provided his tempestuous life with stability. Since they arrived in Paris for filming, the delicate balance in their relationship has subtly shifted. Nolan is pressing for commitment, but to Oona, it's beginning to feel like they have very different ideas about their future. And Victor Costello, Nolan's charismatic co-star, seems to want something else entirely from Oona. Before tensions can come to a head, an accident on set brings the filming to a halt.

By the time investigator Laura Étrillard begins asking questions—like how a real knife found its way into a staged scene—the production is rocked by a second tragedy, and Nolan and Oona are on a plane back to New York. In Laura's eyes, neither is above suspicion. And in private, each begins to wonder what the other might be hiding.

Such Good Actors is a taut, emotionally charged novel of shifting narratives, buried pasts, and volatile romance that blurs the line between performance and truth.

Clémence Michallon is the author of *The Quiet Tenant*, a *USA Today* and international bestseller and nominee for the Dashiell Hammett Prize, and *Our Last Resort*, which was a national bestseller. From the creative minds of Jack Schlesinger and Philip Docolo writing as J.P. Phlack, *Mole Hunt* is an exciting new entry into the elimination puzzle book genre, with a spy-thriller twist. Find the double agents and uncover their motives. You'll scan dossiers, cross-reference itineraries to determine dead drop sites, and scour call transcripts for secret codes, uncovering more of the conspiracy with each new puzzle. The only way to decipher the clues for the next puzzle is by completing the previous one, but don't worry—if you make a mistake, Agent X has hidden cyphers to help get you back on track.

You're not just finding the moles and saving the Agency—you're uncovering the mystery of what happened all those years ago, that fateful day that led to your leaving the life of a spy behind you. GALLO

From the award-winning author of *Last Acts* comes an elegant, hilarious redemption story in which our everyman hero, the aging professional bodybuilder Tom Gallo (the eleventh best bodybuilder in the world, he would clarify), plunges down a destructive path for a last shot at perfection.

Veteran professional bodybuilder Tom Gallo still believes he can win it all. But his family disagrees. Yes: his wife, Lisa, and his sister, Debbie, have seen enough of his "art," and everyone is eager for the oft-injured, forty-something hustler to retire from the stage for good. But when a younger pro dies, Gallo gets the call to take his spot in the contest that will finally change his life—just not in the way he was hoping.

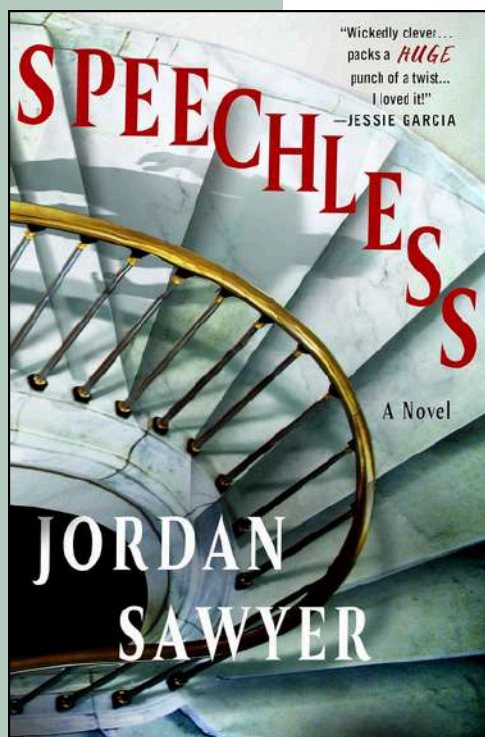

Gallo is an ode to the great literary portraits, in the tradition of *Stoner* and *The Death of Ivan Illych*. Set in the suburban desert of Phoenix, Arizona, this distinctly American novel—both heartbreaking and absurd—is about ambition, addiction, faith, family, and mortality, and it marks the latest achievement by an extraordinary new talent.

Alexander Sammartino was born in Rhode Island and grew up in Arizona. His debut novel, *Last Acts*, won the New York Public Library's Young Lions Fiction Award, was chosen as a *New York Times* Editors' Choice and National Book Foundation 5 Under 35 Honoree, and was shortlisted for the Bollinger Everyman Wodehouse Prize for Comic Fiction. He received his MFA from Syracuse University, and he lives in Brooklyn with his wife and cat. He is the 2026–2027 Mary Ellen von der Heyden Fellow at the New York Public Library's Cullman Center.

"Gallo is brutal, tender, hilarious, full of poetic fire, and poses philosophical questions in the way only great fiction can. Alexander Sammartino might be the eleventh best writer in America already, and he's only getting started."

SPEECHLESS

In this voicy, inventive thriller, a coma patient who learns to communicate again begins sharing increasingly chilling messages about the accident that caused his injuries—and who may have been responsible.

As a communication facilitator, Leah Andrews has trained to help brain-damaged individuals who can no longer communicate for themselves. She assists their hands to type out words on a computer, bringing the messages trapped inside their heads to light. When she's hired by a desperate wife whose husband has been in a vegetative state for over a year after falling down a marble staircase in their home, Leah is determined to reach the man inside. She's new to this therapy practice, having taken it on as her new career after a bad breakup left her wanting a fresh start. Now she's taken on Eliot's case, hoping to help him heal and bring him back to his wife and two daughters.

For weeks, with Leah's coaching, Eliot makes small steps of progress until finally they have a real breakthrough and he presents his first direct message: HELP ME. And the stronger he gets, the more chilling each subsequent message becomes, and Leah feels compelled to look more closely at what happened to Eliot, and at this family who seems from the outside to be close and caring. But the more she learns, the more certain she becomes that Eliot's accident might not have been so accidental at all....

With a totally compelling main character in Leah and an irresistible high-concept premise, *Speechless* is a twisty, shocking thrill ride from start to finish and the introduction of a bold new voice in psychological suspense.

Jordan Sawyer is a pseudonym for a *New York Times* bestselling author who's published numerous thrillers, some of which have been adapted into films. Jordan lives between New York City and Sag Harbor.

"Speechless will leave you just that. It's a wickedly clever tale that packs a huge punch of a twist with a unique and endearing writing style. I loved it!"

MIGHTY

A romping and rearing all-American epic: one failing dairyman's search for true love, self-worth, and answers surrounding the murder of his wayward father—éminence grise and namesake of Mighty, Wyoming.

Bartholomew "BeeBee" Byrd has struck a deal with the devil. That devil happens to be his father, Mighty Turner, a former itinerant preacher who's left a trail of bastard children in his wake. For five more years, Mighty will continue to fund BeeBee's struggling dairy farm, as long as he supplies a prime steer for each of Mighty's infamous yearly luaus.

When, at the fifth and final luau, Mighty turns up dead, BeeBee begins frantically writing to the CIA, addressing his plaintive letters to "Faceless Shadow." But he's not after the truth behind his father's murder. What BeeBee really wants is any and all information regarding the whereabouts of "Yugoslavian" exchange student, Nikki Dizdarevic, who "coincidentally" disappeared the night of the murder. She may or may not have committed the crime, but she's most certainly the love of his life.

Written in BeeBee's cracked, courtly voice, the letters pile up into a bizarre and beguiling dossier, a tangle of personal history, family lore, and state secrets. It's all too strange—and too sincere—for the CIA to ignore: bank heists and bomb shelters, wolf attacks and astral projections, major conspiracies and minor poets, a vanished hippie commune and a high-security-clearance grandmother with a background in brainwashing.

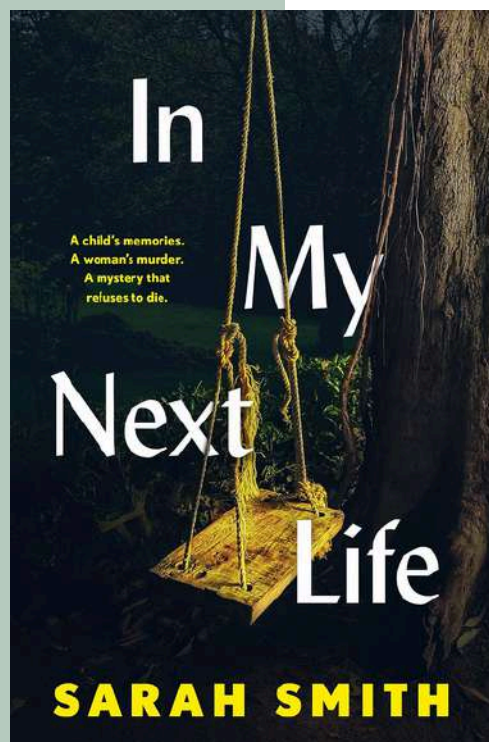

Mighty is a novel of a thousand joys—a tug-of-war between love and doom—and one only Bud Smith could write.

Bud Smith is the author of *Teenager*. A regular contributor to *The Paris Review*, he works heavy construction in New Jersey, where he lives with his wife, Rae Buleri, illustrator of *Teenager* and *Mighty*.

"A thrilling and funny tale that defies pigeonholing. I haven't loved a book with this many drawings since Vonnegut. What else can I say—no matter what kind of book you think you like, you like Mighty."

IN MY NEXT LIFE

A child's memories. A woman's murder. A mystery that refuses to die.

Leah's life is unravelling.

Recently fired from her job in the art world, estranged from her ex-husband (for sleeping with her best friend), and facing a custody battle, she's struggling to prove she's stable. Then there's four-year-old Chloe, who has never called Leah 'mum'. Instead, Chloe speaks with haunting detail of a life she has never lived: a house with a yellow door, a backyard swing, and a horse named Patches. When a news report revisits the disappearance of a mother and child from the coastal town of Denmark, Western Australia five years ago, Leah is chilled to the core. Chloe's 'memories' mirror the cold case with eerie precision.

Driven to debunk the impossible, Leah takes Chloe to the remote shores, only to find a community suspended in grief and suspicion. As she draws closer to the missing woman's husband—a man still living under a cloud of local blame—Leah's own grip on reality is called into question. But as Chloe begins to recognise the hidden corners of a house she has never entered, the past presses dangerously into the present. Beneath the town's picturesque surface lie betrayals that someone is still desperate to protect, and the closer Leah gets to the truth, the real question isn't whether Chloe lived another life, it's what or who really ended it.

Leah ignores the dangers to expose the culprit, but will it be too late to reunite with her daughter in this life?

SOMETHING OF A CALLING

Detective Andy Cooper is about to retire. She isn't sure what's next...perhaps traveling in the RV she has yet to buy, with a dog she doesn't currently own. Perhaps gardening near the ever-shrinking patch of woods behind her house—once the cable company's backhoe is removed.

She'll need to do something, if only to distract herself from how empty her life has become. After the murder of her young daughter by a drunk driver. After the divorce. After the realization that all she has is her job and that she's about to lose that, too.

Everything changes when bodies begin to turn up. Murdered, but how? Not by knife, gun, or any obvious weapon. Instead: teethmarks. Chunks missing. Like they'd been chewed on. And not by humans.

As she's struggling to solve her final case, an unexpected new friendship seems like just what Andy needs. Where she is detached from life, Fiona embraces it. Where she is a homebody, Fiona roams. Yet the women are drawn together by a shared love of nature and wildlife. Until Andy learns the dark truth behind Fiona's smile. A secret that threatens to unravel the world as she knows it.

Zoje Stage is both an international and a *USA Today* bestselling author whose books have been named Best of the Year by *Library Journal*, *Forbes*, *PopSugar*, *Book Riot*, *Bloody Disgusting*, and more. THE GOLDEN HOUR

From the bestselling author of *The Listeners* and *The Raven Cycle* comes a spellbinding, genre-bending epic of ambition, friendship, and second chances.

New York City, 1965. On the night of the great blackout, medical student Michael "Roof" Bruzzaniti falls twelve stories from a hotel rooftop, and lives. Lying spreadeagle and barely conscious on the dirty concrete sidewalk, a mysterious woman in a green cocktail dress approaches, hands him a golden thread, and tells him to try again. And again. And again.

What follows is the secret, dazzling history of Roof's life: his combustible friendship with Oscar Bezak, an irrepressible genius fighting the era's quotas and prejudice to become the best surgeon of his generation; his decades-long, unresolved love for Catherine Bernhard, whose own ambitions collide with the constraints placed on women in medicine; and his bitter, escalating rivalry with the privileged, wounded John Muir. Bound together by obligations of class, faith, and desire, all four race toward the same impossible prize—a residency at the top of American surgery—while a war abroad and a city in decay threaten to consume them all.

Moving fluidly between 1965 and the second, more devastating blackout of 1977, *The Golden Hour* is a novel about time travel that's also a love story, a friendship story, and a story about vocation that asks what it costs to keep getting a yet another chance, and whether some mistakes are meant to be lived with rather than undone.

Sweeping, wickedly funny, and emotionally devastating, *The Golden Hour* is a literary triumph.

Maggie Stiefvater is the *New York Times* bestselling author of the *Shiver* trilogy, *The Raven Cycle*, and *The Scorpio Races*, among dozens of other YA fantasy novels. Her first novel for adults, *The Listeners*, was a *USA Today* bestseller. Her books have sold over five million copies around the world. She lives in the Shenandoah Valley of Virginia with her husband and their two children.

Praise for *The Listeners*:

"Around every corner of this richly imagined world, we discover some new wonder. . . . Stiefvater's prose is as pungent as the sweetwater, with a snap that suggests the whimsy of a veteran storyteller."

WATCH HER WHERE SHE GOES

An addictive new thriller inspired by a real case of fact crime, *Watch Her Where She Goes* follows Veronica Lawson, a 38 year-old woman grieving the loss of a young child a few years earlier. The twist: she's convinced the daughter she lost is in fact still alive.

Set across two timelines, *Watch Her Where She Goes* moves from the present-day, as Vero searches for her daughter; to four years earlier, detailing the events leading up to a tragic house fire that changed Vero's life forever. The story is told primarily from Vero's perspective, allowing the reader to experience her fragmented memories and growing paranoia as she pieces together a disturbing truth. The narrative structure intentionally blurs the line between reality and hallucination, leaving the reader to question Vero's sanity at every turn. And it's written with the author's acid wit and deep psychological acumen—a thrilling combination.

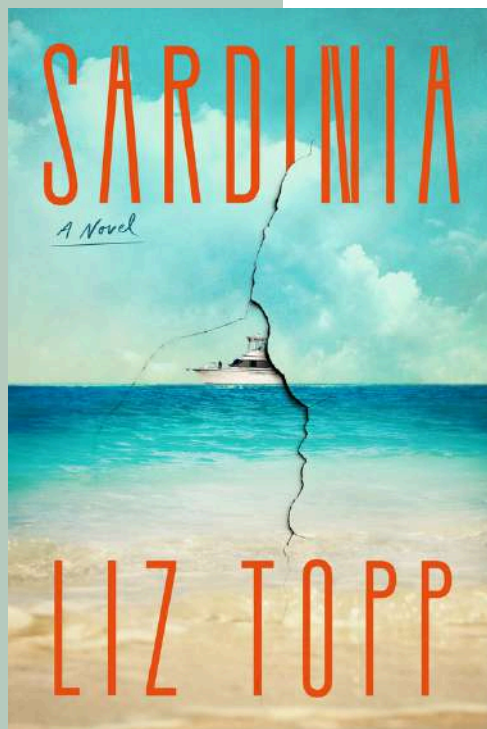

Corinne Sullivan is the senior news editor at *Cosmopolitan*, where she covers celebrity and entertainment news. She graduated from Boston College in 2014 with a degree in English and creative writing. She went on to receive her MFA in fiction from Sarah Lawrence College. Her stories have appeared in literary magazines such as *Night Train*, *Knee-Jerk*, and *Pithead Chapel*, among other publications. She is the author of two novels: *Indecent* (Wednesday Books, 2018), which was included on several "best of" lists, and *Yours Always* (Thomas & Mercer, 2026). Corinne lives with her family in Jersey City.

Praise for *Yours Always*:

"Yours Always is a twisty, turbulent ride filled with psychological tension and an unpredictable cast of characters that kept me on my toes until the novel's bombshell ending. Don't miss Corinne Sullivan's first-ever thriller—I pray it's not her last!"

America in the near future is the same, but worse. There's no national or state government anymore. Only local authorities endure, and they barely function. The real glue holding what's left of society together is death. In this America, everyone who dies is celebrated in a lengthy, undeviating funeral rite led by the oldest member of their community.

Maxine is one such elder—99 years old and living in Lakeport, California. Dogged by chronic pain and burdened by grief, one day her discontent pushes her to change the words of the funeral rite and, contrary to her expectations, the entire community follows her lead. Maxine's rebellion begins to snowball, unleashing a spate of violence with consequences for the whole town, and eventually the country. Initially horrified, she's soon intoxicated by her new powers, and finds herself leading funeral rites that resemble political rallies or orgies of violence more than solemn ceremonies. When she launches a pilgrimage across the California desert, it triggers a confrontation with the remaining institutional forces of the country—a confrontation she may not survive.

A furiously funny satire on contemporary America, as well as a moving meditation on grief and how it binds us together, this utterly propulsive novel marks an exciting new departure from the author of the international bestseller *Legend of a Suicide*.

David Vann is the author of a dozen works of fiction and non-fiction published in over 23 languages. His debut novel *Legend of a Suicide* won eleven literary awards, including the Prix Medicis Étranger and Premi Llibreter. He has written for *The Atlantic Monthly*, *Esquire*, *The Guardian*, *The Financial Times*, *The New Statesman*, and *McSweeney's*, among other periodicals. He is the recipient of Guggenheim and National Endowment for the Arts fellowships. Born in Alaska, he now divides his time between New Zealand, the Philippines and France.

WITCH & HUNTER

Willow Latour is a criminal. In the city of Grayhaven, where magic is outlawed, being a witch means living under the constant threat of imprisonment—or worse. While Willow doesn't practice her magic, she's under parole for a breach of the city's rules. Given her status, many legitimate forms of work are closed off to her and she's running out of options.

Velis is a monster. He's a Night Marauder, one of the preternaturally deadly vampires who use blood-tracking magic to hunt down enemies of the state—including the ever-present scourge of witches—and the most lethal predator Grayhaven's ever seen. But these monstrous powers are a curse, punishment for a crime committed during the mortal life he can no longer remember. A Night Marauder's conscription is forever. But after 100 long years of doing the city's dirty work, all Velis truly wants is to be free.

The witches of Grayhaven won't stay obedient forever, and when a desperate Willow finds herself at the center of an explosive plot against the government, she becomes the city's public enemy #1 overnight. If Velis can find her and bring her to justice, he'll finally earn his freedom. But Willow's a survivor, and she's not going down without a fight.

As Willow and Velis' cat and mouse chase heats up, so does the chemistry between them. LOVE NOTES

Sylvia Roth has tirelessly worked to establish herself as an exceptional Broadway pit musician...and bad luck charm, since every show she joins closes almost immediately. When she's offered the coveted drum chair at *Heartless*, one of Broadway's longest-running musicals, she eagerly accepts—only to discover that the current music director is Max Edelman, who's been her (upsettingly hot) nemesis ever since he fired her mid-show a decade ago. However, hanging onto a steady job is more important than holding onto old grudges, and since they're the two newest members of a disgruntled orchestra that's been stuck together for almost thirty years, Syl and Max have no choice but to form an uneasy truce.

Praise for *Some Kind of Famous*:

"Real, raw, and deeply romantic, Some Kind of Famous is a gorgeous story of two imperfect people finding someone who just might be perfect for them. A beautifully messy and authentic love story."

—Ashley Herring Blake, *USA Today*
bestselling author of *Dream On*,
Ramona Riley

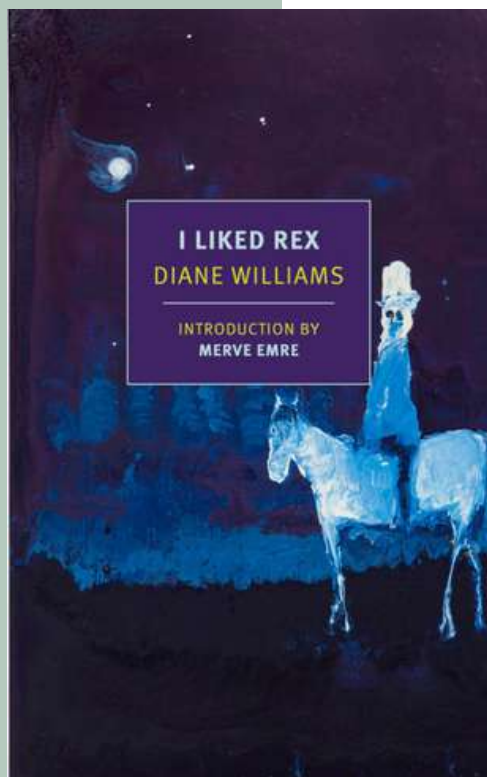

The more she gets to know him, the more Syl is distressed to realize that Max might not be as bad as she thought—and that the chemistry sparking between them might be more than just musical. But as one of the few female drummers in an already male-dominated industry, she's all too aware of the potential consequences of indulging their attraction. Complicating things further, her oldest friend—the anonymous online pen pal she's been confiding in since middle school—seems dead set on finally taking things to the next level.

When it comes to her career, Syl's always been fearless about blazing her own trail. But can she be as brave when it comes to her heart?

Ava Wilder is the critically acclaimed author of *How To Fake It In Hollywood*, *Will They or Won't They*, and *Some Kind of Famous*. Her work is often described as gritty, messy, and raw, which is also why she is no longer invited to make the potato salad. She lives in Northern Virginia with her husband.

Diane Williams

I LIKED REX

From “the godmother of flash fiction” (*The Paris Review*), a new collection of delightful and daringly oblique stories about the mysteries of life and the human heart.

Diane Williams is one of the great masters of the American short story: her tiny, coruscating tales are among the most tender, funny, peculiar, and searching works in all of contemporary literature. *I Liked Rex* is Williams’s newest collection, which explores sex, love, marriage, and all that comes after; it is a book about living, but more importantly, about how to be alive.

In these stories, a woman sees her soon-to-be ex-husband on the street, walking patiently at the end of a line of geese; a mother implores a total stranger to watch over her small child at the beach; a guest arrives at an orgy uninvited, and takes a nap beneath a dusty carpet; a woman reflects on her life with a man who used to belong to another, but is hers now—though can anyone really possess anyone else, truly?

Williams’s genius lies as much in what is left unspoken as in what is laid out on the page; behind images of startling beauty and strangeness, entire chamber dramas of the heart unfold, and the pleasure of these sphinx-like tales comes from their unremitting mystery, which is the same mystery fundamental to life and to love. A collection of rare originality and daring, *I Liked Rex* is a complete and utter delight.

Diane Williams is the author of several collections of short fiction, most recently *I Hear You’re Rich*, and the founder and editor of the literary annual *NOON*. An omnibus of her work, *The Collected Stories of Diane Williams*, was published in 2018. *I Liked Rex* is her twelfth book of fiction.

Praise for Diane Williams:

“Fiction ought to lead us to those precipices where language fails and silence begins. You would be well advised, with a master like Williams, to take the plunge.”

Marwan Bishara

TWELVE DAYS THAT SHOOK THE MIDDLE EAST

Origins of a Genocide

A damning account of how Israel and the US manufactured the case for genocide in Gaza and a devastating regional war in the Middle East, from Tel Aviv to Tehran.

In *Twelve Days That Shook the Middle East*, scholar and Al Jazeera senior political analyst Marwan Bishara offers a clear-eyed account of what happened after October 7, 2023, why it happened, and why it matters. Bishara argues that this conflict has always been an asymmetric, anticolonial struggle. The genocide was not a misstep; it was a blueprint unfolding before the world's eyes.

Although he covers the entire war, Bishara contends that the first twelve days were enough to expose the core logic of the conflict, to understand the strategic design behind it, and to bear witness to how modern warfare, wrapped in the language of "security," "self-defense," and "civilization," becomes a weapon of dehumanization and destruction.

What followed those twelve days—mass killing, mass displacement, famine, and the collapse of humanitarian possibility—was not the fog of war. It was the eerily cold execution of a premeditated strategy.

Dr. Marwan Bishara has been the senior political analyst at Al Jazeera English for the past two decades. He has authored three books and written for publications such as *The New York Times*, *The Washington Post*, *The Guardian*, *Le Monde*, *Newsweek*, *The Jerusalem Post*, and *Al-Hayat*. He was a visiting academic at St Antony's College, Oxford, and was a lecturer of international relations at the American University of Paris.

"Hard-hitting, compelling, honest. A tragic portrait of the violence that has overtaken the Middle East since 7 October 2023, from genocide in Gaza to wars in Lebanon and Iran, as Israel and the United States combine forces to reshape the region. Essential reading for anyone wishing to understand the world today."

BUT NO REALLY, WHAT SHOULD I DO ABOUT MY MOTHER?

On Trying Very, Very Hard, to Be a Good Daughter

Some people have wonderful relationships with their mothers—this is a book for everyone else.

When Tabitha's mother is diagnosed with terminal cancer, she resolves to use her final six months to repair their frequently painful, strangely hilarious—always bewildering—relationship. But is it too late? And should she even try? For the readers who nodded along to *I'm Glad My Mom Died* but then remembered their own mother was extremely alive, this is a story about what happens when you shoot for a happy ending while you've still got the chance, even though you know the odds are against you.

Over the course of the book, the countdown to her mother's death-day becomes a grim deadline for Tabitha to make peace with their relationship. Determined not to be left with any regrets, she gets to work, changing her attitude and her behaviour, lowering her expectations and leaning in (even if that only makes it easier for her mother to push her buttons). The result is a nuanced, deeply personal story about mothers and daughters, obligation and guilt, hope and disappointment.

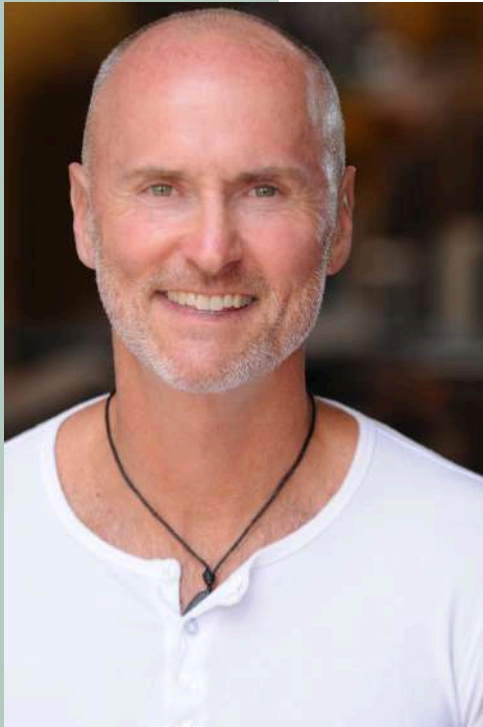

Tabitha Carvan is a senior science writer at the Australian National University in Canberra and has written for publications such as *The New York Post*, *Australian Geographic* and *AsiaLIFE* focusing on issues of identity, family and pop culture. She recently won the 2025 Bragg Prize for Science Writing. Tabitha's debut, *This is Not a Book About Benedict Cumberbatch: The Joy of Loving Something—Anything—Like Your Life Depends On It* (HarperCollins ANZ/UK, Putnam US, 2022) received a slew of awards and exuberant reviews.

Praise for *This Is Not a Book About Benedict Cumberbatch*:

"Carvan's self-aware approach wrings the absurdity out of her story to hilarious effect while touching on the realities of motherhood and fandom...The result is a weird-in-the-best-way account of self-discovery that brims with humor and insight."

Q3

Rewriting the Story of Your Midlife

Q3: Rewriting Your Story of Midlife offers a bold new way to understand the most overlooked stretch of life: the decades between traditional adulthood and elderhood. As longer lives have quietly created an entirely new life stage, this book offers readers a map with which they can navigate this pivotal, possibility-rich season of transformation. Built around three orienting questions—Identity (Who am I?), Inclination (What do I want?), and Intention (Where am I going?)—Q3 offers a powerful framework for flourishing in the second half of life.

What most distinguishes Q3 from other midlife and aging books is its use of story as its guiding method. Drawing on myth, literature, film, and contemporary cultural narratives—from Homer and Dante to Toni Morrison, *Breaking Bad*, and *Ted Lasso*—the book treats story not as ornamentation, but as deep structure. These narratives become tools for navigating change, loss, reinvention, and renewal when old maps no longer fit. Blending big ideas with practical application, Q3 helps readers see their lives less as linear résumés and more as living epics. This book will be both timely and timeless—a hopeful, practical guide for millions of readers searching for meaning, direction, and vitality in the long middle of life.

WHY DOESN'T YOUR STOMACH DIGEST ITSELF?

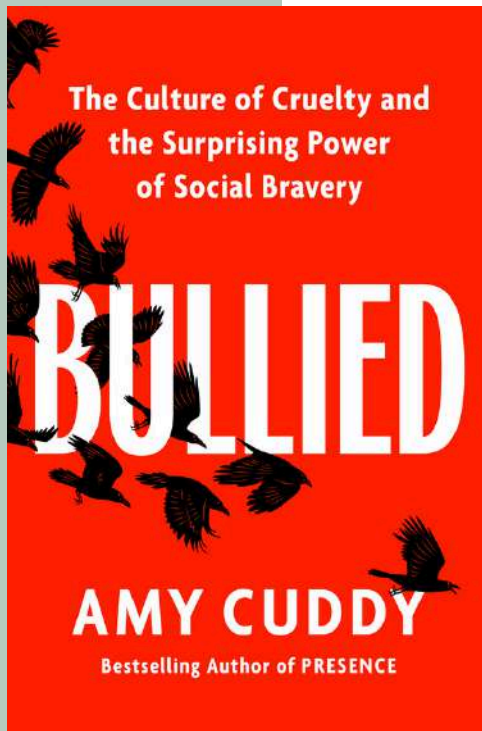

Tales of the Human Body's Remarkable Resilience

An awe-inspiring tour of the brilliant systems that keep the human body alive through circumstances ordinary and extraordinary.

How can someone live with only half a brain? How have more than 150 people survived free falls from supposedly fatal heights? From renowned physicians and medical educators Avraham Z. Cooper and Anthony Breu, *Why Doesn't Your Stomach Digest Itself?* reveals how the human body—an everyday wonder of strength and resilience—pulls off miracles, both routine and extreme, to simply persist. Most of these go unnoticed: Your gastric juices, strong enough to digest a razor blade, somehow do not digest your stomach itself. Some are more obviously spectacular: The ability to run a hundred-mile race or survive (in one unfortunate man's case, up to seven) lightning strikes. A celebration of your body's incredible ingenuity and astonishing capacity to withstand even the direst circumstances, this book is full of fun facts, vivid anecdotes, and questions you never even knew you had. You'll never take your body—or your digestion—for granted again.

Avraham Z. Cooper, MD is a pulmonologist and intensive care physician and associate professor of medicine at The Ohio State University. He lives in Columbus, Ohio.

Anthony Breu, MD is a practicing hospitalist and an assistant professor of medicine at Harvard Medical School. He lives in Westwood, Massachusetts.

Amy Cuddy

BULLIED

The Culture of Cruelty and the Surprising Power of Social Bravery

Following the best-selling success of her book *Presence*, social psychologist Dr. Amy Cuddy became the target of a years-long campaign of bullying that unfolded both publicly and within her profession, she found herself asking a question her research had never fully answered: How do ordinary people become part of extraordinary cruelty?

Dr. Cuddy draws on her own experience and decades of research to offer a powerful new understanding of how bullying doesn't simply harm individuals—it reshapes groups, organizations, and communities into cultures of cruelty. Bringing together psychology, sociology, history, ethology, and real-world cases, she uncovers the surprisingly predictable patterns that allow bullying to spread, reveals why institutions so often fail to stop it, and explains how ordinary people can become part of sustaining it without ever intending to.

But this is not just a story of harm—it's a story of hope. Dr. Cuddy shows how small but courageous acts can interrupt bullying before it hardens into culture, restoring trust and altering the course of what everyone else does next.

If *Presence* was about finding the courage and agency to represent ourselves, *Bullied* is about finding the courage and agency to commit acts of social bravery. Part memoir, part scientific investigation, and part argument for repair, this book changes the way we think about bullying, courage, and the role each of us plays in shaping the cultures around us—and offers a hopeful vision of how ordinary courage can become as contagious as cruelty.

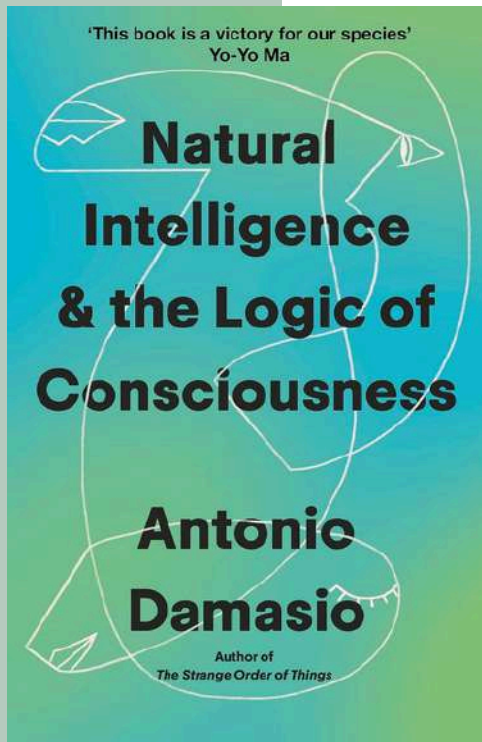

Amy Cuddy, PhD, is a distinguished social psychologist and the *New York Times* bestselling author of *Presence*, which has sold more than one million copies worldwide and been translated into 35 languages. She earned her PhD from Princeton University and has held faculty positions at Harvard Business School and Northwestern University. Her 2012 TED Talk on body language, the third-most-viewed TED Talk of all time, has been watched more than 75 million times. Her new [TED Talk](#) introduces the central ideas of *Bullied* and was released in September 2026.

"Amy Cuddy reveals what has been hiding in plain sight: how one person's cruelty becomes a collective act, why good people get pulled into it, and how social bravery can stop it. Few people could have written this book with Amy's rare combination of scientific authority, hard-won wisdom, enormous reach, and deep humanity. Bullied gives us a new language for one of the defining social problems of our time—and once you see it, you can't unsee it."

Antonio Damasio

NATURAL INTELLIGENCE & THE LOGIC OF CONSCIOUSNESS

Throughout his illustrious decades-long career, Antonio Damasio has been at the leading edge of science's enduring quest to unravel the mysteries of the human mind. Now, drawing on a lifetime of groundbreaking research as well as the newest findings of neurobiology, evolutionary science, and philosophy, this book offers readers a scientifically rigorous and deeply profound re-examination of what it means to be alive and aware.

At the heart of his argument is the revolutionary idea that our primal sensations intrinsically tied to our survival such as hunger, thirst, and pain—are the foundation of conscious experience, not only central to the body's effort to maintain its physical well-being but carrying with them the initial glimmers of subjectivity, the very first sense of a "self." Here Damasio redefines consciousness as a natural solution to the problem of regulation in complex, vulnerable organisms and along the way wrestles with the notion of sentience in plants and bacteria; considers the social phenomena of politics, religion, and commerce through the perspective of homeostasis; and addresses the rise and risks of artificial intelligence and its mimicry of the conscious mind.

Antonio Damasio is the David Dornsife Professor of Neuroscience, Psychology, and Philosophy and director of the Brain and Creativity Institute at the University of Southern California. Awards he has received include the Prince of Asturias Prize in Science and Technology, as well as many others. One of the most highly cited neuroscientists in the world, he holds Honorary Doctorates from many universities, beginning with the Sorbonne. He is the author of six books, which have been published in translation and taught in universities throughout the world.

Angela Duckworth

SITUATED

Find the People and Places That Bring Out Your Best

New York Times Bestseller

In Angela Duckworth's first book, she showed that a common denominator of successful strivers is a blend of passion and perseverance she dubbed "grit." This second book springs from her deepening realization that grit, while necessary, is sometimes not sufficient. How you situate yourself to meet a challenge can be crucial.

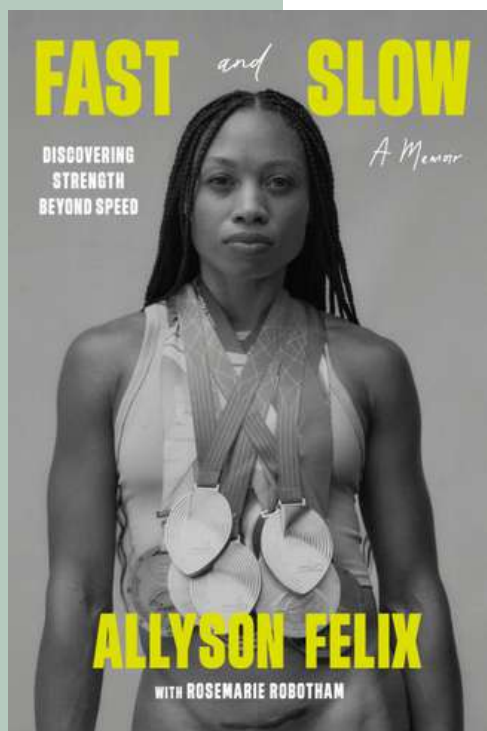

Duckworth's in-depth research reveals the enormous influence wielded by the objects within arm's reach, your peers and mentors, and even your zip code. Though you're often told to make the best of your situation, it is far, far better to make your situation better first.

In *Situated*, you'll discover:

- Why your personality changes, sometimes dramatically, from one situation to another—and how you can harness that shift
- The secret to conquering temptation without willpower
- Why taking the less effortful path can feel like cheating but often solves a stubborn problem
- How the company you keep shapes the person you become
- The most effective ways to help others succeed

Highlighting four essential elements of successful situations, Duckworth shows how high performers like Taylor Swift, Michael Phelps, and Jerry Seinfeld create situations that make it easier to excel. And, with disarming honesty, she shares her own struggles with burnout and marriage—and how learning to change her situation, not herself, made all the difference. Whatever it is you want to achieve, there's a situation that can make your journey easier.

Angela Duckworth, PhD, is a psychologist, a MacArthur Fellow, and the Rosa Lee and Egbert Chang Professor at the University of Pennsylvania. Duckworth's TED talk is among the most viewed of all time. Her first book *Grit: The Power of Passion and Perseverance* was a #1 New York Times bestseller and has sold more than 5 million copies worldwide.

Allyson Felix, one of the fastest women in the world, meticulously planned out her life according to the rigid training and competition schedule expected of all top female runners. From a young age she witnessed older teammates wrestle with the decision to have a child. Motherhood, Allyson learned, was a high-stakes game that for too many women meant the end of everything they worked so hard for.

But at thirty-three, the sports icon knew she was ready to become a mother herself. She gave birth to a baby girl, Camryn, delivered prematurely after Allyson was diagnosed with severe pre-eclampsia, a condition that, she learned, disproportionately impacts Black mothers like her. The experience left both mother and daughter fighting for their lives, and Allyson emerged from the traumatic ordeal forever changed. In the months after her daughter's birth, Allyson's contract negotiations with Nike, her long-time endorsement sponsor, stalled when they refused to put language in her agreement that allowed sufficient recovery time without financial penalty. This, after they had also reduced her pay by 60%. Emboldened by her own harrowing motherhood journey, Allyson resolved to fight back. Her brave campaign to create change within Nike reverberated throughout the world of sports and the country at-large, paving the way for the real transformation for female athletes that she still fights for today. Yet, until now, she has never shared her full truth.

In *Fast and Slow*, Allyson Felix chronicles with raw honesty the key milestones that shaped her as a person, mother, businesswoman, groundbreaking change-agent, and the most decorated track and field athlete of all time. In the process she shows readers what it looks like to boldly step into your power—one decision, one act, one bold commitment to yourself at a time.

Allyson Felix served in the Obama administration as a member of the President's Council on Fitness, Sports, and Nutrition. She delivered a TED Talk on "An Olympic Champion's Mind set for Overcoming Fear" in 2022 and has contributed to *The New York Times* and *TIME Magazine*. In 2019, having left Nike, she founded her own sportswear company, Saysh.

ELEVATE YOUR KIDS

*Why Good Parents Are Raising Anxious, Fragile Children
And What to Do About It*

Today's parents are more involved, more informed, and more devoted than ever. And yet, we're raising a generation with record levels of anxiety and fragility, increasingly unprepared for adulthood.

In *Elevate Your Kids*, award-winning CEO and father Robert Glazer reveals the uncomfortable truth: Many well-meaning parents are making the same critical mistake as ineffective leaders. They overmanage, overprotect, and unintentionally undermine the very children they're trying to develop.

The solution isn't to care less. It's to lead better, using the timeless principles that guide the most effective parents and leaders alike.

Drawing on decades of experience building high-performing teams and more than fifty years of research in child development, psychology, and education, Glazer shows how the same principles that create confident, capable leaders can raise resilient, self-sufficient kids. Built around four essential pillars—character, accountability, resilience, and teaching—*Elevate Your Kids* gives parents a clear, practical path to raising children who can handle challenges, take ownership, and thrive on their own.

This isn't about giving your child a perfect, frictionless life. It's about raising an adult who is strong enough to face adversity, and grateful, not for the obstacles you cleared, but for the strength to overcome them. It starts with seeing yourself as a leader, not a micromanager.

Robert Glazer is the founder and Chairman of The Board of global partner marketing agency, Acceleration Partners. Bob is the #1 *Wall Street Journal*, *USA Today*, and international bestselling author of six books including *Elevate*, *How To Thrive In The Virtual Workplace*, *Friday Forward*, and *Moving to Outcomes*. THE TELEPHONE

A New History

In 1876, Alexander Graham Bell spoke the words “Mr. Watson—come here—I want to see you” into a contraption he called the telephone, and for the first time a voice was carried along a wire. This feat has long been celebrated as a triumph of individual ingenuity and vision. In fact, the invention was a contest replete with bribery, fraud, and speculation, and no one, not even its inventors, realized what it was good for or how ubiquitous it would become.

Over the next century, the phone would prove less an invention than a continuous revolution. It would teach us new words and a new way to speak. It would create an all-female profession (the operator), enable the skyscraper, the world war, the assembly line, and the multinational corporation, and would usher in the Information Age. Along the way, the telephone changed human nature. It augmented our bodies, a prosthetic extension of mouth and ear, and magnified the possibilities of government, of business, of friendship, of love. For a while, the revolution was so successful that it made telephones themselves seem natural, eternal.

Today we are more dependent than ever on little objects called phones, although their ability to make “telephone calls” is incidental. The phone book and the phone booth may be vanishing from memory, but as James Gleick shows, the telephone’s legacy is deeply ingrained—in our networks and our sophistication about networks, in the primacy of information, in the need for connection.

Gleick is celebrated for his uncanny ability to make complex ideas vivid, understandable, and concrete. In *The Telephone: A New History*, he gives us a revelation: a story of technological breakthroughs that is also a universal history of intimate life.

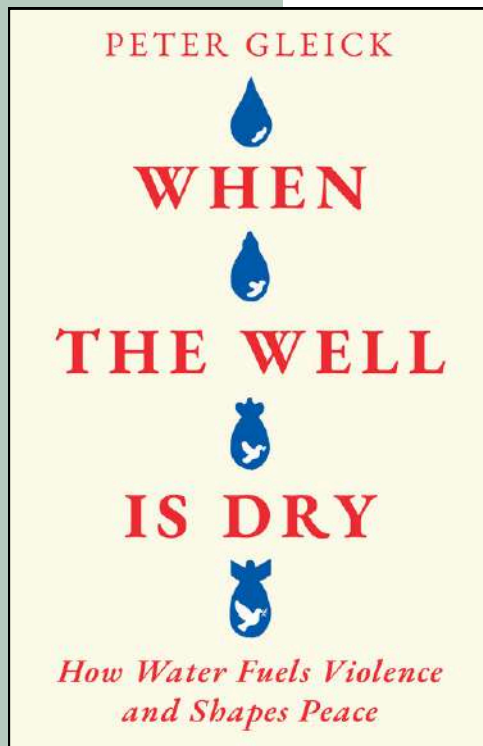

James Gleick is a historian and biographer whose books include *The Information*, winner of the Royal Society and PEN/America science-writing prizes, and *Chaos*, a Pulitzer Prize and National Book Award finalist. They have been translated into thirty languages. He lives in New York and London.

“The Telephone is at once a history of an invention and much more than that. It’s a book about innovators and monopolists, tinkerers and geniuses, and, ultimately, the remaking—and re-remaking—of America. Science and technology never seem more exciting than when James Gleick is writing about them.”

WHEN THE WELL IS DRY

How Water Fuels Violence and Shapes Peace

The first major water war erupted around 2500 BCE, when the Sumerian city-states of Lagash and Umma fought for a century over irrigation canals from the Tigris River. A few thousand years later, both Athenians and then Spartans were accused of poisoning the water supply of their enemies, in pursuit of victory. From the ancient Sumerian, Babylonian, and Assyrian empires to the present day, access to and control over freshwater has been entwined with human conflict, violence, and war. As a fundamental resource for survival, ecosystems, and the stability of civilizations, water and its scarcity or intentional manipulation have long played a pivotal role in power struggles and geopolitical tensions.

In *When the Well Is Dry*, MacArthur Fellow and world-renowned water expert Peter Gleick traces the history of water and violence, weaving together historical accounts, personal reflections, and analysis. Spanning over four thousand years, the book examines how water has shaped conflicts, from ancient civilizations to contemporary crises, such as Syria's civil war and Russia's invasion of Ukraine, as well as detailing the evolution of modern environmental security studies.

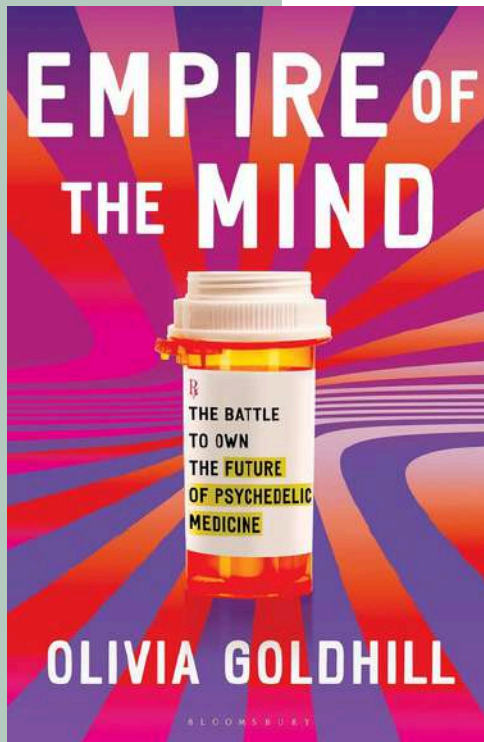

When the Well Is Dry highlights the dangers of water-driven violence but also offers comprehensive recommendations for reducing such conflicts, paving a new path toward cooperation over water and strategies for a sustainable future.

Peter Gleick, a founder and President Emeritus of the Pacific Institute, is a MacArthur Fellow, an elected member of the U.S. National Academy of Sciences, the American Academy of Arts and Sciences, and a Fellow of the American Association for the Advancement of Science. He was awarded the Carl Sagan Prize for Science Popularization and is the author or editor of many scientific papers and books, including *Bottled and Sold* and *The Three Ages of Water*. He lives in Berkeley, California.

"Water scarcity is one of the great drivers of human conflict. No one knows this subject better than Peter Gleick. When the Well Is Dry shows us the hazards of our position and, just as importantly, maps a path forward."

EMPIRE OF THE MIND

The Battle to Own the Future of Psychedelic Medicine

When investigative journalist Olivia Goldhill started reporting on psychedelics a decade ago, the science suggested that the still-criminalized drugs would transform the mental health industry. Studies showed that psychedelics could alleviate depression and trauma and were set to be the first new mental health treatment in a generation. But as she kept reporting, she uncovered a far more complex story.

A battle was brewing behind the scenes—a fight not just for control, but for the very meaning of these drugs. Hippies and scientists believed that tripping was a gateway to a more holistic approach to mental health, relying heavily on therapy and community support. But billionaire-backed entrepreneurs also saw an opportunity and threatened to subsume this alternative approach with cutthroat pharmaceutical tactics, controlling psychedelics with patents and churning out pills for profit. Meanwhile, activists in Oregon began to build their own system, entirely outside of the medical sphere.

In *Empire of the Mind*, Goldhill dives into the world of corporate behemoths, nonprofits, and community activists, each fighting to control the future of these potentially transformative—and lucrative—psychedelic therapies.

Sitting at the intersection of business and mental health, *Empire of the Mind* sounds an urgent alarm about how one of the last vestiges of counterculture could end up tamed into a capitalist product. With gripping on-the-ground reporting, Goldhill unveils the power of the mental health industry to control not just treatments, but our understanding of our own minds.

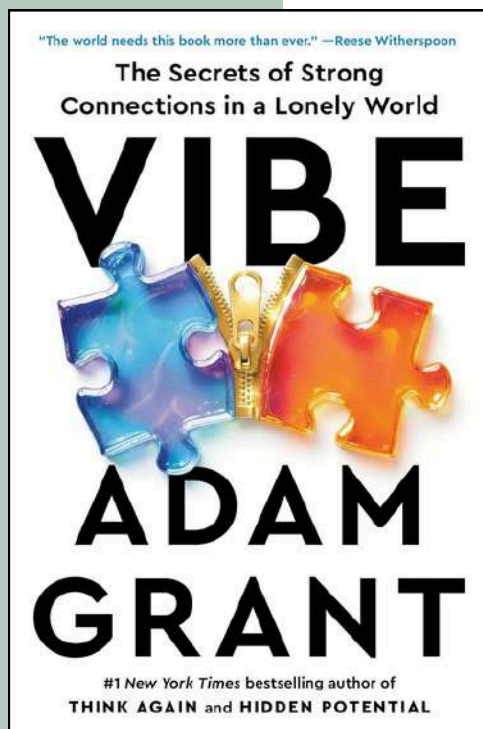

Olivia Goldhill is a journalist who has been reporting on psychedelics for a decade. She is a New America fellow, supported by Jonathan Logan Family Foundation, and is currently a features editor at *New Scientist* magazine. Her reporting has been recognized by the British Journalism Awards, the Medical Journalists' Association Awards, the EPPY Awards, and the Livingston Awards, and she has written for publications including *The New York Times*, *The Guardian*, and *STAT*. She lives in London.

"Turn on, tune in, cash out. This riveting expose reveals the big money and power trying to hijack the psychedelic revolution. The wild story spins from shocking cover ups to outlandish patent battles, revealing the enormous stakes in a hidden fight over the human mind."

THE FINAL SOLUTION TO THE JEWISH QUESTION

A Love Story for the Living

New York Times Bestseller

After publishing the award-winning *People Love Dead Jews* about the insidious nature of contemporary antisemitism, Dara Horn heard from thousands of people demanding solutions. That demand has grown since the October 7, 2023, massacre in Israel and the attacks on Jewish communities worldwide that followed. From her front-row seat to this nightmare, including meeting with the White House and Congress, and speaking with communities of all backgrounds, Horn discovered that there was far more ignorance than malice—and saw an opportunity.

Combining historical research, investigative reporting, and storytelling bravado, *The Final Solution to the Jewish Question* is both diagnosis and prescription. She explores and exposes the failures of Holocaust education, the long history of the antizionist movement, and the organized plot to poison AI with anti-Jewish propaganda, and weaves it all into an audacious, convincing series of arguments that invites readers of every background to become curious about their blind spots and to absorb new and uncomfortable truths. From there, she proposes a solution rooted in a new understanding of freedom and responsibility, clearing a path toward a shared future.

The Final Solution to the Jewish Question is a worldview-shifting book by one of our most incisive thinkers and writers—a lamentation, a manifesto, a call to action, and, ultimately, a love story for the living.

Dara Horn is the author of seven books, including the essay collection *People Love Dead Jews* and the novels *The World to Come* and *Eternal Life*. She is the recipient of three National Jewish Book Awards, and her work has appeared in *The New York Times*, *The Wall Street Journal*, *The Atlantic*, and many other publications. She received her doctorate in Hebrew and Yiddish literature from Harvard University, and has taught Jewish literature at Sarah Lawrence, Yeshiva University and Harvard. MAKING GOOD MEMORIES

A New Science of Identity and How We Remember

When it comes to memory, our desires range from the sweet moments we hope to hold onto forever to the heartaches and trauma we'd like to erase as quickly as possible. And yet, we're lost when it comes to understanding how to achieve those elusive goals. Until now.

After experiencing his own trauma in escaping a terrorist attack when others perished, Kahana was sure that the known laws governing memory were not enough to explain why some people emerge from harrowing events without lasting mental scars (as he did), while others experience PTSD for decades. There had to be something larger at work—something inextricably linked to our identities. His research now reveals that there are five variables that comprise our personal memory systems, and by determining how our own minds rate along these variable scales, we can uncover deep truths about our present, past, and future. With the foundation of Kahana's research, and Carey's powerful storytelling, this book holds the promise to help us heal old wounds, to retrieve our happiest memories when we need them most, and to profoundly change how we understand our identity.

Michael J. Kahana is a Professor of Psychology at the University of Pennsylvania and one of the most prominent figures in the field of memory research worldwide, who has helped to clarify the laws of memory and identify the brain networks involved. He has published more than 200 peer-reviewed articles and written the standard textbook for advanced students in the field, *Foundations of Human Memory* (Oxford University Press, 2010).

Benedict J. Carey is an award-winning science reporter who covered mental health and brain science at the *Los Angeles Times* from 1999 to 2004 and *The New York Times* from 2004 to 2021. His book about the science of learning and memory, *How We Learn* (2014) has sold more than 300,000 copies.

WHEN AMERICA ROARED

How the 1980s Saved, Then Broke, the Country—and Led Us to Today

In January 1980, America seemed broken. Inflation raged. Interest rates topped 20 percent. Americans were held hostage in Iran. The Soviet Union invaded Afghanistan with impunity. Japan was eating American manufacturing alive. China had been closed for 30 years. Ten years later, everything had changed. The economy was booming. The Soviet Empire was collapsing. American businesses were competitive again.

In this immersive, character-driven narrative, Kaufman lays bare the contending ideologies—and people—who battled for control of business, media and politics in the 1980s, shaping the way we live today. From Ronald Reagan to GE CEO Jack Welch to deregulation which allowed television to become the hundreds of specialized and partisan channels we watch now, the groundwork was laid for our current economic and political conflicts. The decade also launched social and political movements whose victories transformed the country.

From pivotal moments in boardrooms and court rooms, to cultural touchstones like the birth of hip hop and of conservative talk radio, as well as the author's eyewitness experiences in Tiananmen Square and Prague, *When America Roared* is the riveting story of how the 1980s built the world we live in.

Jonathan Kaufman is a Pulitzer Prize-winning reporter whose long list of bylines includes *The Boston Globe*, *The Wall Street Journal*, and *Bloomberg News*. Job Shock is a manifesto for a new age of intelligence and a call for people to be careful about, but not fearful of, change. Right now, the world is waking up to the realities of artificial intelligence and automation, and while both the promise and the anxiety surrounding these technologies dominate headlines, much of the public conversation barely scratches the surface of what is coming. Most discussions focus narrowly on productivity gains, job displacement, or speculative existential risks. Far fewer grapple with the deeper question beneath them all: what happens to meaning, dignity, and purpose when work no longer plays the role it once did in our lives?

This book argues that the AI revolution is not merely an economic event. It is a civilizational one. Machines that can reason, communicate, and create are forcing us to reexamine assumptions that have structured society for centuries. The idea that effort reliably translates into employment, that employment reliably confers dignity, and that dignity reliably anchors identity is beginning to fracture. *Job Shock* confronts this reality directly—not with alarmism, but with clarity, urgency, and intention.

Drawing on Salman Khan's experience at the intersection of education, technology, and social impact, this book presents an in-depth, counterintuitive narrative about how societies can navigate a future in which human labor is no longer the primary bottleneck in production.

Salman Khan is the founder of Khan Academy, an online platform helping educate 150 million registered users from 190 countries. END TIMES FASCISM

And the Fight for the Living World

New York Times Bestseller

As the planet burns and shared reality melts, a new iteration of the far right is on the march. How can we understand this dangerous new development, and what resources can we draw on to resist it? Celebrated activists and authors Naomi Klein and Astra Taylor explore how the religious fundamentalists, Silicon Valley technologists, and ethno-nationalists who make up this apocalyptic alliance share more than one might think: they are united in their belief that some kind of cataclysm is coming. Rather than avoiding it, they welcome it, convinced they will be among the saved on the other side.

"This inspired book maps the ideas common to three virulent strains of contemporary politics..."

Righteously alarmed, the authors have given us a new way to grasp some of our biggest problems...An astute, original-minded analysis of the apocalyptic thinking that links tech, politics, and religion."

"End Times Fascism" is the ideology of the actors who strive to make the world unlivable and then seek to protect themselves from the fallout. The new survivalists have accumulated power, but they are far from impregnable. Their many internal conflicts and contradictions and their nihilistic inability to envision a shared future leave them vulnerable to a new kind of "pro-life" politics—rooted in reverence for our shared existence and regard for the earth we inhabit and must protect.

A groundbreaking work of investigative reporting on sibling abuse, a pervasive yet overlooked engine of lifelong trauma, that revolutionizes how we understand the origins of harm and the path to healing.

Sibling abuse is the most common form of family violence, yet few recognize it, few professionals are trained to address it, and most survivors struggle for decades without the language to voice what they endured. In *The Ties That Harm*, journalist Lauren Krouse—drawing on extensive reporting and her own lived experience—exposes this vast, overlooked crisis and its lifelong consequences, and offers avenues for healing.

Through survivor stories, expert interviews, and a clear-eyed examination of the cultural myths that enable denial, Krouse reveals how patterns of domination, fear, and emotional harm between siblings shape mental health, relationships, and family systems long into adulthood. Blending memoir, investigation, and a roadmap for healing, *The Ties That Harm* sheds light on this overlooked aspect of domestic violence and charts a path toward recognition, accountability, and change.

Lauren Krouse is a journalist who covers domestic violence, trauma, and mental health. Her work has appeared in *The Washington Post*, *Women's Health*, *SELF Magazine*, *USA Today*, *Parents*, *Medscape*, and elsewhere. Sander Lutz

THE AMERICAN MEME

Crypto Degenerates, White House Hustlers, and the Rise of the Casino Economy

The first time Sander Lutz met Donald Trump, the president mistook him for an IT guy. By his second encounter, Sander was a White House correspondent. He soon stumbled into a much larger story—and the things he's uncovered are nothing short of outrageous.

The American Meme is the gripping, character-driven tale of a desperate generation that has turned to volatile crypto gambling, a seismic shift that threatens to reshape our politics and infect all corners of the global economy. The story begins with the origin of meme coins and the creation of pump.fun, the billion-dollar UK-based startup dreamt up by three college students, opening the floodgates for anyone to create their own meme coins. From there, it follows how that endeavor managed to lure in the President, along with the rest of the nation.

Lutz brings exclusive access to an extraordinary cast of characters, including: Jackson Palmer, the man who invented DOGE coin for laughs and hardly made a dollar, and a slew of Washington insiders who believe Trump's stake in the crypto world stands to erode the regulatory guardrails put in place since in the wake of the Great Depression.

Full of pithy humor and expert clarity, this is the definitive account of a venture that started as a joke but has exploded into a fiasco with no end in sight.

Sander Lutz is a freelance journalist and is the first ever crypto-focused White House correspondent. He has been writing from a unique crypto-political angle since 2021, and his work had been cited by *The New York Times*, *The Guardian*, *Axios*, and *Fortune*, among others.

THE NOT SO EMPTY NEST

A How-to Guide for Parents and Adult Children Living Together

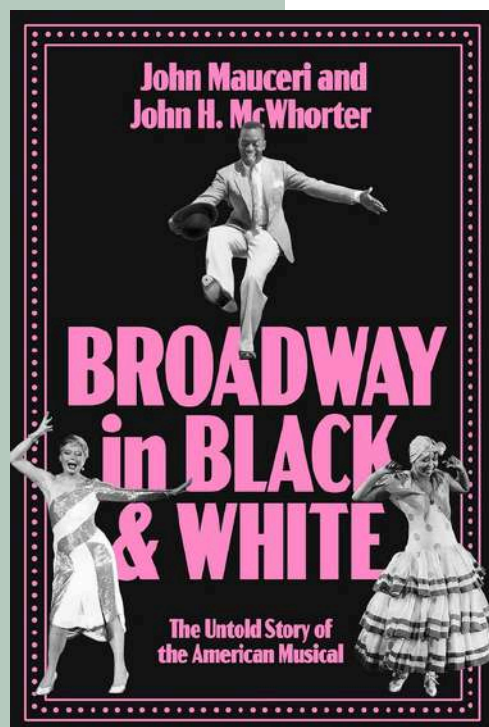

When Julie Lythcott-Haims's twenty-year-old son moved back into the family home, they couldn't help feeling that they had failed as a parent. They were the parenting expert who advised on raising self-sufficient kids. What had they missed?

Their family wasn't unique. Some families are helping children with neurodivergence, learning differences, and mental health challenges that lengthen the independence timeline. And many families are grappling with astronomical housing costs making living on one's own a struggle. Still, they worried that their family had failed. As they settled into cohabiting, however, they came to realize that living with their adult child offered a rare opportunity for their family to connect.

The Not So Empty Nest is a practical guide to multigenerational living, aimed toward parents and adult children in a time when large numbers of them are returning to, or staying in, their family homes in their twenties and sometimes beyond.

With wisdom grounded in case studies, psychology, and, most of all, their own experience, Lythcott-Haims grapples with the most common issues parents and adult children face when they are living under the same roof: upkeep of the shared home, communication, skill-building, money, power struggles, identity and beliefs, and how to reset a difficult dynamic. Frank, conversational, and accessible, this book is a practical guide to living cooperatively in a world that has led to parents and adult children living increasingly intertwined lives.

Julie Lythcott-Haims is the *New York Times* bestselling author of *How to Raise an Adult*, *Your Turn*, and the memoir *Real American*. A motivational speaker in high demand, they hold a BA from Stanford, a JD from Harvard Law School, an MFA from California College of the Arts, and an Honorary Doctor of Letters from the University of Puget Sound. BROADWAY IN BLACK AND WHITE

The Untold Story of the American Musical

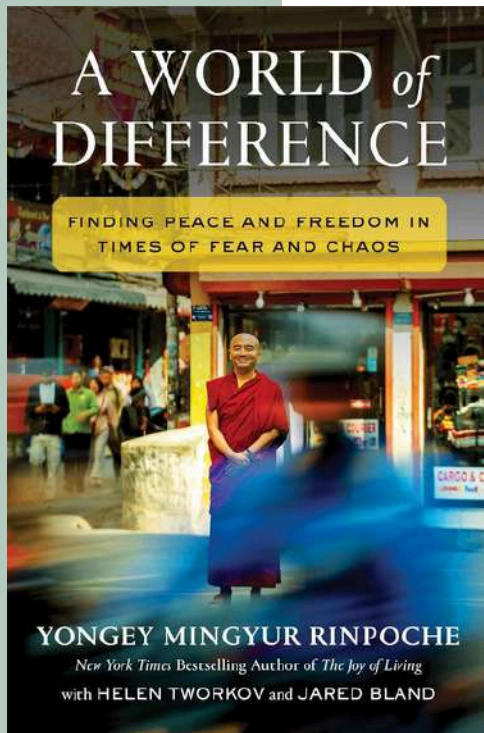

Shaped by Black musical traditions, European theatrical forms, and immigrant cultures, the Broadway musical emerged in the 20th century as a visceral embodiment of the American melting pot. In *Broadway in Black and White*, conductor and historian John Mauceri—together with linguist and cultural commentator John H. McWhorter—presents a dazzling history of collaboration between Black and white artists in the American musical theater.

Moving from ragtime and operetta to *The Lion King* and *Hamilton*, Mauceri reveals how Broadway's social and political influence extends far beyond artistic achievements and commercial successes. Incisive interludes by McWhorter offer a parallel perspective on the American musical as a testament to cultural exchange.

They illustrate that the Broadway musical both reflected and accelerated the nation's continued strides toward racial equality. Politically active works confronted prejudice. And equally potent was the visible fact of Black and white artists writing, creating, and performing together, when segregation still shaped much of American life. Together, Mauceri and McWhorter celebrate the American musical as an art form belonging to all of us.

John Mauceri is a world-renowned conductor and musical scholar of George Gershwin, Richard Rodgers, Duke Ellington, and others. He has conducted most of the world's greatest orchestras and opera companies and served on the Yale University faculty for fifteen years. He lives in New York.

John H. McWhorter teaches linguistics, American studies, and music history at Columbia University. Host of the podcast Lexicon Valley and columnist for *The New York Times*, he is the author of *Nine Nasty Words*, *Woke Racism*, *The Power of Babel*, and *Our Magnificent Bastard Tongue*. He lives in New York.

Vivek H. Murthy

LOVE, SERVE, GROW

The Forgotten Path to Lasting Fulfillment

This is a book that meets this precise cultural moment with uncommon moral authority, hard-won personal wisdom, and a message that millions of Americans are quietly desperate to hear. Dr. Murthy has spent twenty-five years listening—in hospitals and community centers, across the United States and around the world—and what he has heard is a single, urgent, unspoken hunger: people want their lives to mean something more. Grounded in his own family's immigrant story, decades of clinical experience, and thousands of intimate conversations as the nation's doctor, Dr. Murthy argues that a fulfilling life is built not on money, status, or achievement, but on three timeless pillars: love, service, and growth. The argument is both radical and deeply intuitive—which is precisely what makes it so powerful.

Love, Serve, Grow combines an author who, as a two-time U.S. Surgeon General, has unmatched credibility, a message that cuts across political and demographic lines, and an extraordinary timeliness in an era of epidemic loneliness and widespread disillusionment with conventional definitions of success. Dr. Murthy's Parting Prescription to America—his final act as Surgeon General—generated thousands of responses from parents, young adults, and people in midlife who recognized themselves in every line, telling us that the audience for this book is enormous and already waiting. His voice is warm, his science is rigorous, and his stories—from a Miami trailer park at two in the morning to the betrayal that nearly destroyed his family's medical practice—are unforgettable.

Dr. Vivek Murthy served as the 19th and 21st Surgeon General of the United States. In 2020, Dr. Murthy authored the *New York Times* bestseller *Together: The Healing Power of Human Connection in a Sometimes Lonely World*. Dr. Murthy received his bachelor's degree from Harvard and his M.D. and M.B.A. degrees from Yale. He completed his internal medicine residency at Brigham and Women's Hospital in Boston and later joined Harvard Medical School as faculty in internal medicine. Dr. Murthy resides in Washington, D.C., with his wife, Dr. Alice Chen, and their two young children.

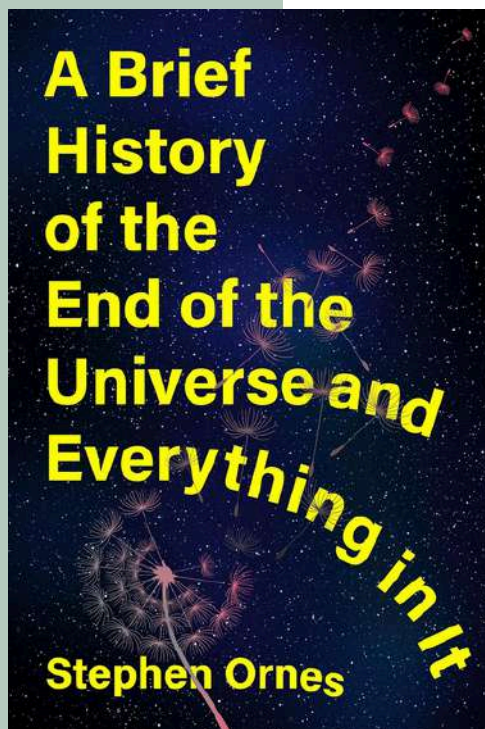

Praise for *Together*:

"Some books enlighten, but others stun. Together is a stunner. It made me rethink much of what I believe about physical health, public policy, and the human condition. By revealing America's epidemic of loneliness—and then offering an array of remedies for the condition—Murthy has done a great service, and made Together the most important book you'll read this year."

Cells commit suicide and rupture; stars explode in spectacular fashion. From the microscopic to the cosmic, demise is inevitable. In *A Brief History of the End of the Universe and Everything in It*, award-winning science writer Stephen Ornes leads a kaleidoscopic journey to uncover why and how everything comes undone—and why, maybe, that's okay.

Moving from biology to forensic science to ecology and cosmology, Ornes shows how death is not an end but a transformation. He takes readers to a roadside attraction where a man decays in real time, onto "body farms," into the deep ocean with whale carcasses, and into space to contemplate the fate of stars—illustrating how, viewed from the right perspective, processes that look destructive reveal an unexpected grace. Disclosing all the gory details as well and the strange beauty of decomposition, *A Brief History of the End of the Universe and Everything in It* deepens our appreciation of both life and death.

THE UNRULY UNIVERSE

The Struggle to Decipher Our Expanding Cosmos

How the quest to determine a single number—the expansion rate of the universe—is upending our understanding of the cosmos.

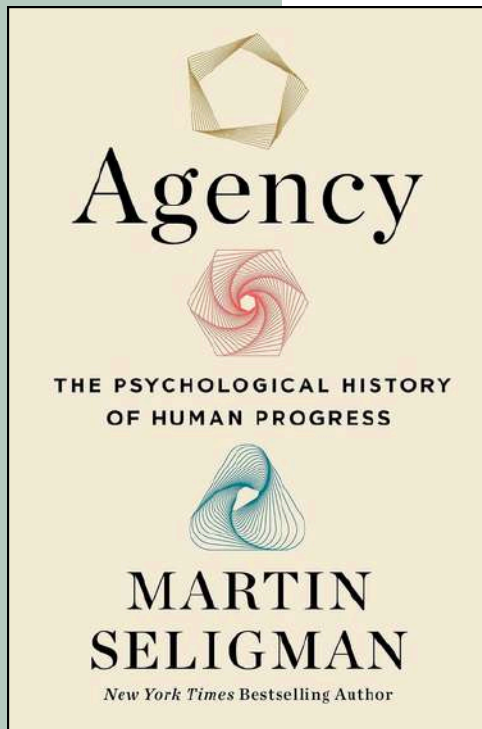

For more than a century, ever since Edwin Hubble discovered that galaxies are receding from us, cosmologists equipped with powerful space telescopes have sought to pin down the Hubble constant, the rate at which the universe expands. By the start of the twenty-first century, a consensus seemed within reach. Then came a surprise. Measurements of the faint afterglow of the big bang pointed to a significantly slower expansion. The two approaches stubbornly refused to agree.

In *The Unruly Universe*, Nobel Prize-winning cosmologist Adam G. Riess and science writer Donald Goldsmith chronicle the high-stakes quest to describe the universe with a single number. What emerges is a sobering possibility. The standard model of cosmology—our best account of dark matter, dark energy and gravity, and even cosmic history—may be incomplete.

Abandoning a model that has explained so much would be no small step. But as Riess and Goldsmith show, the universe has no obligation to conform to our expectations. It may be more complex, more surprising, and more unruly than we imagined.

Adam G. Riess is Bloomberg Distinguished Professor of Physics and Astronomy and Thomas J. Barber Professor in Space Studies at Johns Hopkins University. He was awarded the Nobel Prize in Physics for his discovery that the universe's expansion is accelerating.

Donald Goldsmith has written and edited more than twenty books on astronomy, including *Origins* with Neil deGrasse Tyson, *The End of Astronauts* with Martin Rees, and *Exoplanets*. He was the science editor and cowriter of the PBS television series *The Astronomers* and the cowriter of NOVA's *Is Anybody Out There?* with Lily Tomlin.

Martin Seligman

AGENCY

The Psychological History of Human Progress

What actually drives human progress? Biographers credit extraordinary individuals. Ecologists point to geography and climate. Sociologists invoke wars and revolutions. Economists follow the money. But none of these accounts explains why breakthroughs erupt in some eras and stall in others—often under identical material conditions. The missing variable, Martin Seligman argues, is psychological: agency.

Agency is built from three interlocking capacities: efficacy, the confidence that you can accomplish a specific goal right now; optimism, the expectation that your efforts will pay off far into the future; and imagination, the breadth of goals you can envision pursuing. When all three align, civilizations leap forward. When they collapse, societies stagnate—no matter how rich their resources or how brilliant their citizens.

Drawing on six decades of pioneering research and a sweeping reexamination of the last twenty-five hundred years—from Athens to the Renaissance, the Enlightenment, and the civil rights movement—Seligman reveals how surges and declines in agency have steered the course of history. With a clear-eyed look at an AI-transformed future, *Agency* makes the case that the power to create the next great era of human flourishing already lives within us.

Martin Seligman is the most influential psychologist in the world (Academic Influence) and a professor at the University of Pennsylvania, where he directs the Positive Psychology Center. A former president of the American Psychological Association, he earned his BA in philosophy from Princeton and his PhD in psychology from Penn, and holds ten honorary doctorates. His research—from learned helplessness to learned optimism to prospection—has reshaped how science understands human well-being. He is the author of more than thirty books, including *Flourish*, *Authentic Happiness*, *The Hope Circuit*, and *Tomorrowmind*.

James J. Sexton

YOU SUCK AT LOVE

James Sexton has spent two decades sitting across the table from people whose marriages are ending. His clients include Olympic medalists, hedge fund managers, surgeons, novelists, and their housekeepers, and he's learned that all of them and their spouses were bad at love in exactly the same way. *You Suck At Love* is his smart, hilarious, and unexpectedly tender answer to a curriculum nobody ever gave us.

This isn't another book about finding "the one." It's a manual for what happens after you find them, and love stops being a feeling and becomes a system you have to run. Sexton, himself a divorced divorce lawyer, argues that real love is an ecosystem requiring safety, maintenance, and brutal honesty about the "slow leak" that quietly empties most relationships long before anyone files paperwork. He dismantles the two most dangerous assumptions couples make, distinguishes puppy love from its more dangerous twin, and delivers a chapter on infidelity that refuses easy categories.

What makes Sexton essential is his vantage point: he's seen the wreckage up close, countless times, and instead of cynicism he's built a genuinely useful philosophy of how to make relationships last. He argues that love was never meant to be everything, that marriage isn't magic, and that staying together takes something closer to bravery than romance.

Sharp, profane, deeply humane, *You Suck At Love* reads like the best friend who happens to be a divorce lawyer, finally telling you the truth. It's for readers of Esther Perel and Mark Manson, and anyone who has ever wondered why no one ever taught them this.

James J. Sexton is the world's most well-known divorce lawyer. His perspectives on love, loss, and life have engrossed and thrilled audiences from all walks of life and transcended gender, political and cultural divides. The author of the bestselling *If You're In My Office, It's Already Too Late* (Henry Holt, Spring 2018; paperback: *How To Stay In Love*), he features regularly in a spectrum of national, international and local media, both traditional and new/social; many of his full podcast appearances have been viewed and enjoyed by millions, with clips from those appearances reaching billions.

Praise for *How To Stay In Love*:

"Wryly written with plenty of candid wit and straightforward opinions... Sexton's enthusiasm and affinity for marriage stories is evident throughout... Sage counsel to help readers better navigate the trajectories of their own relationships."

We use them in everything from wedding vows to campaign speeches, yet we rarely stop to ask what we actually mean by them, or whether the person across from us means the same thing. Drawing on decades of clinical practice and a first-of-its-kind study conducted with the Yale Center for Emotional Intelligence, Dr. Robin Stern identifies three fundamental promise styles—careful, aspirational, and cavalier—and shows how understanding your own style, and the styles of those you love, can transform every relationship in your life.

Through stories drawn from her practice and her own life, Stern maps the hidden architecture of trust—why we make the promises we do and why we break them—and offers a new vocabulary for our most consequential relationships: with our children, our partners, our professional colleagues, and ourselves. *The Truth About Promises* will change how you talk to your spouse tonight, how you parent tomorrow, and how you understand every relationship you've ever had.

Robin Stern, Ph.D., a licensed psychoanalyst with 30 years of experience treating individuals, couples and families, is a sought-after expert on gaslighting, emotional intelligence, divorce, cults, the gendering of emotion and more. She's the author of *The Gaslight Effect* (Harmony, 2007) which drew on her experience as a clinician and researcher and coined the term that has become part of the common parlance for describing a type of emotionally abusive, controlling partner. The repackaged paperback released in the wake of the 2016 election, when the topic felt newly urgent, found a new audience and a new interest from mainstream media. *The Gaslight Effect* sold in nearly 20 countries.

ELEVEN DAYS

The Fascinating True Account of Agatha Christie's Mysterious Disappearance

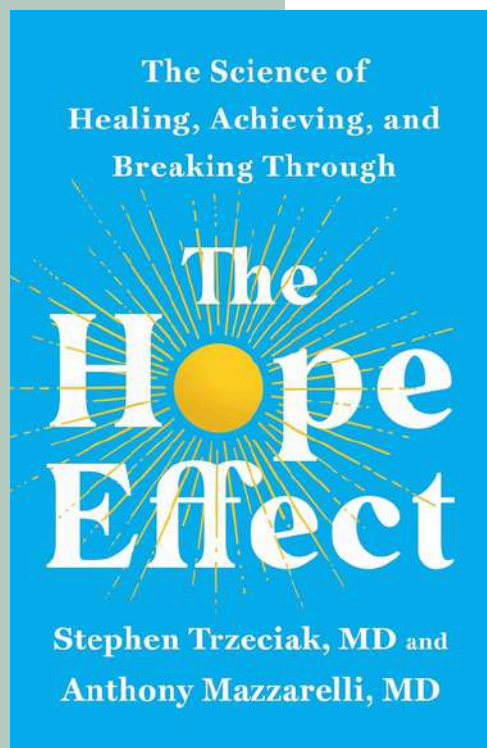

In December of 1926, Agatha Christie vanished. Eleven days later, after frenzied media speculation, she was discovered alive and well. A century on, there are questions that have never been answered.

Now Christie biographer Laura Thompson seeks to penetrate the story of the greatest mystery ever created by the greatest ever mystery writer. In a new approach, Thompson undertakes a re-enactment of Christie's movements: from the moment of driving away from her marital home, to the abandonment of her car and her arrival the following night at a hotel in the north of England. Based on conversations with people close to Christie—including with Christie's only child, Rosalind—*Eleven Days* reveals entirely new information about Christie's first marriage.

Eleven episodes examine every aspect of the famous disappearance, seeking—as far as is possible—to penetrate the blank space in Agatha Christie's long and brilliant life, which leaves her ever more emblematic of the genre that she defines.

This is a short, stylish book—an examination of a myth; a gleaming sliver of biography; an irresistible puzzle that the reader, too, will feel compelled to try and solve.

Laura Thompson's biography *Agatha Christie: A Mysterious Life* was a 2019 Edgar Award Finalist for Best Critical/Biographical Work. She won the Somerset Maugham award for her first book, *The Dogs*, and is the author of the *New York Times* bestseller *The Six: The Lives of the Mitford Sisters*. Other books include the critically-acclaimed biography of Nancy Mitford, *Life in a Cold Climate*.

THE HOPE EFFECT

The Science of Healing, Achieving, and Breaking Through

The Hope Effect is built on a simple but radical premise: hope is not wishful thinking. It is real, measurable, and trainable—and it changes outcomes that matter.

Most people treat hope as an emotion or a personality trait—something you either have or you don't. The science says otherwise. Drawing on decades of research, *The Hope Effect* shows that hope is a distinct, measurable way of thinking—different from optimism—that can be learned, strengthened, and put to work. And when it is, the effects are measurable: in physical health and longevity, in performance and achievement, in how people recover, persevere, and lead.

This is not a book of inspiration or affirmations. It is an evidence-based account of what the research actually shows—and a practical framework for translating that science into how you live and work.

Stephen Trzeciak, MD, MPH is a physician scientist, professor and chair of medicine at Cooper Medical School of Rowan University, and the chief of medicine at Cooper University Health Care in Camden, New Jersey. Dr. Trzeciak is a practicing intensivist (specialist in intensive care medicine), and a National Institutes of Health (NIH)-funded clinical researcher with more than 100 publications in the scientific literature.

Anthony Mazzairelli, MD, JD, MBE is co-president of Cooper University Health Care and the associate dean of clinical affairs for Cooper Medical School of Rowan University. Prior to his current role, Dr. Mazzairelli served as Cooper's chief physician executive where he oversaw the physician practice. He is a practicing emergency medicine physician.

"Hope appears to be a 'soft' word. The Hope Effect tells us that's not so. Hope is indeed all-powerful. This book, a true original, gives us practical guidance on how to take that 'soft' word, hope, and create a better world for individuals and our organizations."

MAYBE IT'S THEM

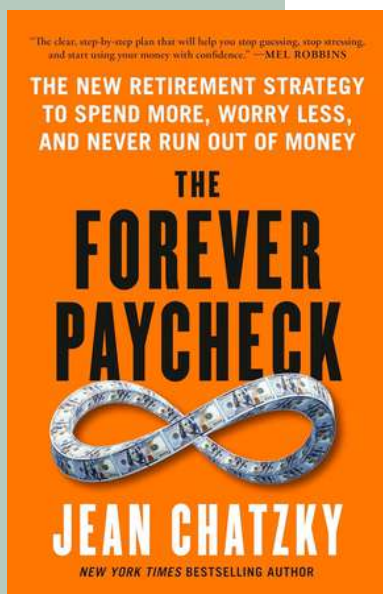

Survive Betrayal. Remove Self-Doubt. Love Yourself.

In *Maybe it's Them*, bestselling author Lauren Handel Zander delivers a radically honest, no holds barred examination of the power of surrendering control, shedding toxic environments and people to find the path back to oneself. Her first book, *Maybe it's You*, helped readers tackle their personal issues with her signature no-nonsense style of coaching, the same method that helped Zander form her wildly successful business. But when Zander was faced with burnout, a divorce after twenty-two years of a seemingly solid marriage, and people who robbed her own business out from under her, her world came crashing down. Surprisingly, once alone and living on her own terms, she came to realize that maybe it's NOT her after all. Maybe it's them.

Now, in *Maybe it's Them*, Zander explains how she rebooted and rewired her thinking, presenting new, practical methods that will help you be true to yourself, stop lying, and finally face the people in your life who don't want the best for you. By helping readers identify the core beliefs they learn early on in their family bubble, as well as the flawed inner dialogue they develop along the way, *Maybe It's Them* teaches you that while you can't control other people—their lying, taking, gossiping, and more—you can learn how to protect yourself from their toxic behavior. Zander offers a candid and uncensored manifesto for letting go of the people holding you back and living the life you were meant to live.

Lauren Handel Zander is the Founder and CEO of the Handel Group, a master life coach, author, and creator of The Handel Method® and Inner.U. She has spent over 20 years coaching thousands of private and corporate clients to human better, including Hugh Jackman, Questlove, Miki Agrawal, and executives at Live Nation, Ticketmaster, Dropbox, BASF, and Sequoia.

MISS BATES

"The delicious premise of Cliff's Miss Bates is that the boring, endlessly loquacious spinster of Jane Austen's novel harbors unsuspected depths of emotion and cunning...Will Miss Bates manage to turn the miserable hand life has dealt her into a winning one? It wouldn't be wise to bet against her."

—New York Times

Henrietta Bates, the iconic bore of Austen's *Emma*, is the opposite of handsome, clever, and rich Emma: she is plain, ill-educated, and impoverished. She is an object of scorn and pity, whose survival depends upon the generosity of her neighbors which she barter for with an unrelenting shower of banal and grateful chatter. But what if the woman we see in *Emma* were actually deliberately assuming a role as a means of managing an untenable situation? What would the Woodhouses's Highbury look like from her perspective? *Miss Bates* imagines answers to these questions as it chronicles Henrietta Bates's unexpected life, navigating a world with no ready-made opportunities, where the stakes are of the highest order. By turns comedic, tragic, startling, *Miss Bates* turns Austen's poignant and ridiculous side character into a force who understands the life she has been dealt and how to slyly play it to her advantage.

PRIMETIME

A New Vision for Midlife

"A transformative journey into the heart of midlife, offering profound insights and strategies that challenge our longstanding misconceptions."

—Becca Levy, Ph.D., author of *Breaking the Age Code*

Primetime, based on the landmark research of leading lifespan psychologist and professor Margie Lachman, creates an inspiring new framework for midlife, debunking persistent myths and redefining midlife as the optimal time for personal growth and satisfaction. With 30 years of research devoted to the study of midlife from a lifespan developmental perspective, Lachman exposes the myths that midlife is a "crisis" and is the unhappiest time of life. In reality, only a small percentage of people report a midlife crisis; many people have a higher sense of well-being and control. It is a time when most are still healthy and highly functioning, mentoring younger people and caring for older ones, and benefiting from increased knowledge and experience. *Primetime* reveals midlife as a critical time in the life cycle with high generativity and peak responsibility, as well as a time when choices are made that impact later years, and Lachman guides readers to make sense of the past and imagine future possibilities.

HOW TO FEEL LOVED

The Five Mindsets That Get You More of What Matters Most

"This book is a gift to anyone who wants to live with more joy and connection, which will also help you live longer."

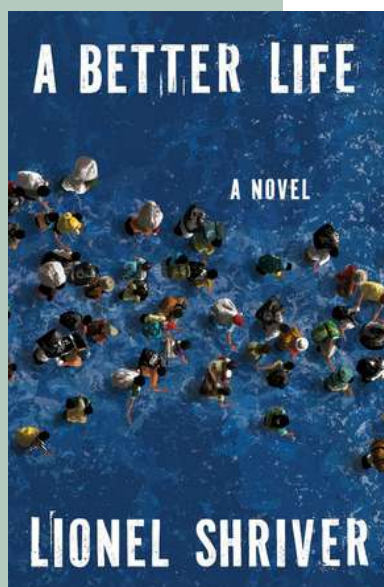

—Dan Buettner, bestselling author of *The Blue Zones*

We can be loved—and still not feel loved. Many people believe that if they behave the right way or make themselves more lovable, they will feel more loved. But this is fundamentally misguided, causing a disconnect that can lead to loneliness and self-doubt. Sonja Lyubomirsky and Harry Reis have studied the complexities of well-being and love in depth. They present a radical, science-backed shift in how to think about love, revealing that feeling loved is about showing our full, vulnerable selves to others and encouraging our loved ones to reveal their full selves to us. They introduce five powerful mindsets—Sharing; Listening-to-Learn; Radical Curiosity; Open-Heart; and Multiplicity—which will help readers remake their conversations in ways that enable them to deeply know those they love and become deeply known by them. It isn't enough to be loved. To be truly fulfilled, we must feel loved. This book shows us how.

A BETTER LIFE

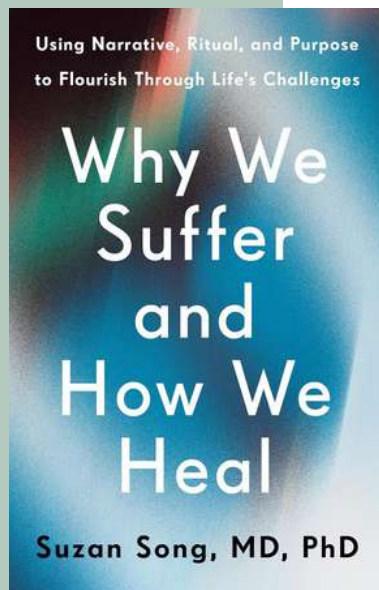

Upmarket Fiction

"Shriver's deft prose presents emotional arguments that encapsulate both sides of the immigration debate...This is a book readers will be eager to talk about." —Library Journal (starred review)

Gloria Bonaventura, a divorced mother of three living with her 26-year-old son in a sprawling house in Brooklyn, decides to participate in a new city program that would pay her to take in a migrant as a boarder. Liberal to the extreme, Gloria is thrilled when kind, helpful Martine arrives. But Nico, a classic live-at-home Gen Zer with no interest in adulthood, is skeptical. As the months go by, Martine endears herself to both Nico's sisters, while finding her way into Gloria's heart. But as Martine's disturbingly dodgy compatriots begin to show up, Nico conceives a dark twin. Is she really the nicest person in the world, or a manipulative, dangerous liar? Hostile to both his mother's altruism and the "migrant crisis" in general, Nico turns out to be anything but a reliable narrator himself. Based loosely on a program New York City Mayor Eric Adams floated but did not initiate, *A Better Life* is Lionel Shriver at her best: smart, funny, and sensitive to the moral nuances of perhaps the most divisive issue of our times.

WHY WE SUFFER AND HOW WE HEAL

Using Narrative, Ritual, and Purpose to Flourish Through Life's Challenges

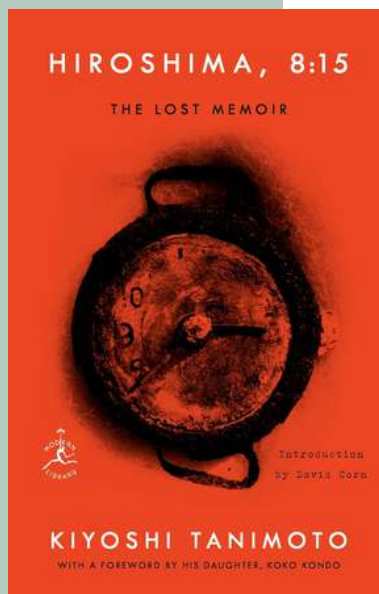

"A gift of empathy and lived wisdom—rare, real, and deeply human."

—Dr. Koen Sevenants, former global lead for Mental Health and Psychosocial Support in Emergencies for UNICEF's Child Protection Area of Responsibility

Dr. Suzan Song draws from patient stories, humanitarian research, and her own life to help readers release their unrealistic longing for stability. From her clinical practice in the United States to her global work with survivors of human rights violations, Dr. Song has uncovered three keys to resilience: Narrative, Ritual, and Purpose. Western therapy teaches that we heal by examining our influences, inner conflicts, and goals. This is vital work, but insight alone does not lead to lasting change. Song has found that rituals, whether private or community-based, create the bridge from insight to change. She brought this observation back to her clinical work along with the third potent source of healing: Purpose. Profoundly insightful, this book offers a groundbreaking new path to deep healing and finally feeling alive again.

HIROSHIMA, 8:15

The Lost Memoir

"A stunning historical discovery and a heartrending testimony."

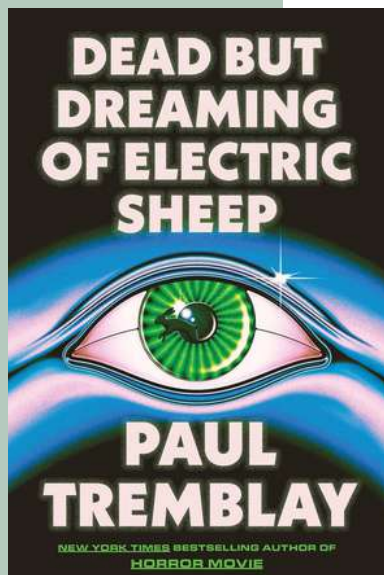

—Kai Bird, Pulitzer Prize-winning coauthor of *American Prometheus*

At approximately 8:15 on the morning of August 6, 1945, Kiyoshi Tanimoto was on the outskirts of Hiroshima when a flash in the sky signaled the birth of a dangerous new world. In an instant, tens of thousands of Hiroshima residents had been vaporized or crushed to death. In the months that followed, Tanimoto invested body and soul in helping his living congregants obtain food, shelter, and medical care, as well as identifying and burying those who had perished. He dedicated himself to rebuilding not only his church and congregation, but his city and his nation. He went on to gain renown as one of the survivors featured in John Hersey's *New Yorker* piece and book, *Hiroshima*, which changed the American public's understanding of the event. But Tanimoto also wrote his own story. *Hiroshima, 8:15* is both an invaluable addition to the historical record, and an urgent eyewitness testimony of one of the most calamitous events to befall humanity.

DEAD BUT DREAMING OF ELECTRIC SHEEP

"Paul Tremblay is on fire. . . .As entertaining and pop-culture savvy as this novel can be, it's emotionally wrenching and truly scary."

—Ed Park, author of Pulitzer Prize finalist *Same Bed, Different Dreams*

Meet Julia Flang, a twenty-something former semi-professional gamer, working two jobs she doesn't like. Her estranged mother, a CFO for one of the world's largest tech companies, offers a chance at a temp job with a payday Julia can't refuse. Meet a middle-aged man who wakes within a disorienting hellscape filled with monstrous grotesqueries. Worse than the fluid, morphing reality in which he's trapped, he has no memory of who he is. He only knows that he has to find a certain person. Who? He can't remember. As Julia fumbles through navigating the man she calls Bernie, the man endures an ever-changing nightmare that offers clues to who he was and to who he must find. The two narratives intertwine and spiral toward a horrific collision course conclusion.

LOST WORLDS

How Humans Tried, Failed, Succeeded, and Built Our World—A History of Civilization Through Trial and Error, Ice Age to Bronze Age

"This is non-fiction storytelling at its finest."

—Eric H. Cline, author of *1177 B.C.*

There's a familiar story about us humans: we went from hunting and gathering to farming, wandering bands to villages and cities, clans and chieftains to states and kings. But *Lost Worlds* offers a new narrative. Podcast host Patrick Wyman focuses on the 10,000-year span between the end of the Ice Age and the decline of the Bronze Age—the period when civilization as we understand it emerged, introducing social hierarchies, urbanism, complex political organizations, and the written word. In this nuanced retelling, human progress is no longer a straight march from caves to cities. For thousands of years, humans merely improvised. By the end of the Bronze Age, the world had become unrecognizable. Wyman argues that the rise of states and steady food production wasn't inevitable, but rather, the outcome of countless choices that made us who we are today.
